ISSUED QUARTERLY.]

AT the ANNUAL GENERAL MEETING of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, held at the London Tavern on Tuesday the 14th of March, 1865, His Grace the DUKE OF ARGYLL, K.T., P.C., V.P., in the Chair, the following Report of the Committee was read by the Secretary:—

ANNUAL REPORT.

THE Committee of Management of the ROYAL NATIONAL LIFE-BOAT INSTITUTION once again come before the tribunal of the British public, to render an account of their stewardship during the past twelve months, and to appeal once more to that public for its continued assistance in the performance of the important national duty which has been committed to them.

In rendering that account, and making that appeal, the Committee deeply feel the greatness of the responsibility which rests on them from the nature and extent of the work which they have undertaken—a work on which hang the issues of life and death. The great success, however, which Divine Providence has granted to their exertions, and the kind and liberal support which has been accorded by their fellow-countrymen, have encouraged the Committee to renewed exertion, and enabled them during the past year to increase considerably their Life-saving Fleet.

It is with extreme sorrow that the Committee have to advert to the great loss which the Life-boat cause has sustained by the death of their President, Admiral the Duke of NORTHUMBERLAND, K.G., who for fourteen years had actively co-operated with them in carrying out the national and philanthropic objects of the Institution. His Grace's name will long be remembered in

connection with the Preservation of Life from Shipwreck, and as having, through his munificence, brought into practical use the Self-righting Life-boat, which is now placed in large numbers around the coasts of the United Kingdom; and which has contributed during the past twelve years to the saving of thousands of lives from shipwrecks, not only on our own shores, but also on those of many foreign countries. It was only a short time since that the Committee had the satisfaction of presenting to their late valued President a beautiful model of the Self-righting Life-boat mounted on its Transporting-carriage, which he ordered to be permanently deposited in Sion House, Isleworth.

The Committee have much satisfaction in being enabled to state that, at their invitation, the Right Hon. EARL PERCY, M.P., P.C., has kindly accepted the office thus rendered vacant by the death of the late esteemed President of the Institution.

The most striking feature in the history of the Institution during the past year, as it also was in the preceding one, is the large number of splendid Gifts, in the shape of the entire cost of New Life-boats, which have been presented to this Society by benevolent persons and collective bodies, headed by an anonymous donation from a "A Friend" of no less a sum than 5,000*l*.

The Institution during the past year has

issued amended Rules for the Restoration of Apparently Drowned Persons, having, after obtaining the opinions of medical bodies and of a large number of professional men, in part adopted the Rules for Restoring Respiration, recommended by Dr. SILVESTER, combined with those of the late Dr. MARSHALL HALL.

In illustration of the general confidence which the Institution has obtained, it may be stated that three self-righting life-boats, fully equipped, and provided with transporting-carriages, have been built for the French Government, and others for associations at Marseilles, Bremen, and Holland, under the supervision of the Institution.

Naval officers from France, Russia, and Sweden have also been deputed by their respective Governments to visit England, for the express purpose of examining on our coast some of the life-boats of the Institution, and their system of management. Each of these gentlemen expressed his admiration of the completeness and efficiency of the establishments that came under his notice.

The general proceedings of the Institution may be thus epitomised:—

Life-boats.—During the past year the Institution has provided no less than 34 new life-boats, and others are in course of construction. The stations to which they have been appropriated are:—Berwick-on-Tweed, and Alnmouth, Northumberland; Sunderland, Durham; Redcar, Bridlington, and Hornsea, Yorkshire; Donna Nook, Theddlethorpe, Sutton, and Skegness, Lincolnshire; Palling and Caister, Norfolk; North Deal and Dover, Kent; Poole, Dorset; Teignmouth, Devonshire; Penzance, Sennen Cove, Newquay, and Padstow, Cornwall; Ferryside, Carmarthen Bay; Cardigan and Newquay, Cardiganshire; Porthdinllaen, Carnarvonshire; Holyhead, Anglesey; New Brighton, Cheshire; Blackpool and Piel, Lancashire; Maryport, Cumberland; Girvan, Ayrshire; Dunbar, Haddingtonshire; Tramore and Ardmore, County Waterford; and Valentia, County Kerry. Of this number, fifteen have been for new stations; the remainder having gone to replace inferior or worn-out boats.

Transporting Carriages and Boat Houses

have been provided, with few exceptions, for the whole of the above-named life-boats.

The life-boats of the Institution now number one hundred and forty-four. Through their agency no less than 432 lives have been saved during the past year, nearly the whole of them under circumstances when no other description of boat than a life-boat could with safety have been employed. They have likewise been the means of extricating from danger, or of conveying into ports of safety, 17 vessels; and on forty-nine other occasions they have been launched and have proceeded to the assistance of vessels showing signals of distress, or that were in evident danger, but which did not ultimately require their services. On many other occasions the crews of life-boats have been assembled in readiness to launch them, when it has appeared probable that their aid might be required. For these various services, and for the saving of 266 lives by shore-boats and other means, the Institution has granted rewards amounting to 1,539*l.*

The Committee, believing that it would tend to increase the efficiency of the life-boat establishments of the Institution, have decided on paying each of the Assistant-coxswains, hitherto unsalaried, a small annual stipend.

The Committee regret having to report that, in the performance of their dangerous and arduous duties, three men belonging to their life-boats perished during the past year, notwithstanding the care taken to provide for their safety; namely, JAMES GRANT and EDMUND ROBSON, from the Tynemouth life-boat, on the occasion of the wreck of the steamer *Stanley*, and other vessels at the entrance of the Tyne, on the night of the 24th of November; and WILLIAM HUGHES, from the Holyhead life-boat, on the 14th of January last. Each of these men was provided with the usual life-belt supplied by the Institution, but one of them was supposed to have been crushed between the life-boat and the vessel's side, and the other two perished from the effects of cold and exhaustion before they could be picked up. The Committee, however, feel that they cannot expect to engage in so perilous a work as the life-boat service without an

occasional accident attended with loss of life; and they see much reason to be thankful that such accidents have been of so rare occurrence; in illustration of which the fact may be stated that during the last two years about 12,000 persons have been afloat in the life-boats of the Institution on occasions of wrecks and for practice, and that the three above alluded to are the only lives that have been lost during that period.

And here the Committee would refer with great satisfaction to the continued intrepid services of the life-boat crews, who are ever ready, day or night, to man the life-boats during the fiercest storms.

Shipwrecks and Loss of Life.—The field of the operations of the NATIONAL LIFE-BOAT INSTITUTION stretches over the whole of the coasts and seas of the British isles, which are annually strewn with so large a number of shipwrecks that they average 2,000, arising partly from the great and expanding commerce of the country, and partly from the intrepidity and, it must be added, the carelessness of our seamen; and often, it is feared, from the imperfect equipment of our merchant-vessels, and from other preventible causes. The lives of between 5,000 and 6,000 persons are thus placed annually in jeopardy; but happily, owing to the prompt and unceasing exer-

tions that are everywhere made on occasions of shipwrecks, the actual loss of life amongst that large number of persons placed in peril did not last year exceed 450 lives. Large indeed is this death-roll; but, as far as this Institution is concerned, no exertion, with God's continued blessing, will be wanting to diminish even that number.

Although the Committee lament to report the loss of so many lives in one year from various shipwrecks on our coasts, yet every friend of humanity must rejoice with them in the gratifying and encouraging fact that so many as 432 persons owe their lives immediately to the services of the life-boats of this Institution, as shown below;* in addition to those rescued by fishing-boats and other means, for which services the Institution has granted rewards. There can be no misunderstanding in respect to such happy results, which have elicited not only the heartfelt gratitude of the wrecked men themselves and their families, but have also excited the sympathy and liberality of a large proportion of the British public, who now look upon the LIFE-BOAT INSTITUTION as one of the most important establishments of our country.

The Committee feel that much credit is also undoubtedly due to the Board of Trade for their continued valuable and cordial co-operation with the Institution, and for the

state of efficiency to which the Board have brought the mortar and life-saving apparatus, which is worked by the Coast-guard on the coasts of the United Kingdom, through which means a large number of lives have likewise been saved.

And here it may be distinctly stated, as a gratifying fact—that few lives are now lost on occasions of storms on our coasts that could possibly be saved by any efforts from the shore. No doubt many shipwrecks, with loss of life, will continue to take place notwithstanding all the ingenuity and daring of man, for it is not in human power always to contend with violent gales of wind, such as are every winter experienced on these islands.

The total number of lives saved during the forty-one years from the establishment of the Institution in 1824, to the end of the year 1864, either by its life-boats, or by special exertions for which it has granted rewards, is as follows:—

The amount of happiness thus brought to this great multitude of persons saved from death in its most appalling form, and to many of those who would otherwise have been widows and orphans, can only be fully realized by themselves; but the British public in general entertains a deep sense of the national benefit thus derived from the preservation of 14,266 shipwrecked sailors and fishermen; and it must especially be a source of satisfaction to every patriotic per-

son, who has either directly contributed by his own exertions or indirectly by his contributions, in bringing about a result which is without a parallel in the history of benevolent exertions of a kindred character in any other country.

Rewards.—In the Appendix will be found a summary of the cases in which honorary and other rewards have been voted by the Institution. During the past year 9 Silver Medals, 13 Votes of Thanks inscribed on vellum and parchment, and 1,539L. have been granted for saving the lives of 698 persons by life-boats, shore- and fishing-boats, and other means, on the coasts and outlying banks of the United Kingdom.

In reference to these grants, the Committee continue to devote the most careful attention to this important and interesting part of their duties. Each individual case has been carefully inquired into, through the instrumentality of the Officers of Coast-guard and Customs, the local Honorary Secretaries of the several Branches of the Institution, or other responsible persons; while each case has been thoroughly sifted and considered by a Sub-Committee previous to its being considered by the General Committee.

Our boatmen and fishermen, all over the coast, know now that their exertions in saving life from shipwreck will be promptly and liberally rewarded by the NATIONAL LIFE-BOAT INSTITUTION, in proportion to the risk and exposure incurred in the service; and in this way a spirit of emulation and activity is fostered and encouraged on the coasts of the British Isles, productive of the best results.

In this important work the Committee have continued to receive the prompt and cordial co-operation of Commodore A. P. RYDER, R.N., Controller-General, and Capt. J. W. TARLETON, R.N., C.B., Deputy-Controller-General, and of the Officers and men of the Coast-guard Service, to whom the best thanks of the Institution are hereby tendered.

Since the formation of the Institution it has expended on life-boat establishments nearly 120,000L., and has voted 82 Gold and 745 Silver Medals for saving life, as

well as pecuniary awards to the amount of 19,800*l.*

Local Committees.—The Committee acknowledge again the prompt co-operation of the Local Branch Committees, which constitute so important a portion of the machinery for the supervision of the several life-boat establishments of the Institution. They have also to express their sense of the valuable and gratuitous services of the zealous Honorary Secretaries of those Committees who conduct the correspondence with the central managing body in London.

Finances.—The total amount of receipts by the Institution during the year 1864 has been 31,917*l.* 9*s.* 8*d.*; and the Committee are much gratified in being able again to report, that of this sum no less than 8,077*l.* 11*s.* 10*d.* were special gifts to defray the cost of the following 25 life-boats:—

In the event of life being rescued by any of these boats, the generous donors will have the peculiar satisfaction of feeling that the

saving of such life had been the result of their individual gift to the NATIONAL LIFE-BOAT INSTITUTION.

The Committee have also especially to express their gratitude to a benevolent lady for her very munificent contribution of 5,000*l.* received through Messrs. HOARE. They would observe that the donor has in no way restricted the appropriation of her gift; and that they are deeply sensible of the confidence she has thus reposed in them, and have decided to appropriate the amount as circumstances may require, in replacing some of the earlier and smaller life-boats of the Institution, and in maintaining life-boats on stations where little or no local support is received.

Amongst the many other gratifying and encouraging donations received by the Institution since the last Report, the following may be mentioned:—

500*l.* from the Hon. RUSTOMJEE JAMSETJEE JEJEEHOY, of Bombay, per R. W. CRAWFORD, Esq., M.P.; 5*l.* 7*s.*, from 150 employés of the West India Docks, by Mr. J. BRADFIELD, in sums varying from three pence to five shillings; 59*l.* 13*s.*, from the Seamen's Association at Drontheim, Christiansund, and Nalesund, in Sweden and Norway; 15*s.* 6*d.*, from LUCY PALMER and her three fellow-servants; 250*l.* from BURTON D'ALENÇON; 10*s.* 6*d.* from an Old Salt; 100*l.* (second donation), from a Sailor's Daughter, per Messrs. DRUMMONDS; 500*l.* from an Anonymous Donor, by the hands of L. H. H., per Messrs. COUTTS; 41*l.* 12*s.* 6*d.* from JAMES BRYANT, Esq., "being contributions from abroad;" 100*l.* (2nd donation) from a friend, "in gratitude to God for the preservation of his wife for another year;" 5*s.*, the savings of two little sisters; 4*l.* as a Christmas Thank Offering from the parish of Little Easton, per Rev. V. K. CHILD; 1*l.* 5*s.*, collected in St. John's Sunday Schools, Garside Street, Manchester; 6*l.* 8*s.* from Lady MAXWELL, of Monreith, contributions dropped into a life-boat Contribution Box in the hall of her mansion; and 60*l.* collected from seamen and others by the agents of the Sister Institution—the Shipwrecked Fishermen and Mariners' Royal Benevolent Society.

The grateful acknowledgments of the Committee are also due to the several gentlemen who had collected the cost of eight Life-boats amongst their friends and others in Manchester, Birmingham, Bristol, and Wiltshire. Although not on the coast, they have set a noble example to other inland towns and counties, in thus directly aiding to perform an important part in the national duty of preserving the lives of shipwrecked sailors.

The Committee have also to tender their sincere thanks to the important body of Commercial Travellers for collecting the cost of two Life-boats, and to the Ancient Order of Foresters, for subscribing the cost of one Life-boat.

The Committee regret to have to announce the loss by death of several valued friends and subscribers of the Institution during the past year. They would particularly refer to Admiral BERTIE C. CATOR, who for many years past had been an active member of its Committee of Management; and to MONTAGUE GORE, Esq., who was also a zealous member of the Committee. At the Annual Meetings of the Institution, and on other occasions, Mr. GORE pleaded, with an eloquence peculiar to himself, the claims of the Institution to public support. They would also allude to the late A. W. JAFFRAY, Esq., V.P., who had been for many years a liberal contributor to the funds of the Institution, and who had munificently defrayed the entire cost of three life-boats, which are stationed respectively at Whitby, St. Andrew's, and Thurso. In ROBERT RANSOME, Esq., of Ipswich, the Institution has also lost a zealous coadjutor and a liberal supporter.

Legacies have been bequeathed to the Institution during the past twelve months by DAVID CAMPBELL, Esq., of Rothesay, 120*l.*; NEWMAN SMITH, Esq., of Great Cumberland Place, 50*l.*; Admiral O. V. HARCOURT, of Swinton Park, 1,000*l.* (free of duty); F. R. MAGENIS, Esq., of Grosvenor Place, 1,000*l.*; W. WEBSDALE, Esq., of Ipswich, 19*l.* 19*s.*; GEORGE WHEELHOUSE, Esq., of Deptford, 250*l.*; Captain M. MONTAGU, R.N., of Bath, 100*l.* (free of duty); WILLIAM JACKSON, Esq., of Henshaw, Northumberland, 50*l.*; JOHN KITCH-

ING, Esq., of Stamford Hill, 100*l.* (free of duty); JOSEPH CUPIT, Esq., of Danesmoor, Derby, 10*l.*; JAMES MACNAB, Esq., of Guildford, 100*l.* (free of duty); EDWARD KING, Esq., of the National Debt Office, 19*l.* 19*s.*; Hon. Mrs. FITZ-ROY, 400*l.*; JOHN APPELYARD, Esq., of Halifax, 2,000*l.*; THOMAS STUBBS, Esq., of Chester Road, Hulme, Manchester, 500*l.*; Miss BRODIE, of York Place, Portman Square, 400*l.*; and Mrs. MORGAN, of Cheltenham, 200*l.*

During the past year 11,666*l.* 11*s.* 3*d.* were expended on additional life-boats, transporting-carriages, boat-houses, and necessary gear; 5,214*l.* 12*s.* 10*d.* on the expenses of repairs, painting, refitting, &c.; and 4,194*l.* 12*s.* 2*d.* in rewards for services to shipwrecked crews, coxswains' salaries, and quarterly practice of the boats' crews; making altogether, including liabilities amounting to 6,337*l.* 9*s.* for Life-boat Stations now in course of formation, and other expenses, a total of 29,034*l.* 9*s.* 5*d.*

For a considerable saving in the item of transport to their stations, of new life-boats and carriages, the Committee have again to express their thanks to the several Railway and Steam Packet Companies, who have most liberally conveyed them to all parts of the United Kingdom, free of charge.

The items of receipt and expenditure are detailed in the financial statement annexed to this Report.

The Committee have had on former occasions to refer to the magnitude and costliness of the extensive operations of the NATIONAL LIFE-BOAT INSTITUTION; and last year they have been greater than at any preceding period during the past forty-one years; but they are happy to say the benevolence of the public has been proportionably large and liberal.

Thus supported and encouraged to conduct the affairs of the Institution on principles which have proved by experience to be sound and practicable, the Committee feel assured that it will never be allowed to languish from the want of funds to perpetuate, and extend as occasions may require, its merciful work on the coasts of the United Kingdom.

[The Redcar life-boat is the oldest in the kingdom—having been built in the beginning of the present century—and in performing this service was so severely injured that the Local Committee decided to condemn her as unfit for further service. LORD STRATFORD DE RECLIFFE, who happened soon afterwards to be on a visit to the EARL OF ZETLAND at his seat near Redcar, composed the following verses on the old boat:—]

"The life-boat—oh! the life-boat, we all have known so long,

A refuge for the feeble, the glory of the strong;
Twice thirty years have vanished since first upon the wave
She housed the drowning mariner, and snatch'd him from the grave.

Let others deem her crazy, no longer fit to breast
The surge that, madly driven, bears down with foaming crest;
But we, who oft have manned her, when death was on the prow,

We cannot bear to leave her, nor will we leave her now.

Our fathers long before us her worth in danger tried;
Their fathers too have steered her amidst the boiling tide;
We love her—'tis no wonder—we can but follow them;
Let Heaven, but never word of man, the dear old boat condemn."

The tugs were employed for three days, but were not successful in their endeavours. On the 19th Oct., the weather, which had been moderate, changed, the wind blowing a gale and the sea beating heavily on the sand. The Caister life-boat put off twice to the steamer, and took the fifty-five labourers from her, placing them on board the steam-tugs; but the captain of the *Ontario* refused to leave his vessel or to allow his crew to do so, and the life-boat therefore returned to the shore. On the morning of the 20th Oct. the crew of the Caister life-boat again went out to the steamer, but the captain still refused to abandon his ship, or to allow his crew to do so, and the life-boat returned to her station. Some hours afterwards the wreck's crew left in one of the ship's life-boats, and were taken on board a steam-tug.—The expenses of the services of the Caister life-boat, including reward to the crew of a steam-tug, amounted to 116l.

Oct. 21.—The sloop *Liver*, of Carnarvon, was totally wrecked during a very heavy gale of wind off Southport. The life-boat at the latter place went off and saved the crew of 3 men.—Expense of service, 8l. 18s.

Oct. 22.—The brig *Eliza Hall*, of Whitby, was totally wrecked in the night during a very heavy gale of wind, on the rocks, outside the breakwater of Granton Harbour. Mr. ANGUS CAMPBELL, carpenter on board the cutter *Princess Royal*, belonging to the Edinburgh Board of Fisheries, rushed into the sea, and, after two gallant attempts, succeeded in effecting a communication with the wreck, by which means the vessel's crew of 8 men were afterwards rescued. Mr. S. M'DONALD, master of the cutter, stated, that a few minutes before midnight, lights were seen by the crew of the cutter, which was lying near the breakwater, as if shown from a vessel driving towards the rocks. A boat was at once manned and pulled to the breakwater, but the vessel appearing to hold well on about 500 yards off the rocks, and finding it difficult to keep a footing on the breakwater, the boat returned to the cutter, where a watch was still kept on the vessel. About 3 A.M., the light appeared to be nearer, and the boat was again pulled to the breakwater, when the vessel was found striking heavily on the rocks, but at too great a distance for any assistance to be rendered to the unfortunate crew. The sea made a clean breach over the vessel, and the cries of the poor fellows for help were of the most piercing and heartrending character. For a time all hope of saving them seemed vain; but at length a heavy sea swung the vessel's port-quarters closer in, and the crew were hailed to try and heave a line on shore. A line was then made fast round the body of CAMPBELL, and he dashed down the outer slope of the breakwater, but the line falling short, he was drawn up again. A second attempt was made, and CAMPBELL again, in the most gallant and determined manner, rushed into the surf. This time a communication was fortunately effected, and the shipwrecked men were soon afterwards all safely brought on shore.—Voted the Silver Medal of the Institution, a

copy of its Vote on parchment, and 2l. to Mr. CAMPBELL, in admiration of his gallant and persevering conduct on the occasion; and also the Thanks of the Institution to Mr. J. DYER, mate of the cutter, and the remainder of those persons who assisted CAMPBELL, for their laudable services on the occasion.

Oct. 23.—The schooner *Forest*, of Montrose, was wrecked during a strong north-east wind on the Bog Hall Sands, off Cresswell, Northumberland. A fishing-boat manned by 6 men, put off and rescued the vessel's crew of 6 men.—Reward, 6l.

Oct. 23.—The Dutch galliot *Triton* was wrecked during a very heavy gale of wind near Lawfield, N.B. All her crew, except one man, unfortunately perished. The man in question was saved by persons wading into the surf.—Reward, 2l.

Oct. 26.—The Caister life-boat went off in the night and rescued the crew of 6 men from the brig *Richmond Packet*, of Middlesborough, which was totally wrecked during a strong wind on the Barber Sands, Norfolk. The beachmen had previously gone off in one of their large yawls, but could not get near the vessel, owing to the heavy sea, and were thus compelled to return for the life-boat, which they launched with the utmost promptitude, and took off the shipwrecked crew from the rigging.—Expense of service, 25l.

Oct. 28.—The schooner *Agnes*, of Lossiemouth, was wrecked amongst the breakers near that port in a heavy sea. The Lossiemouth life-boat put off and saved the crew of 3 men.—Expense of service, 10l. 3s. 6d.

Oct. 31.—The Norwegian brig *Oscar* foundered during a heavy gale of wind on the north-east part of Margate Sands. The luggers *Secret* and *Mary* of that port rescued the vessel's crew of 9 men.—Reward, 10l.

Nov. 3.—Voted 45l. 13s., to pay the expenses of the life-boats at Newbiggin, Tynemouth, North Berwick, Hauxley, Withernsea, and Orme's Head, for various services during the heavy gales of October.

Also a reward of 11l. to the crew of a boat for their prompt services, while out fishing, in saving a man who had fallen overboard from the steamer *Vesta*, while on her voyage, off Passage, near Waterford, on the 11th October.

Nov. 5.—The Blakeney life-boat put off and brought safely ashore the crew of 6 men from the French chasse-marée, the *Eleanore*, of Nantes, which was wrecked on Blakeney West Sand during a strong wind from N.N.W., and hazy weather. The crew, who were overjoyed at the sight of the life-boat, were only prevented from being washed overboard by an oar lashed across the vessel's rigging.—Expense of service, 8l. 10s.

Nov. 6.—The Lossiemouth life-boat put off during stormy weather, and brought safely ashore 6 labourers from the derelict barque *Arctusa*, of Liverpool, which had been wrecked some days previously off Lossiemouth.—The expense of this service was paid by Lloyd's Agent.

Nov. 17.—The schooner *Sarah*, of Waterford, was stranded during a full gale of wind off Tramore. The Tramore life-boat put off and rescued the vessel's crew of 6 men.—Expense of service, 8l. 1s.

Nov. 18.—The New Quay (Cornwall) life-boat went off and brought safely ashore the crew of 5 men from the schooner *Heroine*, of Milford, which was wrecked during a terrific gale of wind off New Quay.—Voted the thanks of the Institution to Mr. W. H. TREGIDGO for his services in going off in the life-boat on the above occasion.—Expense of service, 5l. 14s.

Nov. 18.—The sloop *Active*, of Carnarvon, was in danger of foundering during a heavy gale of wind in Caldy Roads, off Tenby. The Tenby life-boat put off and saved the crew of 3 men.—Expense of service, 7l. 15s. 6d.

Nov. 18.—The Penarth life-boat went off in the night and assisted to save from a very perilous position the ship *Far West* and her crew of 22 men, near the entrance of Newport River.—Expense of service, 6l. 10s.

Nov. 19.—The brig *Chimera*, of Liverpool, was totally wrecked with the loss of all her crew, excepting one man, during a heavy gale of wind in the night. The Southport and Lytham life-boats were out during part of the night and again the following morning, but could find no trace of the unfortunate crew. The only man saved was taken off the wreck by a fishing-boat.—Expense of the services of the life-boats, 43l. 12s.; and a reward of 8l. to the crews of the fishing-boats.

Nov. 24.—The Blakeney life-boat went out and rescued the crew of 5 men from the schooner *Fernand*, of St. Malo, which was wrecked during a gale of wind on Blakeney West Sand, Norfolk.—Expense of service, 8l. 5s.

Nov. 24.—The New Romney life-boat put off and brought safely ashore the crew of 15 men from the barque *Louis the Fourteenth*, of Dunkirk, which was wrecked during a strong gale of wind and heavy rain in Romney Hoy, on the Kentish coast.—Expense of service, 15l. 12s.

Nov. 24.—The Yarmouth surf life-boat went off and rescued 3 of the crew of the barque *Sea Serpent*, of South Shields, which had stranded in a very heavy sea off Wellington Pier, Great Yarmouth. The remainder of the vessel's crew were saved by the rocket-apparatus. Expense of service, 23l.

Nov. 24.—During the most fearful storm that had been seen for many years on the Northumberland coast, and soon after darkness had set in, the *Stanley* screw-steamer from Aberdeen, and the schooner *Friendship*, of Colchester, in attempting to enter the River Tyne, were driven on the Black Middens Rocks, on its northern shore. The steamer, unfortunately, besides her crew of 30 persons, had also on board 30 passengers, principally females. As soon as she struck, wave after wave broke over her with terrific force, sweeping her decks and threatening her immediate destruction. The fires were quickly extinguished and the air was rent by the shrieks and cries of the affrighted passengers and crew. A communication with the vessel was affected from the shore by means of the rocket-apparatus, but it was only successful in saving the lives of 3 seamen, it having become entangled in the rocks, and the only female who had ventured into the cradle having, with one of the sailors who accompanied her, fallen from it into the sea and been drowned. Four ladies and a seaman were also drowned by the upsetting of the only one of the steamer's boats which was lowered into the water. The life-boat of the NATIONAL LIFE-BOAT INSTITUTION, the *Constance*, at Tynemouth, after having once put off and been again in error recalled to the shore, then proceeded through a tremendous surf to the rescue of the unfortunate shipwrecked people. It is thus described by Mr. JAMES GILBERT, the coxswain:—

“The night was pitchy dark, and from the moment that we started nothing more was to be seen than the white flash of sea which passed over the boat and crew, without intermission, twelve or thirteen times. I could not see a man but the second coxswain; yet as quickly as the boat was freed of water she was buried again and again never displacing a man from his seat. When I

found my boat in a position for the ship, I gave orders to back all oars, and keep her end-on to the sea. When abreast of the port-bow, two men told us that they had a rope ready on the star-board bow. I then ordered the bowman to be ready to receive the rope. As soon as I found we were prepared, they made two dashing strokes, and we were under the bowsprit, expecting every second the rope, when we heard a dreadful noise, and the next instant the sea fell over the bows of the *Stanley*, and buried the life-boat. Every oar was broken at the gunwale of the boat, and the outer ends swept away; the men made a grasp for the spare oars; three were gone; two only remained. We were then left with the rudder and two oars. The next sea struck the boat almost over end on board the *Friendship*, the boat at the time being nearly perpendicular. We then had the misfortune to lose four of our crew; as the boat made a most fearful crash, and fell alongside the vessel, I believe JAMES GRANT to have been killed on the spot, betwixt the ship and boat. JAMES BLACKBURN states he was thrown out. JOSEPH BELL jumped as the boat fell. We saw them no more. There were four men in a group standing before the mainmast of the schooner, when we implored them to come in the boat, but no one answered. The next sea that struck the life-boat carried her within six feet of the foundation stone of Tynemouth Dock. The crew plied the two remaining oars to leeward against the rudder and boat-hook. We never saw anything more till coming near the three Shields life-boats. We asked them and the salvage-boat, *William Wake*, for oars to proceed back to the *Friendship*, but they had none to spare. The *William Wake* took the life-boat in tow to the land.

“Although this misfortune has befallen us, it has given fresh vigour to the crew of the life-boat, and every man here is ready, should they be called on, to act again a similar part.”

Of the four life-boat men who jumped from the boat to the schooner, JAMES GRANT was crushed between the ship and the boat, and much injured, but was hauled on board the schooner still alive, and secured, as were the rest, to the rigging. When the vessel broke up GRANT and ROBSON were drowned; but JOSEPH BELL and JAMES BLACKBURN, buoyed up by their cork life-belts, were washed ashore and saved. The bodies of the two deceased life-boat men were ultimately recovered. The schooner afterwards sank, and her crew of four men and one boy, as well as the two life-boat men, were lost. Subsequently, the tide having receded, allowing a nearer approach to the steamer, operations were again commenced. After firing four rockets, a communication was effected, and all on board were speedily hauled on shore. Ten only out of the thirty passengers were saved, including two ladies, and five out of thirty of the crew were lost. The two poor men who were lost by jumping or being thrown out of the life-boat left two widows and seven children.

Immediately intelligence, by telegram, of this melancholy affair was received at the ROYAL NATIONAL LIFE-BOAT INSTITUTION, a new life-boat was temporarily forwarded to Tynemouth to replace the disabled one; but the local boatmen particularly requested that, after their life-boat had been repaired, she might be returned to them in lieu of their being provided with a new life-boat. Instructions were given for the relief of the widows and orphans of the two gallant life-boat men who perished, and 28l. were sent to the crew of the life-boat. The Committee of the Institution, at their next Meeting, also voted 100l. in aid

of a fund raised locally for the widows and seven orphans of the two men: also the Silver Medal of the Institution, and a copy of their Vote on Vellum, to Mr. LAWRENCE BYRNE, in testimony of his gallant services on the occasion.

Nov. 25.—The Winterton life-boat went off and saved the crew of 6 men from the brig *John*, of Hartlepool, which was wrecked off Winterton, Norfolk, during a heavy gale of wind.—Expense of service, 23*l*.

Nov. 25.—The *Mary Hartley* (Dundee) life-boat went off in tow of a steam-tug, and rescued the crew of 4 men from the schooner *David and John*, of Montrose, which was totally wrecked during very stormy weather, near No. 2 Gaa Buoy, River Tay.—Expenses, including 5*l*. 5*s*. for services of steam-tug, 19*l*. 5*s*.

Nov. 26.—The schooner *Elizabeth*, of Llanelly, was observed in distress off Padstow, during a very severe gale of wind. The City of Bristol (*The Albert Edward*) life-boat, at Padstow, put off and assisted the vessel safely into harbour.—Expense of service, 6*l*. 14*s*. 6*d*.

Nov. 27.—The barque *Devonshire*, of Liverpool, was observed with signals of distress flying off Llanddwyn, on the Anglesey coast, during a strong west-south-west wind and rough sea. On the Llanddwyn life-boat arriving alongside, the captain engaged 5 of the life-boat crew to assist him in getting his vessel to Liverpool; nearly all his own crew of 16 men being disabled by illness.—Expense of service, 8*l*. 9*s*.

Nov. 28.—The Pakefield life-boat went out during a heavy gale of wind to the rescue of the crew of the brig *Devonport*, of South Shields, which was observed in distress in Pakefield Gat: before the arrival of the life-boat, however, the crew abandoned the wreck in their own boat, and were picked up by the steam-tug *Imperial*, of Lowestoft. While returning to the shore, the barque *Jenny Lemelin*, of Quebec, was also observed in distress, and the Pakefield life-boat assisted to save both the vessel and her crew of 9 men.—Expense of service, 13*l*. 11*s*.

Dec. 1.—Voted the Silver Medal of the Institution and a copy of its Vote on Vellum, to Mr. JOHN B. BULKLEY, in testimony of his long and gallant services in assisting, as coxswain of the Teignmouth (Devon) life-boat, and by other means, to save a large number of shipwrecked persons.

Also 13*l*. 16*s*. 6*d*. to pay the expenses of the life-boats of the Institution stationed at Walmer, Scarborough, Bacton, New Romney, Tyrella, Caister, Teignmouth, Filey, Dundee, Blackpool, Kirkcudbright, Rye, Winchelsea, Penarth, Porthdinllaen, Braunton, and Campbeltown—in either assembling the crews or in putting off during the fearful gales of November, in reply to signals of distress from various vessels. On some of these occasions the crews of the life-boats had

persevered for many hours, occasionally during dark and stormy nights, with the view of falling in with the distressed vessel; and in other cases so fierce was the gale, that all signs of both vessels and crews had entirely disappeared before even the life-boats could possibly arrive at the scenes of the distressing calamities.

Reported the services of the Newbiggin life-boat in going off and rendering important services to twenty-one fishing-boats and their crews, who, while out fishing, were overtaken by a sudden and heavy gale of wind. In one case the life-boat had to proceed a distance of two miles to the succour of one of the boats and her crew, who were found perfectly exhausted.

Dec. 7.—The St. Nicholas Light-ship, off Great Yarmouth, was observed throwing up rockets, and guns were also heard, while a light was seen, as if shown from a ship on the *Scroby Sands*. The wind at the time was blowing fresh from the S.S.W. The beachmen of all the Companies immediately launched the large life-boat—indeed, there was a noble ambition on the part of the men as to who should be first in the life-boat. She was speedily afloat, and, dashing through the heavy surf on the Sands, she bore down to the ship, which they reached about 11:30 P.M. The crew of the life-boat then endeavoured to save the vessel, if possible. They succeeded in getting her off, but, owing to the loss of her rudder, she again got on the Sand, when the crew, consisting of thirteen men, with the pilot, were taken off, and with great difficulty brought safely on shore. The vessel proved to be the brig *Zorniza*, of Lucine, 350 tons register, bound from London to Sunderland, in ballast. She afterwards sunk. The sea was terrific, and one of the beachmen's yawls was damaged to such an extent that her crew of 7 men all left her and got into the life-boat, fearing she would sink, till she was clear of the *Scroby Sands*.—Expense of service, 25*l*.

Dec. 7.—The Llandudno life-boat went off during a gale of wind, and brought safely into port the *Flat Morning Star*, of Carnarvon, and her crew of 3 men.—Expense of service, 13*l*. 10*s*.

Dec. 11.—The Penmon life-boat put off in reply to signals of distress, and brought safely ashore the crews, consisting of 5 men, from the smacks *Pearl* and *Speedwell*, of Carnarvon, which were in very dangerous positions off Penmon, on the Anglesey coast, during a heavy gale of wind. Fortunately the vessels held together throughout the night, and the next morning the crews were again put on board them.—Expense of service, 7*l*. 18*s*. 6*d*.

Dec. 23.—The Palling life-boat put off in the night during a strong wind, and saved the crew of 6 men from the schooner *Idas*, of Nantes, which was stranded opposite Palling Gap.—Expense of service, 19*l*.

ROYAL NATIONAL LIFE-BOAT INSTITUTION,

THE MEDAL
 OF THE
ROYAL NATIONAL LIFE-BOAT INSTITUTION,
 FOR THE
PRESERVATION OF LIFE FROM SHIPWRECK.

Obverse.—Bust of Her Majesty Queen Victoria; beneath, in minute letters, “L. C. Wyon.”
 Double legend, “Royal National Life-boat Institution. Founded in 1824.
 Incorporated 1860. Victoria, Patroness.”

Reverse.—Three sailors in a Life-boat,—one of whom is in the act of rescuing an exhausted mariner from the waves on a fragment of the wreck. “W. Wyon, Mint.”
 Inscription “Let not the deep swallow me up.”

THE beautiful obverse of this medal, which has recently been executed by L. C. WYON, Esq., represents the bust of QUEEN VICTORIA, Her Majesty's locks gracefully waving and gathered in a knot behind, from which issues a wreath of oak clustering over the forehead. This life-like portrait of the QUEEN, in high relief, conveys a truly pleasing and faithful likeness of Her MAJESTY; as at this period of her life; combining dignity of aspect and benevolence of nature; and represented by Mr. WYON with the most exquisite finish, delicacy, and beauty of workmanship.

The reverse, representing the Life-boat, in which there are three Sailors, rescuing a fourth from the sea, is a work of superlative merit. Two of the Sailors are steadying the boat, while the other, stooping, draws in the Shipwrecked Sailor, whose figure is given so as to show the form in the most natural and beautiful manner; and the expression thrown into his countenance looking up to his preserver is unrivalled by anything that we have ever seen, while the easy flowing lines of this sailor are finely contrasted by those of his companions: the whole displaying the most perfect knowledge of the human frame, the finest taste to arrange it, and a command of the graver to embody to us what the artist's bright genius had shadowed out to himself.

But there is another pleasing motive for our admiration of this beautiful Medal, as the figure who is so humanely extending his relief to the drowning Mariner is a portrait of the Artist (the late WILLIAM WYON, Esq., R.A.) himself.

The following is a LIST of the GOLD and SILVER MEDALS that have been voted by the Committee of this Institution, since its establishment in 1824, to persons whose humane and intrepid exertions in saving Life from Shipwreck have been deemed sufficiently conspicuous to merit that honourable distinction. The Cases will be found recorded in detail in the several Annual Reports of the Institution.

Note.—The asterisk (*) after the name denotes the reception of a Gold Medal.

The figure after the name signifies the number of honorary distinctions received from the Institution.

THE LIFE-BOAT OF THE ROYAL NATIONAL LIFE-BOAT
INSTITUTION.

Fig. 1.

Sheer Plan.

Fig. 2.

Deck Plan.

Fig. 3.

Body Plan.

Fig. 4.

Midship Section.

The accompanying figures show the general form, the nature of the fittings, and air-chambers of one of these boats, 33 feet in length and 8 feet in breadth. In figs. 1 and 2, the elevation and deck plans, the general exterior form of the boat is shown with the sheer of gunwale, length of keel, and rake of stem and stern-posts. The dotted lines of fig. 1 show the position and dimensions of the air-chambers within board, the relieving-tubes, and ballast. In fig. 2, A represents the deck, B the relieving-tubes (6 inches in diameter), C the side air-cases, D the end air-chambers, E ballast, F scuttles to admit of a free current of air under the water-tight deck, G scuttle for air, and to receive pump. In fig. 3, the exterior form of transverse sections, at different distances from stem to stern, is shown. Fig. 4 represents a midship transverse section, A being sections of the side air-cases, B the relieving-tubes, of the same depth as the space between the deck and the boat's floor. C, C, C, C, are spaces beneath the deck, placed longitudinally, at the midship part of the boat, with cases packed with cork, forming a portion of the ballast; d scuttle for ventilation, having a pump fixed in it, by which any leakage beneath the deck can be pumped out by one of the crew whilst afloat. The festooned lines in fig. 1 represent exterior life-lines attached round the entire length of the boat, to which persons in the water may cling till they can be got into the boat; the two central lines are festooned lower than the others, to be used as stirrups, so that a person in the water, by stepping on them, may climb into the boat without assistance.

This life-boat possesses in the highest degree all the qualities which it is desirable that a life-boat should possess:—

1. Great lateral stability or resistance to upsetting.
2. Speed against a heavy sea.
3. Facility for launching and taking the shore.
4. Immediate self-discharge of any water breaking into her.
5. The important advantage of self-righting if upset.
6. Strength.
7. Stowage-room for a large number of passengers.

LIFE-BOAT TRANSPORTING-CARRIAGE.

LIFE-BOAT TRANSPORTING-CARRIAGE AS ADOPTED BY THE ROYAL NATIONAL LIFE-BOAT INSTITUTION.

THE carriage consists of a fore and main body. The latter is formed of a keelway and of side or bilge-ways attached to the keelway, and resting on the main axle, the boat's weight being entirely on the rollers of the keelway. Its leading characteristic is that, on the withdrawal of a forelock pin, the fore and main bodies can be detached from each other. The advantages of this arrangement are, that whilst the weight of the boat when she is launched from the rear end forms an inclined plane by elevating the keelway, to replace her on the carriage she can be hauled bow foremost up the fore end or longer incline. The bilge-ways are

needed at the rear end, that the boat may be launched in an upright position with her crew on board; but they are not required at the fore end of the carriage. The boat is hauled off the carriage and launched into the sea by ropes rove through sheeves at the rear end of the carriage, each having one end hooked to a self-detaching hook at the boat's stern, and the other manned by a few persons on the shore, who thus haul the boat and her crew off the carriage and launch them afloat at once, with their oars in their hands; by these means headway may be obtained before the breakers have time to beat the boat broadside on to the beach.

ROYAL NATIONAL LIFE-BOAT INSTITUTION.

LIFE-BOAT REGULATIONS.

JANUARY, 1865.

THE following Regulations are intended for the guidance of the Local Committee to be formed at each place at which a life-boat is stationed by the NATIONAL LIFE-BOAT INSTITUTION, and to whose care and control the life-boat, her crew, and everything connected with her management and maintenance, will be intrusted.

The local committee to consist, if practicable, of not less than five persons usually resident, to be elected annually. The Inspecting-Commander of Coastguard of the division, or in his absence the nearest Coastguard officer to the spot, to be *ex officio* a member of the local committee.

1. The life-boat's crew to consist of a coxswain-superintendent, an assistant coxswain, a bowman, and as many boatmen in addition as the boat pulls oars.

2. For every boat, at least double the number of men required (if they can be found at or near the spot) should be invited to become members of her crew.

3. Such list to consist of sailors and fishermen who are usually resident, and (with permission of the Controller-General) of any Coastguard-men of the station who may volunteer for the service.

4. The salary of the coxswain-superintendent shall be 8*l.*, and that of the assistant coxswain 2*l.* annually. On every occasion of going afloat to save life, the coxswains and each of the crew shall receive alike, 10*s.* by day and 1*l.* by night; and for every time of going afloat for exercise, 3*s.* in smooth weather, and 5*s.* in rough weather. In the absence of the coxswain, the assistant coxswain will take charge of the boat.*

* The coxswain is held responsible for every man who goes into the life-boat, on occasions of service and of quarterly exercise, without having on a life-belt.

5. In the event of money being received by the life-boat for salvage of property, or similar service, a proportion equal to *two shares* shall be paid to the Institution to cover risk of damage to the boat, the remainder to be divided into equal shares amongst the coxswain and crew. If, however, salvage be paid for the preservation of life, no portion shall be reserved for the boat.

6. If local subscriptions be raised to reward any special act of gallantry or exertion, the Institution recommends that the whole of the money be paid to the crew, in equal shares.

7. As at each life-boat station there will be a local committee, the coxswain will act under their immediate directions, and the boat, except in case of wreck, is never to be taken afloat without their sanction.

8. As the efficiency of a life-boat depends on the good training and discipline of her crew, the strictest attention must be paid by them to the directions of the coxswain on all occasions connected with the service. The boat shall be taken afloat for exercise, fully manned, once during each quarter, sometimes in *rough weather*.

9. The local committee at each station are requested to make a Quarterly Report to the Institution, as to the behaviour of the boat during exercise, pointing out any defect that may require to be remedied, and offering any suggestion that may conduce to the efficiency of the service. Also generally to report on the state and condition of the boat, the carriage, the boat-house, and all the life-boat gear. Should occasion for immediate repairs arise, the local committee are authorized to make them to the

extent of 5*l.*: more extensive repairs to be referred, with an estimate, to the Parent Institution.

10. The boat is to be kept on her carriage in the boat-house, with all her gear in her ready for use, except matches, rockets, and perishable articles which may require to be secured from damp.

11. There should be three keys to the boat-house kept in different places, with the address of each painted on the door; one in possession of the coxswain, and the others as the local committee may decide.

12. Immediately on intimation of a wreck, or of a vessel in distress, the coxswain is to use his utmost exertions to assemble his crew, launch his boat, and proceed to her assistance: and in the event of a sufficient number of his crew not being present, he is to select the best volunteers he can get to supply their places.

13. If a wreck occur at some distance from the station, so as to require the boat to be transported along the coast, the coxswain is to send to procure sufficient horses (which, by the Wreck and Salvage Act, any magistrate, constable, or revenue officer may demand the use of), attach them to the carriage, and lose no time in making the best of his way with the crew to the scene of wreck.

14. A reward of 7*s.* to be given to the man who first brings intelligence of a wreck at such a distance along the coast as not to be in sight from the Coastguard or other look-out.

15. A signal shall be agreed on by which the life-boat crew can be called together when required. A flag hoisted by day and the firing of a carronade (or other alarm signal) twice, quick, by night.

16. On approaching a wreck, the coxswain will use his judgment, according to the circumstances of the case, whether he will board the wreck end on, either on the bow, on the quarter, or on the broadside: or whether he will go to windward, drop his anchor, and veer down to the wreck; or if he will lay her alongside.

17. On boarding wrecks, the preservation of life is to be the coxswain's sole considera-

tion, and he is on no account to take in goods or merchandize which might endanger the safety of his boat, and the lives of those intrusted to his charge. And should any be brought in, contrary to his remonstrance, he is fully authorized to throw them over-board.

18. No one besides the crew, namely, the coxswain, the second coxswain, the bowman, and one boatman for each oar, is on any account to be allowed to go out in the life-boat when going to a wreck, except with the express sanction of the local committee.

19. The life-boat is not to be used for taking off an anchor; nor for the purpose of salvage; nor for taking off stores, a pilot, or orders to a ship, so as to interfere with private enterprise, (except in cases of emergency, with the special sanction of the local committee,) but to be reserved for cases involving risk of life.

20. The coxswain will enter in a journal with which he will be supplied, all services performed by his boat, stating the time of launching, time of reaching the wreck, the vessel's name, whither bound, number of persons rescued, &c., a copy of which, on each occasion of wreck, is to be forwarded, by the local committee, to the Secretary of the Institution in London.

21. On returning from service, the boat is not to be left in the surf on the beach, but, as soon as possible, is to be got on her carriage, and placed in the boat-house.

22. The coxswain-superintendent will be held responsible for the efficiency and general good order of the boat-house, the boat, and her gear; and it is hoped that a sense of the trust confided to them in the cause of humanity will lead the coxswains and crew to be most careful on these points, and to distinguish themselves by their zeal and readiness and by the seaman-like manner in which their boat is handled.

By order of the Committee,

RICHARD LEWIS,
Secretary.

A Subscription List has been opened to found a new Life-boat (to be named the *Balmoral*). It will cost about Two Hundred and Fifty Pounds, which sum is being raised in Five Thousand Shares, at One Shilling each. Will you aid this benevolent object by becoming a Shareholder? Consent to do so, and at no distant period you will be satisfied with the dividend when you take up the Newspaper and read an account of a Wreck, in which the Gallant Crew of the *Balmoral* succeeded in saving all on board some ill-fated vessel! For it is a fact, that wherever a Life-boat has been established, the saving of life has invariably followed. "If we have the means of doing good—and know the way—and do it not, great is our responsibility."

When the Boat is launched it will be provided with a Transporting-carriage and Boat-house, and be maintained at the expense of the ROYAL NATIONAL LIFE-BOAT INSTITUTION.

Donations, in Money or Stamps, are received by

Yours respectfully,

M. T. MORRALL, Matlock, and 7 High Street, Manchester,

Total number of lives saved in the year ..... 698

For these joint numerous services in saving 698 lives from shipwreck, the Institution has granted rewards amounting to £1,539, in addition to 22 Silver Medals and other honorary rewards.

The number of lives saved either by the Life-boats of the Society, or by special exertions, for which it has granted rewards since its formation, is 14,266; for which services 82 Gold Medals, 743 Silver Medals, and £19,400 in cash have been paid in rewards. The Institution has also expended nearly £120,000 on its Life-boat Establishments.

The Committee desire to acknowledge their grateful sense of the liberal support which they have received from the British public during the past few years, a support which has enabled them to establish their present great fleet of 144 life-boats on the shores of the United Kingdom. Deeply sensible, however, of the great responsibility that rests on them to maintain their fleet in a thoroughly efficient state, and the crews practised in the management of their boats, which can only be effected by a large and permanent annual income, they earnestly appeal to all classes of their countrymen to continue to aid them in upholding and perpetuating so great and truly national a work.

1st April, 1865.

The object of this Institution, as declared in its title, is to afford assistance to every wrecked person around the coasts of the United Kingdom.

The chief means by which the Society hopes to carry this object into effect are:—

To build, station, and maintain in repair, Life-boats of the most perfect description; to furnish them with all necessary Appurtenances, including Houses to preserve them in, and Carriages for their conveyance to the spots where their Services are called for; and further, to provide, through the instrumentality of Local Committees, for their proper Management, and the occasional Exercise of their Crews.

To confer Honorary Rewards in the form of Medals and Votes of Thanks, and also to grant Pecuniary Remuneration to all persons who, at the risk of their own lives, save, or attempt to save, those of others on board vessels wrecked, or in distress, upon any part of the coasts of the United Kingdom.

As an index of the necessity for the provision of such a machinery as the above, it may be stated—that the average loss of lives from shipwreck annually on the shores of the United Kingdom is between 700 and 800.

Donations and Annual Subscriptions will be thankfully received by Messrs. WILLIS, PERCIVAL, and Co., 76 Lombard-street; Messrs. COUTTS and Co., 59 Strand; Messrs. HERRIES, FARQUHAR, and Co., 16 St. James's-street, London; by all the London and Country Bankers; by the several Metropolitan Army and Navy Agents; and by the Secretary at the Office of the Institution, 14 JOHN STREET, ADELPHI, London—W.C.
