

THE LIFE-BOAT,

OR

JOURNAL OF THE NATIONAL LIFE-BOAT INSTITUTION.

VOL. VI.—No. 64.]

APRIL 1ST, 1867.

[PRICE 1s.

AT the Annual General Meeting of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, held at the Mansion House, by the kind permission of the LORD MAYOR of London, on Thursday, the 28th of February, 1867, HIS ROYAL HIGHNESS THE PRINCE OF WALES, K.G., in the Chair, the following Report of the Committee was read:—

ANNUAL REPORT.

THE Committee of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, with feelings of gratitude and satisfaction, once more present to its supporters and to the British Public their Annual Report.

The generous co-operation of their countrymen has now happily relieved them from all anxiety for the present efficiency of the Life-boat Service, so far as the same is dependent on pecuniary aid; and the confidence that is reposed in them, alike by the public and by the hardy boatmen of our coasts, with whose help they are enabled to effect the benevolent object for which the Society was instituted, affords them every encouragement in the prosecution of it.

The Institution has, during the past twelve months, continued to receive the noble assistance of inland towns and private individuals, by the presentation of the entire cost of Life-boats, so that an increasing number of these towns are now represented in this way by their own boats on the coast—a gratifying indication, not only of general sympathy with the humane work of the Society, but probably also of a growing sense of the indebtedness of the

whole of the inhabitants of these islands to our maritime population, and of the duty of protecting them, as far as possible, from the dangers of shipwreck on their own shores.

In their last Annual Report, the Committee expressed their gratification at the establishment in France of a Life-boat Society, founded on the same principles as our own, and that it then already possessed 11 self-righting Life-boats, built by Messrs. FORREST, of Limehouse, under the superintendence of this Institution. It affords the Committee further pleasure to be able to report that that Society has now 17 Life-boat stations complete, and 8 others nearly so, whilst 7 more are in course of formation, so that, ere long, it will possess no less than 32 Life-boat establishments. These boats are now all being built in France, on the plan of this Institution.

In a former Report it was stated that this Committee proposed to build and place, at selected stations, a few improved fishing-boats, *provided with safety fittings*, hoping thereby to gradually introduce such improvements in the smaller class of coast fishing-boats as might lead to a considerable diminution in the loss of life, which so frequently occurs from their being overtaken by gales

of wind when at a distance from the land. Two of these boats are now completed, and in the hands of trustworthy fishermen on the coast of Scotland, and three more will shortly be ready. At their next Annual Meeting, the Committee hope to be able to report satisfactory results from the experiment.

The Committee, actuated by the loyal feelings which so happily pervade all classes in this kingdom, ventured to invite His ROYAL HIGHNESS THE PRINCE OF WALES to preside at this their Forty-third Annual Meeting. With that urbanity and kindness which distinguish him on all occasions, His Royal Highness most kindly and promptly acceded

to their request; and the Committee now beg to congratulate the supporters and well-wishers of the Institution on that auspicious event, and publicly to tender His Royal Highness their grateful thanks for the important favour he has thus bestowed on the Life-boat Cause.

The details of the work of the Institution during the past year may be thus summarised.

Life-boats.—Thirty-three new Life-boats have been built; of these, thirteen have been provided for new stations, and the remainder to replace worn out or inferior boats. They are stationed as follows:—

ENGLAND.		WALES.	
NORTHUMBERLAND	. Boulmer. Blyth.	GLAMORGANSHIRE	. Swansea.
YORKSHIRE	. . . Redcar.	MERIONETHSHIRE	. Barmouth.
NORFOLK	. . . Mundesley. Sheringham.	CARNARVONSHIRE	. Portmadoc.
SUFFOLK	. . . Gorlestone. Southwold.	ANGLESEY	. . . Llanddwyn.
KENT	. . . Margate.	CHESHIRE	. . . New Brighton.
SUSSEX	. . . Winchelsea. Brighton. West Wittering.	SCOTLAND.	
DORSET	. . . Chapman's Pool. Lyme Regis.	ORKNEY ISLANDS	. . . Stromness.
DEVONSHIRE	. . . Brixham. Braunton.	ELGINSHIRE	. . . Lossiemouth.
CORNWALL	. . . Looe. Fowey. Falmouth. St. Ives.	IRELAND.	
SOMERSET	. . . Burnham.	Co. DOWN	. . . Tyrella.
		DUBLIN	. . . Poolbeg. Skerries.
		CORK	. . . Ballycotton. Queenstown. Courtmacsherry.

Carriages have also been provided for most of the above boats, and boat-houses erected at all the new stations.

The Life-boats of the Institution now number one hundred and seventy-four. They have been the means of saving *four hundred and twenty-six* lives during the past twelve months—nearly the whole of them under circumstances when no other description of boat could with safety have been employed in such a service.

Up to the commencement of February, the Committee had hoped to be able to congratulate this Meeting on the entire exemption from accident in their Life-boat Fleet during the past twelve months, as until the 6th of that month no life had been lost. However, on that day, a fearful calamity happened to the crew of the Institution's Life-boat at Padstow, on the north

coast of Cornwall. The boat, while proceeding to the aid of the crew of the schooner *Georgina*, of Boston, U.S., wrecked on the Doom Bar, was upset, and although she immediately self-righted, her crew were prevented from regaining her by the violence of the surf, and five of them unhappily perished—thus painfully reminding the Committee of the perilous character of the work which they have undertaken to guide and superintend.

Shipwrecks and Loss of Life.—Disasters at sea during the past year have been very numerous, and many of them were of a most distressing nature. It is only necessary to refer to the awful catastrophe to the Australian Screw Steamer *London*, on the 11th of January, 1866; to the lamentable scenes about the same period in Torbay, and on other parts of the coast; to awaken

sad remembrance of the peculiarly fatal character of these visitations.

No one who has witnessed a storm on our coasts, when the waves are mountains high, can have failed to be impressed with the terrific character of the scene, nor to think with feelings of the liveliest pity on those who are exposed to its fury. While every human effort to render aid is often baffled by the violence of the tempest, the mind is penetrated with a sense of the mighty power of Him who "holdeth the waters in the hollow of His hand," and can say to the tossing billows, "Peace, be still!"

The Wreck Register of the Board of Trade informs us that the number of shipwrecks during the past year was 1787, accompanied by the loss of 602 lives.

Great efforts continue to be made to render every possible assistance to ship-

wrecked crews.* And this assistance is by no means limited to the efforts of our hardy Life-boat men. Men of all ranks come forward not only to lend a helping hand, but also freely to risk their own lives to save the life of the drowning mariner.

As illustrative of this gratifying fact, the Committee have much satisfaction in referring to the noble exertions of the Rev. CHARLES COBB, of Dymchurch, Kent, in rescuing from the rigging on Sunday morning, the 6th January last, one of the crew of the French lugger, *Courrier de Dieppe*, which was wrecked off Dymchurch, in a strong gale of wind and heavy sea. The Gold Medallion of the Institution has been voted to Mr. COBB, in testimony of his heroic exertions, and the Silver Medal to JOHN BATIST, the Coastguard-man, who bravely helped Mr. COBB on that eventful occasion.

The Committee would also refer to the exertions on the same day, and at about the same hour, of the Rev. P. VYVYAN ROBINSON, of Llandewednack, who, while proceeding to church, heard of a fearful shipwreck at Mullion Cove, six miles from the Lizard Life-boat station. He immediately ordered the Life-boat out, and proceeded overland with it; but, unfortunately, it arrived too late, the whole of the crew having, sad to say, unfortunately previously perished.

The Committee have decided to establish forthwith a Life-boat station at Mullion Cove. The Wesleyan Methodists having collected the cost of a complete Life-boat station, in memory of the late Rev. D. J. DRAPER, an able and zealous minister of that connection in Australia, who unhappily perished in the ship *London*, in the Bay or Biscay last year, and who was a native of Cornwall, the *Draper* Life-boat will be placed at Mullion Cove.

In addition to the large number of 426 lives and 17 vessels saved exclusively by the Life-boats of the Institution, 495 lives were rescued last year by fishing-boats and other means—a result arising from the encouragement given by the Institution in rewarding all who are instrumental in saving life from shipwreck on our coasts.

This large number of 921 lives is independent of 350 lives saved by the Rocket Apparatus, worked by the Coastguard, and which is provided by the Board of Trade, by which apparatus 123 lives were saved, in a single instance, on the 3rd December last, from the wreck of the Swedish man-of-war *Oradd*. That department continues to co-operate cordially with the NATIONAL LIFE-BOAT INSTITUTION in carrying out the great and national work it has undertaken to perform, and which has hitherto proved so successful.

The total number of lives saved during the forty-three years from the establishment of the Institution in 1824, to the end of the year 1866, either by its Life-boats, or by special exertions for which it has granted rewards, is as follows:—

In the Year	No. of Lives Saved.	In the Year	No. of Lives Saved.

The Committee wish to express their thankfulness for this glorious harvest of human lives saved from a watery grave.

In the presence of facts like these, the Life-boat Institution need have no misgiving in respect to a continuance of that pecuniary support which has hitherto enabled it to pursue with unabated vigour and success the great and benevolent objects for the promotion of which it was established more than forty-three years ago.

Rewards.—In the Appendix will be found a summary of the cases in which honorary and other rewards have been voted. During the past year 16 Silver Medals, 25 Votes of Thanks inscribed on vellum and parchment, and 2,172*l.* have been granted for saving the lives of 921 persons by life-boats, shore and fishing-boats, and other means, on the coasts and outlying banks of the United Kingdom.

The Committee continue to devote their constant attention to these grants. Each case is previously carefully inquired into, through the co-operation of the Officers of Coastguard and Customs, the local Honorary Secretaries of the several Branches of the Institution, or other responsible persons; and afterwards it is thoroughly sifted and considered by a Sub-Committee, previous to its being dealt with by the General Committee.

From the Leisure Hour.]

SHIPWRECK OFF BEACHY HEAD.

Our boatmen and fishermen know that their laudable services everywhere in saving life from shipwreck are promptly and liberally rewarded in proportion to the risk and exposure incurred; and in this way a spirit of emulation and activity is cherished on the coasts of the British Isles, productive of the best results to the shipwrecked sailor.

In this important work the Committee have continued to receive the prompt and cordial co-operation of their active colleague, Commodore J. W. TARLETON, R.N., C.B., Controller-General; also of Capt. G. WODEHOUSE, R.N., Deputy-Controller-General, and of the Officers and men of the Coast-guard Service, to whom the best thanks of the Institution are hereby tendered.

Since the formation of the Society it has expended on Life-boat establishments 167,570*l.*, and has voted 83 Gold and 773 Silver Medals for saving life, and pecuniary rewards to the amount of 24,573*l.*

Local Committees.—The Committee acknowledge again the continued kind co-operation of the Local Branch Committees, which constitute so important a portion of the machinery for the supervision of the several Life-boat establishments of the Institution. They have also to express their acknowledgments of the valuable and gratuitous services of the zealous Honorary Secretaries of those Committees who conduct the correspondence with the central managing body in London.

Finances.—The total amount of receipts during the year 1866 has been 41,718*l.* 1*s.* 4*d.*; and the Committee are grateful to be able again to announce, that of this sum no less than 16,974*l.* 12*s.* 4*d.* were special gifts to defray the cost of the following 35 Life-boats:—

For a considerable saving in the item of transport to their stations of new Life-boats and carriages, the Committee have again to express their thanks to the several Railway and Steam Packet Companies, who have very liberally conveyed them to all parts of the United Kingdom, free of charge.

The items of receipt and expenditure are detailed in the financial statement annexed to this Report, audited, as usual, by Mr. BEGBIE, the public Accountant.

The Institution has now under its charge 174 Boats, and it is only reasonable to expect, that in such a fleet frequent damages will take place, in addition to the fact that boats will decay every year from natural causes.

The operations of the Institution extend all over the British Isles, and the Committee are determined, with the continued blessing of Almighty God and the sympathy and support of the British public, to leave no effort untried that can assist in any way in lessening the annual loss of life on our shores.

March 1.—Voted the Thanks of the Institution, inscribed on Vellum, and 3*l*. each to THOS. SAUNDERS and SAMUEL GERMAN, in testimony of their highly meritorious and persevering conduct in putting off in a small boat, and saving, after several attempts, 6 men belonging to the ship *Hannah More*, of Liverpool, which was wrecked off Lundy Island, during a very heavy gale of wind, on the 11th January. The shipwrecked crew were observed at daylight clinging to the rigging of the vessel, over which a great sea was sweeping, carrying away the boat, bulwarks, and everything not firmly fastened. The sight of the helpless and all but exhausted sailors on the wreck so moved the spectators on shore, that it was resolved to make an attempt to rescue them. A small boat was accordingly launched, and manned by the two brave men above-named. They bent to their oars with determined strokes, amid the prayers alike of those on shore and those huddled on shipboard. But the raging sea was too much for them, and presently, in spite of their utmost efforts, the little craft was beaten back, through the long line of foam, upon the shore. Again did the gallant fellows put off; but only with a like result. The

effort then seemed to be hopeless, and the poor fellows on the wreck were given up for lost. Soon afterwards a tremendous wave lifted the vessel's shattered hull on its foaming crest, and dashed it with such tremendous force against a detached pyramid of granite, known as Rat Island, that in less than twenty minutes little remained of her but a thousand fragments. The boat was now launched a third time, and, after very great exertion and risk, the two brave men reached the spot, and succeeded in rescuing 5 men, and in bringing them safely ashore. Another of the shipwrecked crew succeeded in reaching the land on a spar; but the remainder, 16 in number, unhappily perished. The Thanks of the Institution were also voted to the inhabitants of Lundy Island generally, for their humanity and zeal on the occasion.

Also the thanks of the Institution and 2*l*. to 2 youths, named OLIVER and WILLIAM BLACK, for putting off and saving 1 out of 2 men who had been capsized from their boat during a sudden squall and rough sea in Lough Swilly, on the 19th December last. Also 3*l*. 10*s*. to 7 men in acknowledgement of their laudable conduct in wading into the surf and rescuing at some risk of life, 8 out of 9 of the crew of the barque *Otter*, of Halifax, Nova Scotia, which was wrecked at Mulraney, Co. At the time the boats containing the shipwrecked men were fallen in with, they were pulling away from the land, and were so heavily laden that one of the boats was said to be actually only an inch and a half above the water. Also 46*l.* 9*s.* 6*d.* to pay the expenses of assembling the crews, or launching the life-boats at Blackpool, Lytham, Shoreham, North Deal, and Portmadoc to various vessels which were in distress during the recent gale, and which had signalled for assistance from the shore, but which had afterwards got out of danger without the aid of the life-boats.

Also 3*l.* to Mr. R. G. GIBBON, Chief Officer of Coastguard at Courtmacherry, Co. Cork, and 4 Coastguard men, for putting off in their boat and saving, during a strong gale of wind, 4 men whose boat had capsized at the entrance to Courtmacherry Harbour, on the 9th Sept. They also rendered valuable assistance to H.M.'s Cutter *Neptune*, which had run on the bank at the entrance of the harbour.

Sept. 29.—A pilot-boat put off, manned by 5 men, to a vessel, through a heavy sea, from Ballyshannon, and while crossing the bar of that place she was capsized. Two men, observing the accident from the shore, made signal to a brigantine lying at anchor, the captain of which at once launched his boat and sent her to the rescue of the drowning men. By this means the 5 men were fortunately saved.—Reward, 2*l.*

Nov. 14.—The Tynemouth life-boat went off, through a heavy sea, in reply to signals of distress, and assisted to save the screw steamer *Buda*, of Leith, and her crew from destruction. A line was then got from the vessel, and the crew of 4 men, passing into their own boat, were hauled into the life-boat. They stated that the captain was still on board quite drunk, and refused to leave the schooner, and it was not until some three hours afterwards that the life-boat men succeeded in getting him out of the vessel. Also the Silver Medal of the Institution, a copy of its Vote on Parchment, and 2l. to Mr. WATKIN LEWIS, of Aberystwith, in acknowledgment of his gallant conduct in swimming out, at the peril of his life, to effect a communication with the schooner *Rebecca*, of Bridgewater, which was wrecked off Aberystwith on the 25th March last, and afterwards aiding to save her crew of 6 persons. Also for wading into the surf at Aberystwith, and saving, at the risk of his life, his own father, who had been carried out to sea in endeavouring to save the life of another person, on the 10th September, 1866.

The Holyhead life-boat put off, and on arriving alongside found the vessel had parted one chain. The life-boat brought the captain ashore, who, after consulting with Lloyd's Agent, went off again in the life-boat. THE MEDAL
 OF THE
ROYAL NATIONAL LIFE-BOAT INSTITUTION,
 FOR THE
PRESERVATION OF LIFE FROM SHIPWRECK.

Obverse.—Bust of Her Majesty Queen Victoria; beneath, in minute letters, “L. C. Wyon.”
 Double legend, “Royal National Life-boat Institution. Founded in 1824.
 Incorporated 1860. Victoria, Patroness.”

Reverse.—Three sailors in a Life-boat,—one of whom is in the act of rescuing an exhausted mariner from the waves on a fragment of the wreck. “W. Wyon, Mint.”
 Inscription, “Let not the deep swallow me up.”

THE beautiful obverse of this medal, which has recently been executed by L. C. WYON, Esq., represents the bust of QUEEN VICTORIA, Her Majesty's locks gracefully waving and gathered in a knot behind, from which issues a wreath of oak clustering over the forehead. This life-like portrait of the QUEEN, in high relief, conveys a truly pleasing and faithful likeness of Her MAJESTY, as at this period of her life; combining dignity of aspect and benevolence of nature; and represented by Mr. WYON with the most exquisite finish, delicacy, and beauty of workmanship.

The reverse, representing the Life-boat, in which there are three Sailors, rescuing a fourth from the sea, is a work of superlative merit. Two of the Sailors are steadying the boat, while the other, stooping, draws in the Shipwrecked Sailor, whose figure is given so as to show the form in the most natural and beautiful manner; and the expression thrown into his countenance looking up to his preserver is unrivalled by anything that we have ever seen, while the easy flowing lines of this sailor are finely contrasted by those of his companions: the whole displaying the most perfect knowledge of the human frame, the finest taste to arrange it, and a command of the graver to embody to us what the artist's bright genius had shadowed out to himself.

But there is another pleasing motive for our admiration of this beautiful Medal, as the figure who is so humanely extending his relief to the drowning Mariner is a portrait of the Artist (the late WILLIAM WYON, Esq., R.A.) himself.

The following is a LIST of the GOLD and SILVER MEDALS that have been voted by the Committee of this Institution, since its establishment in 1824, to persons whose humane and intrepid exertions in saving Life from Shipwreck have been deemed sufficiently conspicuous to merit that honourable distinction. The Cases will be found recorded in detail in the several Annual Reports of the Institution.

Note.—The asterisk (*) after the name denotes the reception of a Gold Medal.

The figure after the name signifies the number of honorary distinctions received from the Institution.

In figs. 1 and 2, the elevation and deck plans, the general exterior form of the boat is shown with the sheer of gunwale, length of keel, and rake of stem and stern-posts. The dotted lines of fig. 1 show the position and dimensions of the air-chambers within board, the relieving-tubes, and ballast. In fig. 2, A represents the deck, B the relieving-tubes (6 inches in diameter), C the side air-cases, D the end air-chambers, E ballast, F scuttles to admit of a free current of air under the water-tight deck, G scuttle for air, and to receive pump. In fig. 3, the exterior form of transverse sections, at different distances from stem to stern, is shown. Fig. 4 represents a midship transverse section, A being sections of the side air-cases, B the relieving-tubes, of the same depth as the space between the deck and the boat's floor. C, C, C, are spaces beneath the deck, placed longitudinally, at the midship part of the boat, with cases packed with cork, forming a portion of the ballast; D scuttle for ventilation, having a pump fixed in it, by which any leakage beneath the deck can be pumped out by one of the crew whilst afloat. The festooned lines in fig. 1 represent exterior life-lines attached round the entire length of the boat, to which persons in the water may cling till they can be got into the boat; the two central lines are festooned lower than the others, to be used as stirrups, so that a person in the water, by stepping on them, may climb into the boat without assistance.

This life-boat possesses in the highest degree all the qualities which it is desirable that a life-boat should possess:—

1. Great lateral stability or resistance to upsetting.
2. Speed against a heavy sea.
3. Facility for launching and taking the shore.
4. Immediate self-discharge of any water breaking into her.
5. The important advantage of self-righting if upset.
6. Strength.
7. Stowage-room for a large number of passengers.

ROYAL NATIONAL LIFE-BOAT INSTITUTION.

LIFE-BOAT REGULATIONS.

JANUARY, 1865.

THE following Regulations are intended for the guidance of the Local Committee to be formed at each place at which a life-boat is stationed by the NATIONAL LIFE-BOAT INSTITUTION, and to whose care and control the life-boat, her crew, and everything connected with her management and maintenance, will be intrusted.

The local committee to consist, if practicable, of not less than five persons usually resident, to be elected annually. The Inspecting-Commander of Coastguard of the division, or in his absence the nearest Coastguard officer to the spot, to be *ex officio* a member of the local committee.

1. The life-boat's crew to consist of a coxswain-superintendent, an assistant coxswain, a bowman, and as many boatmen in addition as the boat pulls oars.

2. For every boat, at least double the number of men required (if they can be found at or near the spot) should be invited to become members of her crew.

3. Such list to consist of sailors and fishermen who are usually resident, and (with permission of the Controller-General) of any Coastguard-men of the station who may volunteer for the service.

4. The salary of the coxswain-superintendent shall be 8*l.*, and that of the assistant coxswain 2*l.* annually. On every occasion of going afloat to save life, the coxswains and each of the crew shall receive alike, 10*s.* by day and 1*l.* by night; and for every time of going afloat for exercise, 3*s.* in smooth weather, and 5*s.* in rough weather. In the absence of the coxswain, the assistant coxswain will take charge of the boat.*

* The coxswain is held responsible for every man who goes into the life-boat, on occasions of service and of quarterly exercise, without having on a life-belt.

5. In the event of money being received by the life-boat for salvage of property, or similar service, a proportion equal to *two shares* shall be paid to the Institution to cover risk of damage to the boat, the remainder to be divided into equal shares amongst the coxswain and crew. If, however, salvage be paid for the preservation of life, no portion shall be reserved for the boat.

6. If local subscriptions be raised to reward any special act of gallantry or exertion, the Institution recommends that the whole of the money be paid to the crew, in equal shares.

7. As at each life-boat station there will be a local committee, the coxswain will act under their immediate directions, and the boat, except in case of wreck, is never to be taken afloat without their sanction.

8. As the efficiency of a life-boat depends on the good training and discipline of her crew, the strictest attention must be paid by them to the directions of the coxswain on all occasions connected with the service. The boat shall be taken afloat for exercise, fully manned, once during each quarter, sometimes in *rough weather*.

9. The local committee at each station are requested to make a Quarterly Report to the Institution, as to the behaviour of the boat during exercise, pointing out any defect that may require to be remedied, and offering any suggestion that may conduce to the efficiency of the service. Also generally to report on the state and condition of the boat, the carriage, the boat-house, and all the life-boat gear. Should occasion for immediate repairs arise, the local committee are authorized to make them to the

extent of 5*l.*: more extensive repairs to be referred, with an estimate, to the Parent Institution.

10. The boat is to be kept on her carriage in the boat-house, with all her gear in her ready for use, except matches, rockets, and perishable articles which may require to be secured from damp.

11. There should be three keys to the boat-house, kept in different places, with the *address of each painted on the door*; one in possession of the coxswain, and the others as the local committee may decide.

12. Immediately on intimation of a wreck, or of a vessel in distress, the coxswain is to use his utmost exertions to assemble his crew, launch his boat, and proceed to her assistance: and in the event of a sufficient number of his crew not being present, he is to select the best volunteers he can get to supply their places.

13. If a wreck occur at some distance from the station, so as to require the boat to be transported along the coast, the coxswain is to send to procure sufficient horses (which, by the Wreck and Salvage Act, any magistrate, constable, or revenue officer may demand the use of), attach them to the carriage, and lose no time in making the best of his way with the crew to the scene of wreck.

14. A reward of 7*s.* to be given to the man who first brings intelligence of a wreck at such a distance along the coast as not to be in sight from the Coastguard or other look-out.

15. A signal shall be agreed on by which the life-boat crew can be called together when required. A flag hoisted by day and the firing of a carronade (or other alarm signal) twice, quick, by night.

16. On approaching a wreck, the coxswain will use his judgment, according to the circumstances of the case, whether he will board the wreck end on, either on the bow, on the quarter, or on the broadside: or whether he will go to windward, drop his anchor, and veer down to the wreck; or if he will lay her alongside.

17. On boarding wrecks, the preservation of life is to be the coxswain's *sole considera-*

tion, and he is on no account to take in goods or merchandize which might endanger the safety of his boat, and the lives of those intrusted to his charge. And should any be brought in, contrary to his remonstrance, he is fully authorized to throw them overboard.

18. No one besides the crew, namely, the coxswain, the assistant coxswain, the bowman, and one boatman for each oar, is on any account to be allowed to go out in the life-boat when going to a wreck, except with the express sanction of the local committee.

19. The life-boat is not to be used for taking off an anchor; nor for the purpose of salvage; nor for taking off stores, a pilot, or orders to a ship, so as to interfere with private enterprise (except in cases of emergency, with the special sanction of the local committee), but to be reserved for cases involving risk of life.

20. The coxswain will enter in a journal with which he will be supplied, all services performed by his boat, stating the time of launching, time of reaching the wreck, the vessel's name, whither bound, number of persons rescued, &c., a copy of which, on each occasion of wreck, is to be forwarded, by the local committee, to the Secretary of the Institution in London.

21. On returning from service, the boat is not to be left in the surf on the beach, but, as soon as possible, is to be got on her carriage, and placed in the boat-house.

22. The coxswain-superintendent will be held responsible for the efficiency and general good order of the boat-house, the boat, and her gear; and it is hoped that a sense of the trust confided to them in the cause of humanity will lead the coxswains and crew to be most careful on these points, and to distinguish themselves by their zeal and readiness, and by the seaman-like manner in which their boat is handled.

By order of the Committee,

RICHARD LEWIS,

Secretary.

A Subscription List has been opened to found a new Life-boat (to be named the *Balmoral*). It will cost about Two Hundred and Fifty Pounds, which sum is being raised in Five Thousand Shares, at One Shilling each. Will you aid this benevolent object by becoming a Shareholder? Consent to do so, and at no distant period you will be satisfied with the dividend when you take up the Newspaper and read an account of a Wreck, in which the Gallant Crew of the *Balmoral* succeeded in saving all on board some ill-fated vessel! For it is a fact, that wherever a Life-boat has been established, the saving of life has invariably followed. "If we have the means of doing good—and know the way—and do it not, great is our responsibility."

When the Boat is launched it will be provided with a Transporting-carriage and Boat-house, and be maintained at the expense of the ROYAL NATIONAL LIFE-BOAT INSTITUTION.

Donations, in Money or Stamps, are received by

The object of this Institution, as declared in its title, is to afford assistance to every wrecked person around the coasts of the United Kingdom.

The chief means by which the Society hopes to carry this object into effect are:—

To build, station, and maintain in repair, Life-boats of the most perfect description; to furnish them with all necessary Appurtenances, including Houses to preserve them in, and Carriages for their conveyance to the spots where their Services are called for; and further, to provide, through the instrumentality of Local Committees, for their proper Management, and the occasional Exercise of their Crews.

To confer Honorary Rewards in the form of Medals and Votes of Thanks, and also to grant Pecuniary Remuneration to all persons who, at the risk of their own lives, save, or attempt to save, those of others on board vessels wrecked, or in distress, upon any part of the coasts of the United Kingdom.

As an index of the necessity for the provision of such a machinery as the above, it may be stated—that the average loss of lives from shipwreck annually on the shores of the United Kingdom is 600.

Donations and Annual Subscriptions will be thankfully received by Messrs. WILLIS, PERCIVAL, and Co., 76 Lombard-street; Messrs. COURTS and Co., 59 Strand; Messrs. HERRIES, FAIRQUHAR, and Co., 16 St. James's-street, London; by all the other London and Country Bankers; by the several Metropolitan Army and Navy Agents; and by the Secretary at the Office of the Institution, 14 JOHN STREET, ADELPHI, LONDON—W.C.
