OR

## JOURNAL OF THE NATIONAL LIFE-BOAT INSTITUTION.

VOL. VI.—No. 68.]

APRIL 1ST, 1868.

[PRICE 1s.

AT the ANNUAL GENERAL MEETING of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, held at the London Tavern on Tuesday, the 10th day of March, 1868, The Right Honourable H. T. L. CORRY, M.P., First Lord of the Admiralty, in the Chair, the following Report of the Committee was read by the Secretary:—

### ANNUAL REPORT.

THE Committee of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, on this its forty-fourth anniversary, beg to return their hearty thanks to all those who have kindly given them their moral and pecuniary support; and they desire also publicly to express their gratitude for the blessing which Divine Providence has bestowed on their labours.

Indeed, so uniformly progressive and successful have been the operations of the Institution for many years past, and so continuously have confidence and aid been afforded to it by a generous public, that it becomes difficult even to vary the language in which the Committee offer their grateful acknowledgments. They feel, however, that they ought to be doubly sensible of the liberality of their countrymen during the past year, when, from the general commercial stagnation which has prevailed, they might have reasonably expected a diminution of pecuniary support. They cannot but accept the undiminished support they have received as a direct evidence of the great interest which is felt in the Society, and of public confidence in its management.

The Institution, during the year, has received a gratifying international recog-

nition of its importance and of the perfection of its working machinery, in the award of the "*Grand Prix d'Honneur*" (the largest Gold Medal) conferred on it by the Imperial Commission of the Universal Exhibition held at Paris, where it exhibited a full-sized first-class life-boat, with transport-carriage, and equipment complete.

On the closing of that important Exhibition, the Committee, desirous of offering a tangible expression of their sympathy with the Life-boat Society of France, "*La Société Centrale de Sauvetage des Naufragés*," which had been founded and organized on the principles of this Institution, and believing that such a mark of their esteem for the sister Society would be accepted as a graceful International compliment, decided on presenting to it the life-boat and equipment above referred to. The French Society expressed its high appreciation of the gift, and stationed the boat at Calais, the principal port of intercommunication between the two countries.

The improved Safety Fishing-boats which the Institution placed on the coast during the last year, have given great satisfaction to their crews; and the Committee have been informed that already in Scotland some of the local fishermen are improving their own boats in imitation of them. The

character of these boats has excited considerable attention ; and the Institution has consequently received several inquiries respecting them from foreign countries, as well as from various parts of our own coast—a gratifying acknowledgment of the importance of this movement initiated by the Institution.

Carriages, when required, have been provided, and boat-houses at all the new stations, except at Broadstairs, where the Life-boat is kept on the quay.

The Life-boats of the Institution now number one hundred and eighty-six. They have been the means of saving no less than *seven hundred and eighty-three* lives during the past twelve months—nearly the whole of them under circumstances in which they could not have been saved by any ordinary description of boat.

Happily these valuable services have been performed without the loss of a single life on the part of the brave men who have formed the crews of the boats, notwithstanding that the boats were afloat on actual service two hundred times, and manned by 2,500 men. This fact is especially gratifying and encouraging, when it is remembered that the work of saving shipwrecked persons, even in the best-appointed Life-boats, must ever be one of danger, and that no little courage, skill, and self-possession are required on the part of those who engage in it.

*Shipwrecks and Loss of Life.*—The Wreck Register of the Board of Trade for the year 1867 is not yet made up, and the number

of shipwrecks and the loss of life during that period cannot therefore be stated at the present time. There can be no doubt, however, that the past year has formed no exception as regards the frequent *shipping* disasters that annually take place on our coasts. Occasionally it had almost appeared as if the tornadoes that proved so destructive in the West Indies had found their way to the British Isles. On these occasions noble work is usually performed by the Life-boats of the Institution, in many instances by the crews of open boats ; and by the Rocket Apparatus, (now admirably managed by the Coastguard under the control of the Board of Trade).

The character of these storms and Life-boat services may be judged of by the fact, that during the gales of November and December last no less than two hundred and fifty-nine shipwrecked sailors were saved by the Life-boats of the Institution.

These gallant services have varied much in character : many have been accomplished during the dark hours of night, others have been by day ; some at short distances from the shore, others on outlying banks far from the land. In some cases greater danger has been incurred than in others. In some,

men have been washed overboard from the boats, but recovered again.

The Committee would observe that these Life-boat men, by giving their invaluable aid, perform their full share of the duty of alleviating and reducing the amount of the misery and evil produced by the storms on

our coasts. It remains then for those who cannot share the risks and exposure which these brave men incur,\* to perform their part in this humane work, by enabling the Institution to provide the Life-boats' crews with every means of safety and efficiency, and to remunerate them sufficiently—thus serving

as some encouragement to them in the risks, labour, and exposure which they undergo.

Fostered by the NATIONAL LIFE-BOAT INSTITUTION, the effort to save life from shipwreck forms one of the most heroic characteristics of the age in which we live—exciting the admiration of the world at large, and is, happily, not limited to our boatmen and fishermen, but is shared by all classes of society.

In addition to the 783 lives and 35 vessels saved exclusively by the Life-boats of the Institution, 303 lives were rescued last year by fishing-boats and other means. This gratifying fact may be attributed in a large extent to the liberal and prompt rewards given to all persons who are instrumental in saving life from shipwreck on our coasts.

This large number of 1,086 lives is independent of the lives saved by the Rocket Apparatus provided by the Board of Trade. That department continues to co-operate cordially with the NATIONAL LIFE-BOAT INSTITUTION in carrying out the great and national work it has so successfully performed.

The number of lives saved during the forty-four years from the establishment of the Institution in 1824, to the end of the year 1867, either by its Life-boats, or by special exertions for which it has granted rewards, is as follows:—

In the Year	No. of Lives Saved.	In the Year	No. of Lives Saved.

1846	134	Total . .	<u>16,987</u>

Language can hardly convey an adequate impression of the good work thus accomplished by the Institution, which, by gradually extending its sphere of operations, is able, as a natural result, to report with thankfulness a larger number of lives saved last year than in any previous corresponding period.

*Rewards.*—In the Appendix a summary is given of the cases in which honorary and other rewards have been voted. During the past year, 1 Gold Medal, 12 Silver Medals, 13 Votes of Thanks inscribed on vellum and parchment, and 3,189*l.*, have been granted for saving the lives of 1,086 persons by Life-boats, shore and fishing-boats, and other means, on the coasts and outlying banks of the United Kingdom.

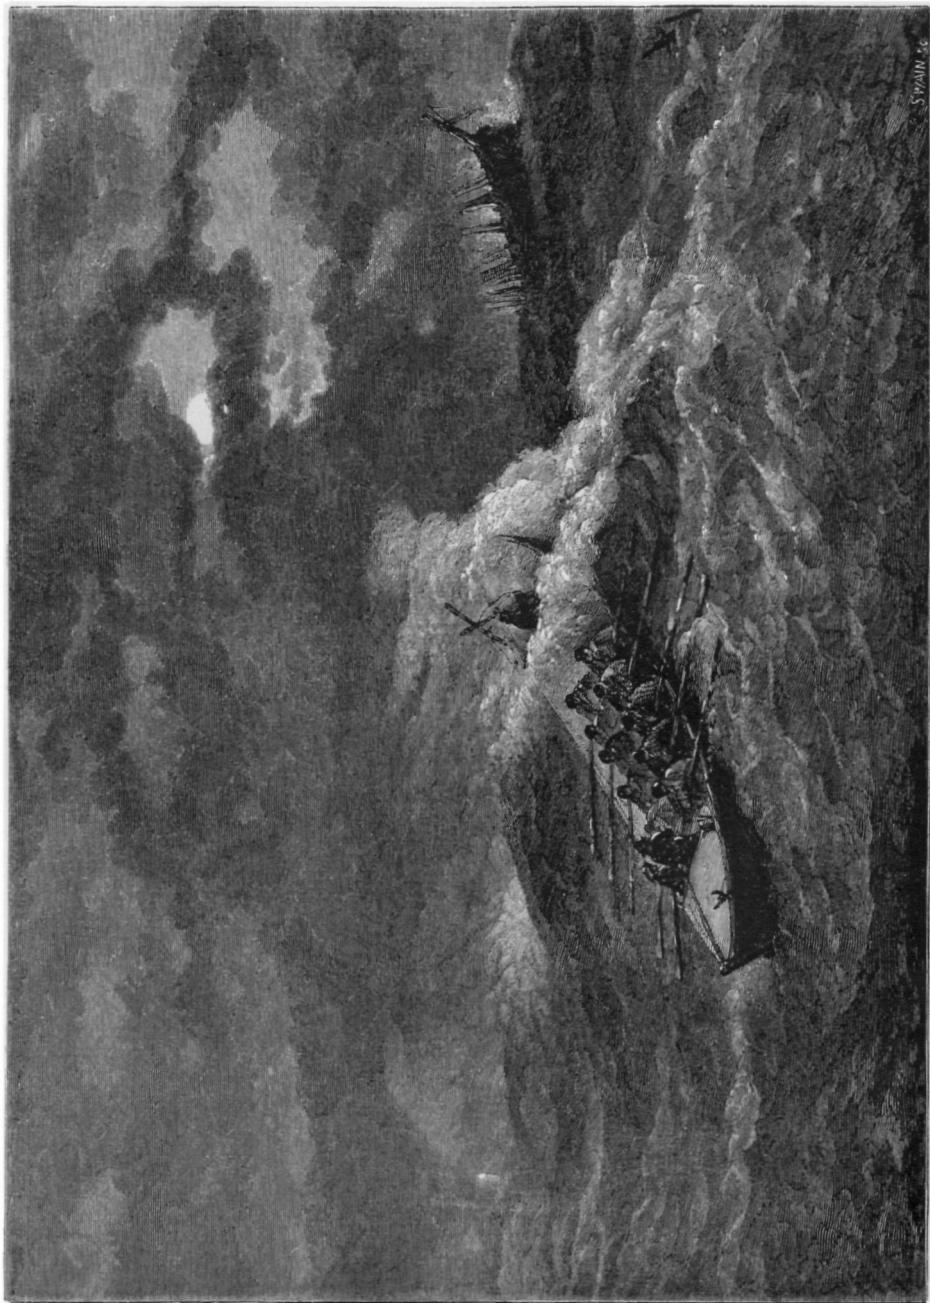

These grants continue to receive the unceasing attention of the Committee. Each case is previously most carefully inquiry into, through the co-operation of the Officers of Coastguard and Customs, the local Honorary Secretaries of the several Branches of the Institution, or other responsible persons; and afterwards it is thoroughly sifted and considered by the preparatory Committee, previous to its being dealt with by the General Committee.

All over the coasts—extending upwards of 5,000 miles—our boatmen and fishermen are now fully impressed with the fact that any laudable service on their part to save, or attempt to save life from shipwreck, will be promptly and liberally rewarded according to the risk and exposure incurred in the service.

The Committee have continued to receive the prompt and cordial co-operation of their active colleague, Commodore J. W. TARLETON, R.N., C.B., Controller-General; also of Capt. G. WODEHOUSE, R.N., Deputy-Controller-General, and of the Officers and men of the Coastguard Service, to whom the best thanks of the Institution are hereby tendered.

Since the formation of the Society, it has expended on Life-boat establishments 199,000*l.*, and voted 83 Gold and 784 Silver Medals for saving life, and pecuniary rewards to the amount of 27,420*l.*

The Institution has now under its charge  
186 Boats, and it is only reasonable to ex-  
pect that in such a fleet frequent damages  
will take place, in addition to the fact that  
boats will occasionally decay from natural  
causes.

On reviewing the great and national work  
recorded in this Report, the Committee  
have every reason to take courage and to  
be thankful; and they feel assured that so  
long as the Life-boat Service continues to  
elicit the admiration of a large portion of  
the discriminating British public, sympathy  
and support will be extended to it.

## RESOLUTIONS PASSED AT THE ANNUAL MEETING FOR 1868.

GOD HELP OUR MEN AT SEA.

LIST OF THE REWARDS

FOR SAVING LIFE FROM WRECKS,

VOTED BY THE ROYAL NATIONAL LIFE-BOAT INSTITUTION

TO THE CREWS OF ITS LIFE-BOATS, TO SHORE AND FISHING-BOATS' CREWS, AND OTHER PERSONS,

FROM THE 1ST JANUARY TO THE 31ST DECEMBER, 1867.

Jan. 1, 1867.—The brig *Chase*, of Shields, was observed with signals of distress flying, off Horsey, Norfolk, in a moderate gale of wind and a snow-storm. The Palling life-boat was, after much difficulty, launched through a heavy sea, and proceeding to the wreck, succeeded in saving 5 of the crew, the remaining 3 men being rescued by the rocket apparatus.—Expense of service, 22*l.* 17*s.*

Jan. 1.—The sloop *Emma*, of Portsmouth, was seen off Blakeney, Norfolk, during very bad weather, with signals of distress flying. The life-boat at Blakeney was launched through a very heavy sea, and on reaching the vessel, found she was riding close to the broken water, in great danger. The life-boat anchored to windward,

and dropped down to the sloop, the crew of which were preparing to leave in their own boat, which, owing to the heavy sea running, would most probably have been immediately swamped. The life-boat men boarded the vessel, and with the assistance of a steam-tug, she was eventually towed safely into harbour.—Expense of service, 8*l.* 12*s.*

Jan. 1.—The schooner *General Williams*, of Carrickfergus, was totally wrecked on the south end of the Long Rock, about half a mile from Ballywalter, during a gale of wind. Two shore-boats, manned by 8 men, put off and saved the vessel's crew of 4 men.—Reward, 4*l.*

Jan. 1.—The sloop *Lucy Ann*, of Goole, was totally wrecked off Great Yarmouth, during a gale

of wind from the N.E. Nine men waded into the sea, and by means of a line rescued the crew of 2 men and a boy.—Reward, 4l. 2s. 6d.

Jan. 2.—The schooner *Mary Tatham*, of Chester, was seen with signals of distress, during a strong E.N.E. wind and heavy sea. The Moelfre life-boat went off, and brought ashore the crew of 4 men. Subsequently the weather moderated, and the crew were again put on board their vessel by the life-boat; and the schooner afterwards made for Aberystwith.—Expense of service, 6l.

Jan. 3.—Voted the Vellum Thanks of the Institution to Mr. J. LISTER, of Seaton Carew, and 10s. each to his boat's crew of 5 men, for putting off in a Trinity House boat, in tow of a steam-tug, during a light wind from the N.W., and bringing ashore 2 men from the steam-sloop *Wrecker*, of Newcastle-upon-Tyne, which was in distress at the entrance to the Tees, on the 8th Dec. A grant of 10l. was also made to the widow and parents of a man named GEORGE COWELL, who unfortunately perished through the capsizing of the boat in which he had gallantly put off to the assistance of the sloop on the above occasion.

Also 10l. to the crew of the Scrabty life-boat, for putting off during a strong W.N.W. wind, and saving 5 persons from the schooner *Active*, of Buckie, which had sunk about a quarter of a mile from the Cockle Sand, on the 27th Dec.

Also 7l. 10s. to 13 men for wading into the surf, at Scarfskerry, N.B., during a strong wind from the N.W., and effecting a communication with the brigantine *Galura*, of Liverpool, by which means the lives of 5 persons were saved on the 3rd Dec. last.

Also 5l. to ROBERT WOODWARD, commissioned boatman of the Lelant detachment of H.M. Coastguard, St. Ives division, who, while assisting to haul up the Hayle life-boat, on the 3rd Dec., met with an accident to two of his fingers through the slipping of the hauling-up rope of the life-boat on the occasion.

Also 1l. as an additional reward to J. SMALL-RIDGE, the coxswain of the Braunton life-boat, in acknowledgment of the valuable services he rendered while acting as pilot to the steam-tug *Ely*, on the occasion of the wreck of the *Wool Packet*, on Bideford Bar, on the 21st Sept. last.

Jan. 5.—The sloop *Shamrock*, of Liverpool, was observed in Wicklow Bay, making signals of distress. There was a heavy gale of wind blowing at the time, and she was riding at anchor with her topmast and bowsprit gone. The Wicklow life-boat was promptly launched, and brought safely ashore the vessel's crew of 3 men.—Expense of service, 8l. 10s. 6d.

Jan. 5.—About half-past seven o'clock, A.M., lights were seen from Penzance, in the direction of St. Michael's Mount. The wind was S.E., and blowing a gale. As the daylight dawned, a schooner was discovered riding at anchor near the village of Long Rock, half way between Penzance and St. Michael's Mount. The Penzance life-boat and the rocket apparatus were conveyed with all speed from Penzance to the site of the wreck. The boat was quickly launched, and on approaching the schooner, the captain and crew were glad to jump aboard the life-boat, which left the vessel's side and pulled for the beach. Before she had got half-way to the shore, the chain which held the schooner snapped, and the vessel swung round, and was instantly ashore, where she lay at the mercy of the waves. The crew brought nothing ashore with them. The schooner proved to be the *Salome*, of Brixham, with coals from Port Talbot to Plymouth. During the afternoon, as the tide rose to the full, she got knocked about tremendously, and ultimately

went to pieces on the beach. The life-boat was conveyed back to Penzance.

Soon after this, three other vessels were seen driving in the direction where the *Salome* lay, and as it was evident they were in distress, the life-boat crew were again summoned, and the boat once more dragged by a team of horses along the Marazion Road. About 9 o'clock she was again launched, the darkness then being very great, and the sea and wind frightful. One of the vessels, which turned out to be the brigantine *Selina Ann*, of Looe, had parted her sheet-anchor cable, and the sea was making a clean break over her from head to stern. While the life-boat was being launched, she threw up three blue flash lights in rapid succession as signals of distress. The life-boat went off most gallantly, under the guidance of one of the Marazion coastguardmen, who was well acquainted with all the rocks and shoals in the neighbourhood. She behaved exceedingly well, and soon took off and brought safely ashore the vessel's crew of 5 men. The life-boat was again afterwards launched to the schooner *Heires*, of Teignmouth, which was in imminent danger. The boat had great difficulty in reaching her on account of the fearful and heavy seas running where she lay. The master afterwards stated that he was under serious apprehension for the safety of the gallant fellows who manned the life-boat. Several seas rose in rapid succession, and he was in great terror lest the boat should be stove to pieces against the side of his own ship. After battling with the waves for some time, and being cheered by those on board the disabled ship, the life-boat got alongside, and succeeded in taking off the crew of 6 men, afterwards landing them in safety.

On the 7th Jan., the services of this valuable life-boat were again called into requisition. The ship *John Gray*, of Glasgow, got among the breakers off Cudden Point, to the east of St. Michael's Mount. The vessel did her best to get into smoother water, and while doing so her foretopsail was split to pieces, and all her other sails having previously gone, she soon became unmanageable, and eventually a total wreck near the Long Rock. The life-boat, after some delay from an accident to her carriage, was launched shortly before 11 a.m., through a terrific sea, and proceeded to the rescue of the wrecked crew. So terrific was the wind and sea, that it was much doubted by the spectators on shore if she would be able to reach the vessel. She succeeded, however, in getting alongside, where she remained about an hour, owing to the obstinacy of the captain, who would neither get into the life-boat himself nor allow his crew to do so. He and the second mate were both intoxicated. Eventually 13 of the crew were taken off and brought safely ashore. The poor fellows were quite exhausted, and saved nothing but what they stood in. Cheer after cheer rang from the spectators on shore, as the life-boat was seen making for the beach. Soon after 3 o'clock the next morning the vessel was observed to be rapidly going to pieces, and the men on board were heard screaming for help. The life-boat's crew were again summoned, and were soon on the spot; but before they could possibly get there the mats of the wreck had fallen, and those left on board had perished. The tide had now nearly risen to the full, and the life-boat, which had been left on the beach, had floated, and was in a perfect whirlpool of raging billows and broken wreck, and it was only by the most strenuous exertions that she was prevented from being carried out by the run of the tide. Thus the captain, the two mates, and a foreigner, unhappily perished. The

first mate was perfectly sober, and had done all in his power to save the vessel, but had allowed the captain to persuade him to remain, thereby sacrificing his own life.—Expense of these services, 79l. 16s.

Voted also the Silver Medal of the Institution, and a copy of its Vote on Parchment, to SAMUEL HIGGS, Junn., Esq., of Penzance, in acknowledgment of his intrepid services in the Penzance life-boat, in assisting to save 6 men from the schooner *Salome*, of Brixham; 5 men from the brigantine *Selina Ann*, of Looe; and 6 men from the schooner *Heiress*, of Teignmouth.

Jan 5 and 6.—During a strong gale of wind from S.S.E., with terrific squalls of snow and sleet, the sloop *Oliver Lloyd*, of Cardigan, and the smack *Turtle Dove*, of Aberystwith, dragged their anchors and drifted out into Cardigan Bay. The life-boat at Cardigan at once went off and rescued the crews, consisting of 6 men. Darkness now came on, increased by a heavy fall of snow, and, although the life-boat men used every exertion, they found it impossible to regain the harbour, so violent was the gale. Nothing could be done but allow the boat to drift, and endeavour to effect a landing where practicable, which was done, and with the assistance of some people from a farm, all on board the life-boat were safely landed at Altgoed. —Expense of service and gratuity, 25l. 10s.

On the 8th Jan., this same valuable life-boat again went off to the smack *Coronation*, of Bideford, which was observed in the Bay with two anchors down and labouring heavily. Her main boom and bulwarks were gone, and her windlass disabled. The master gladly availed himself of the services of the life-boat, and he and his crew of 3 men were safely brought ashore through a heavy ground-sea. He said the crew were so exhausted that they were unable to hoist any signals of distress; but as he had heard much of the Cardigan life-boat, he felt sure she would come to his assistance.—Expense of service, 6l. 10s.

Jan. 6.—The brig *Emmanuel Boucher*, of Whitby, was stranded during a terrific gale of wind from the S.E., on the Herd Sand off Tynemouth. The life-boat at that place was quickly launched through a heavy sea, and rescued the crew of 6 men, landing them safely at the Low Lights. —Expense of service, 14l. 14s.

Jan. 6.—The French schooner *Anemone* struck on Brownstown Head, Tramore, Ireland, during squally weather. She had lost her rudder, which quite disabled her. The Tramore life-boat was quickly launched, and brought safely ashore the vessel's crew of 5 men. Had it not been for the prompt arrival of the life-boat all on board must have perished.—Expense of service, 18l. 2s.

Jan. 7.—The brigantine *Seraphim*, of Dunkirk, was seen on the Towny Sands, with signals of distress flying. Information was sent to Pembrey, and the life-boat at that place was at once got out, mounted on her transporting-carriage, and taken alongshore, a distance of 5 miles, and then launched, through a very heavy sea, in a line with the stranded vessel. She soon arrived alongside and took off the crew of 8 men, who very gladly availed themselves of the services of the life-boat.

On the following morning the life-boat was again launched, and succeeded in bringing safely ashore the crew of 6 men from the French lugger *Espoir*, of Nantes, which, with signals of distress flying, was observed beating over the bank of the Middle Spit, with the crew in the rigging. The sea was making a clean breach over the vessel when the life-boat arrived alongside. On reaching the shore, after performing this gallant service, a brig was seen with signals of distress flying; she was apparently riding at anchor off the Burry Holmes, about two and half miles distant, her foretopsail yard, &c., being gone. The life-boat at once proceeded towards her, and after a hard pull succeeded in getting close alongside, and found she was completely under water, with the sea making a fearful breach over her: she was supposed to be the brig *Zenith*, of Sunderland. The life-boat then returned to the shore; she behaved exceedingly well in the heavy broken sea, and was twice filled with water, but soon emptied herself.—Expense of services, 24l. 19s. 6d.

Jan. 8.—The schooner *Gem*, of Hull, was seen stranded on Carmarthen Bar, with a signal of distress in her rigging. The wind was blowing strong from the west, and very squally. The Ferryside life-boat went off, and found the hull of the vessel completely under water, the foremast being the only mast standing. The mainmast, with all the gear attached, was washing about alongside. There were 2 men clinging to the mast-head. On nearing the vessel, the life-boat encountered a heavy cross sea, with strong current setting to the south-west, which made the approach to the wreck very difficult. After repeated attempts, they succeeded in grappling the fore-rigging of the vessel, and in taking off 2 men in a very exhausted state. The master, his wife, and 2 men were drowned whilst lashed to the cross-trees during the night.—Expense of service, 7l. 19s. 6d.

The Porthdinllaen life-boat was soon launched and alongside, and some of her crew having boarded the vessel, she was ultimately brought safely into port. But for the prompt aid of the life-boat the smack must soon have become a total wreck. Expense of service, 14*l.* 8*s.*

The life-boat had only got a short distance when she was filled with the heavy seas, took sternway, and got broadside on the North Pier Head. At this juncture, Capt. KEARON jumped off the pier into the boat and encouraged the crew to persevere in their efforts, and after two more gallant attempts, the life-boat succeeded in getting through the surf, and in reaching the smack. Also the services of the *Birmingham* No. 2 life-boat at Caister, in going off in reply to signals of distress from the *Newarp* lightship during blowing weather on the 27th October. On arriving alongside it was found that she had been cut down almost to the water's edge by a large trading steamer. The steamer, which had sustained some damage herself, remained alongside until the arrival of the life-boat, and then went on to Yarmouth. Four of the life-boat men boarded the light-vessel, to assist the crew at the pumps, and the life-boat returned to Caister with a letter for the Trinity House Agent at Yarmouth. A steam-tug was afterwards sent out from the latter place to the assistance of the disabled vessel, which was then taken into Yarmouth Harbour to be repaired. It was very dark at the time, and the wind blowing strong from W. to N.W., with much swell in the offing.

Voted 60*l.* 7*s.* 6*d.* to pay the expenses of the life-boats at Sutton, Ilfracombe, North Deal, Runswick, Holyhead, Exmouth, Newhaven, and Fraserburgh, in going off during stormy weather in reply to signals of distress from vessels which, however, did not eventually require the assistance of the life-boats.

Nov. 18.—The barque *Thetis*, of Gothenburg, was stranded on the Woolpack Sand, about seven miles from Hunstanton, during a strong wind and hazy weather. The crew of 16 men took to their boat, and were picked up by the Hunstanton life-boat and brought safely ashore.—Expense of service, 9*l.*

The same life-boat went off again on the 7th Dec., and rescued the crew of 15 men from the S.S. *Harmonia*, of Hamburg, which was totally wrecked on a sandbank near Brancaster. There was a heavy gale blowing from the N.E. at the time, and a high sea running. The passengers had been previously taken off by the steamer's own boats, but these could not get back again to rescue the crew, owing to the increased strength of the gale and heaviness of the sea.—Expense of service, 19*l.* 2*s.*

Nov. 18.—The *Western Commercial Traveller* life-boat at Cadgwith, Cornwall, was lent to the fishermen at their earnest request, and the men were thus enabled to put out and save their large seine net, which had broken away from its fastenings during the gale, and was drifting away to sea.

Nov. 25.—The schooner *Assistant*, of Stavanger, struck on the Barber Sand during a strong wind and hazy weather. Signals of distress were made, which were promptly responded to by the Caister life-boat, which put off, and remained by the vessel until she was got off the Sand.

Dec. 1.—During a terrific gale of wind the brigantine *Vitruvius*, of Liverpool, was observed to anchor in a very dangerous position in the Skerries Roads, off Portrush. The life-boat at the latter place was quickly launched; but after proceeding some distance, it was thought the shipwrecked crew had left their vessel in their own boat, and the life-boat was signalled to return, which she did. The life-boat was launched a second time, but was driven back by the fury of the gale. Again, a third time, she was launched, and happily succeeded in rescuing the crew of

6 men and in bringing them safely ashore, amid great rejoicing.—Expense of service, 20*l.* 15*s.* 6*d.*

Dec. 1.—The coxswain of the Donna Nook life-boat, and 6 other men, with 2 horses, proceeded at midnight along the coast upwards of 4 miles in the direction of Gramthorpe Haven, and there found a schooner on the sands, and her crew of 3 men preparing to leave her. She proved to be the *Mary Ant.*, of Whitby, in ballast. They assisted them ashore, and brought them back on the horses to Donna Nook. They afterwards returned to the vessel, and safely moored her, and, whilst thus engaged, discovered another vessel throwing up signals of distress, and burning tar-barrels. It was then about 5 A.M., and the coxswain at once returned to the life-boat station, and sent messengers to call up the life-boat crew. Soon all was ready, and the life-boat was launched; but the heavy gale holding up the tide, the horses had to go a mile and a quarter belly deep before reaching the outer bank of sand, so as to get to windward of the schooner; but the tide running so rapidly, the launching men being up to their arm-pits in water, could not stand to pull the boat off the truck, and were obliged to get into the boat, when the crew shoved her off the truck and over the bank with their oars, and with great difficulty the vessel was at last reached. She proved to be the *Esk*, of Montrose. After making fast the life-boat by anchor and ropes, 6 of the vessel's crew were taken off, and the life-boat then made her way back, and grounded on the bank. All hands (except the vessel's crew) then got out, and, up to their waists in water, dragged the life-boat as far as they could; but not being able to get her clear, all got out, except the coxswain, and waded upwards of a mile to the life-boat house. All were so frozen and starved, that it was necessary to send for a medical man, who restored them before he left. The coxswain remained with the life-boat and truck on the bank to secure them from loss or damage. He afterwards waded to the shore, but none of the farmers would again lend their horses to get the boat back. The coxswain and another coastguardman then waded back to the life-boat, and soon afterwards discovered another vessel with signals of distress flying about 8 miles away. The two men again returned to the shore, and called up the crew and launchers, but not being able to procure horses, they were obliged to abandon the effort to get the life-boat off to the vessel. The horses had been so injured by exposure to the severe cold on the first occasion, that it was difficult to keep life in them for a time. The life-boat was afterwards got safely back to the station.—Expense of services, 36*l.* 1*s.*

Dec. 1 and 2.—About 9 P.M. on the 1st Dec., the barque *Bayadere*, of Rouen, parted from her anchors, and struck on the rocks near the lighthouse, at Holyhead. It was blowing at the time a most terrific gale of wind from the N. The Holyhead life-boat was soon launched in the face of all difficulties—heavy sea and lee shore—and brought safely ashore the crew of 12 men. The vessel soon afterwards became a total wreck. The life-boat then went out three separate times to the ship *Lydia Williams*, of Liverpool, that had sunk near Salt Island, and brought 34 persons on shore. The crew of the ship were in the rigging, and among them a lady passenger, with an infant 7 months old. After two trips 2 men were found to have been left in the fore-rigging, so they again had to return. At 5 A.M. on the 2nd, the life-boat was again manned and sent off to save the crew of the schooner *Seeland*, of Chester. The men were, however, saved by means of ropes from the breakwater. On this occasion the boat beat off in the most wonderful style to the breakwater, through some terrific squalls of snow and hail; her sailing

powers proving very great. The last time the life-boat went off in reply to a signal of distress, she brought ashore 7 persons from the schooner *Elizabeth*, of Liverpool, making 53 in all saved—a good 24 hours' work. Six separate times the boat was manned, and did good service with her veteran coxswain, Rowlands, over seventy years old.—Expense of services, 47*l.* The Second Service Clasp was voted to W. Rowlands, the coxswain, in acknowledgement of his gallant services on the above occasion.

Dec. 1 and 2.—The schooner *St. Brannock*, of Bideford, was stranded during a fresh gale of wind from W.S.W., off Maymean, near Looe Island. The Looe life-boat went off and assisted to save the vessel and her crew.—Expense of service paid by Owner.

Dec. 2.—The sloop *Hellens*, of Alloa, was observed in the offing, off Buckie, N.B., a little after daylight, during a severe storm from the N.E. It was seen that it was impossible that she could keep the sea for any length of time, and the Buckie life-boat was got out in readiness to be launched. Signals were made for the crew to run the vessel ashore, so that she might avoid the rocks. The captain steered accordingly, and the vessel came forward on the top of the waves, only the spray breaking over her, and struck the ground about 100 yards from the beach. The life-boat was then quickly launched, and succeeded with some difficulty in saving the crew of 4 men.—Expense of service, 7*l.*

Dec. 2.—The French brig *Courrier du Nord* went ashore on the ridge outside St. Ives Pier. She was first seen in the offing at ten o'clock A.M., standing to the westward in a very heavy sea, the wind blowing a strong gale at N. by E., and the ship labouring heavily. When she struck, the sea was breaking with fearful violence. The St. Ives life-boat was in readiness, under the lee of the new pier, when the vessel struck, and when that happened, at once proceeded on her way to the rescue of the crew. She was, however, beaten to leeward of the ship by the heavy sea and strong current. Three other attempts were made by the life-boat to reach the vessel, and twice they succeeded in grappling the rigging, but the Frenchmen seemed afraid to trust themselves to the rope. Eventually the life-boat succeeded in saving one of the crew. Two others left the vessel in their own boat, which was capsized, and only one succeeded in gaining the shore, and was in a most exhausted state. The remainder of the crew were unfortunately drowned. The life-boat lost several of her oars, and was manned by four different crews in her gallant attempts to save the shipwrecked men.—Expense of service, 25*l.*

Dec. 2 and 3.—The sloop *Ant.*, of Boston, was totally wrecked during a strong gale of wind from N.E., between Telegraph House and Gibraltar Point, near Chapel. The Skegness life-boat went off and saved the vessel's crew of 2 men.—Expense of services, 6*l.* 15*s.*

On the 3rd Dec. the same life-boat went off in reply to signals of distress, and brought ashore the captain of the schooner *Elizabeth*, of Louth, which had stranded on the Main below Gibraltar Point. He then proceeded to Boston to get the assistance of a steamer and lighter to get his vessel off.

Dec. 3.—The brig *Queen Victoria*, of South Shields, was totally wrecked during a strong N.E. gale of wind on the Barnard Sand, Suffolk. The Pakefield life-boat went off, and succeeded in saving 1 of the crew from the rigging. The remainder, 7 in number, had been unfortunately drowned before the arrival of the life-boat.—Expense of service, 15*l.* 5*s.*

Dec. 3.—About noon a large brig was seen

drifting along the coast to the northward of Sutton, Lincolnshire—in a very distressed condition—her mainmast gone, all her sails blown to atoms and fluttering in the wind, and signals of distress flying from the rigging. The gale, which had been blowing with great violence, was then at its height. The Sutton life-boat was at once launched, through a tremendous sea. It was a long and arduous task pulling through the surf, but it brought out the good qualities of both men and boat in a most admirable manner. So heavy were the seas that the boat was often completely lost to sight. At last sail was got on the life-boat, and she then started gallantly in pursuit of the brig. It was a most anxious sight to the spectators on shore to watch the chase—a race truly of life and death. The vessel at last struck on a jutting point of land off Ingoldmells, about ten miles distant from Sutton just as the boat overtook her. A communication was then effected between the ship and the life-boat, and the crew of 7 men were rescued, and afterwards brought safely ashore in a very exhausted state. The brig proved to be the *Clarinda*, of Sunderland, in ballast. She was subsequently driven out to sea, and completely lost sight of from the shore. The crews of the life-boats at Theddlethorpe and Skegness also assembled with the view of going off to the same vessel.—Expense of services, 37*l.* 17*s.*

Dec. 3.—The schooner *Phœbe*, of Goole, was observed stranded about a mile north of Winter-ton, Norfolk. The life-boat at that place was quickly manned and launched, and succeeded in taking from the rigging the two remaining hands on board. The captain's wife and a lad were unfortunately washed overboard and drowned before the arrival of the life-boat.—Expense of service, 12*l.* 10*s.*

Dec. 3.—The schooner *Hero*, of Maldon, anchored in distress on a lee shore near Sheringham, Norfolk, the wind blowing very fresh from N.E. at the time. Soon afterwards she slipped her anchors and came ashore. The Sheringham life-boat was thereupon launched, and gallantly made her way, amidst the heavy breakers, to the vessel, and rescued 3 of the crew. The mate had been rescued by means of the rocket apparatus.—Expense of services, 8*l.* 10*s.*

Dec. 4. The brig *Wild Rose*, of Brixham, was observed in a dismasted state off Cromer, Norfolk, during stormy weather. The Cromer life-boat went off, and, at the request of the captain, remained by the vessel for some hours.—Expense of service, 17*s.*

Dec. 5.—Voted 170*l.* 17*s.* 6*d.* to pay the crews of the North Sunderland, Withernsea, Sutton, Blakeney, Hasborough, Bacton, Palling, North Deal, Walmer, Kingsdowne, Rye, Winchelsea, Fishguard, Porthdinllaen, Orme's Head, and Wicklow life-boats of the Institution for either going off to vessels in distress, with the view of saving life, or for assembling in the life-boat houses, ready to launch the life-boats, to meet any emergency that might arise amongst vessels in apparent distress.

Also 50 guineas in aid of the local fund that was being raised at Gorleston for the relief of the widows and orphans of the life-boat men who unfortunately perished on the occasion of the capsizing of the beachmen's salvage life-boat, whilst returning to Yarmouth Harbour with the crew of the ship *George Kendall*, of Hull, on the 3rd Dec.

Reported the services of the Ramsgate life-boat in going off during heavy gales of wind and rescuing the crew of 8 men from the brigantine *Amor*, of Elsfleth, and the brig *Cruizer* and her crew of 6 men from destruction, on the 30th Nov., and 13th Dec.

The same life-boat also went out on four other occasions, with the view of rendering assistance to the crews of distressed vessels, but fortunately her services were not ultimately needed.

Dec. 6.—The ship *Thornton*, of New York, was stranded on the West Middle Sands, off Liverpool, during a fresh gale of wind, and subsequently became a total wreck. The New Brighton life-boat went off and brought safely ashore 13 men.—Expense of service, 13*l.*

Dec. 6.—The sloop *Christian and Charlotte*, of Peterhead, was stranded off St. Andrews, N.B., during a gale of wind from N.N.E., with heavy squalls of rain and hail. The St. Andrews life-boat went out and fortunately succeeded in saving the crew of 4 men.—Expense of service, 21*l.* 10*s.*

Dec. 6.—The ship *Annie Gray* was observed in distress off Ballybunion, Ireland, during stormy weather. The life-boat stationed there went off, and remained by the vessel some hours, until she got out of danger.—Expense of service, 7*l.* 4*s.* 6*d.*

Dec. 8.—The sloop *Telegraph*, of Port Isaac, was observed stranded on the Doom Bar Sands, off Padstow. A fresh gale of wind was blowing from the N., with heavy squalls. The Padstow life-boat was quickly launched, and proceeded to the Bar, which they reached, after being driven back three times by the tide and heavy sea. They then dropped down to the vessel, and effected a communication with her, but the rope unfortunately broke, and some difficulty was experienced in getting another line on board. Ultimately, however, this was effected, and the crew of 3 men were rescued and brought safely ashore. In leaving the vessel the cable of the life-boat had to be slipped. The life-boat shipped several seas, and once the whole of the starboard oars were knocked out of the men's hands, and would have been lost but for the lanyards attaching them to the boat.—Expense of service, 12*l.* 10*s.*

Dec. 10.—The schooner *Jane Sophia*, of Aberystwith, while attempting to cross the bar at Aberdovey, N. Wales, before the tide served, struck on the South Bank. It was blowing very hard from the N.N.W., and a heavy sea was running. A pilot-boat, finding it impossible to reach the vessel, returned for the life-boat, which was promptly launched, and soon reached the vessel, which was found very leaky from the continued and heavy thumping on the sand. The life-boatmen boarded the vessel, and after great exertion succeeded in bringing her and her crew of 5 men safely into harbour.

Dec. 21, 22.—The brig, *John*, of Hartlepool, was seen off Whitburn, with signals of distress flying. The wind was blowing strong from S.S.E., and a heavy sea was running. The Whitburn life-boat went off, and on arriving alongside hailed the crew; but receiving no answer, and observing that the long-boat had been hoisted out, the life-boat pulled out to sea, but finding no trace of her returned to the shore. Subsequently a messenger arrived from Sunderland, saying that the crew had arrived there in their own boat, having left the master on board the stranded vessel intoxicated. The life-boat thereupon went off again, and rescued the captain, who was found drunk and asleep in his cabin, with the water washing all round him. Expense of service, 29*l.* 8*s.*

Dec. 23.—The smack *Hope*, of Aberystwith, struck on the South Bank, off Aberdovey, during stormy weather. The life-boat at the latter place put off, but her services were declined, and she returned to the station, after telling the crew of the smack to hoist two lights, in case they should ultimately require her services. About midnight this signal was made, and the life-boat was again launched, and succeeded in bringing the vessel

and her crew of 3 men safely into harbour.—Expense of services paid by Owner.

Dec. 29.—The brig *Woolgast*, of Woolgast, Prussia, was observed in distress near the South Scar rocks, off North Berwick, during stormy weather. The life-boat at the latter place put off and assisted to get the vessel from her dangerous position.—Expense of service paid by Owners.

Dec. 30.—The schooner *Naiad*, of Colchester, was seen burning signals of distress off Palling during a fresh wind from the E. and heavy sea. The Palling life-boat put off and assisted, after 10 hours' exertions, in getting the vessel out of her dangerous position.—Expense of service paid by Owners.

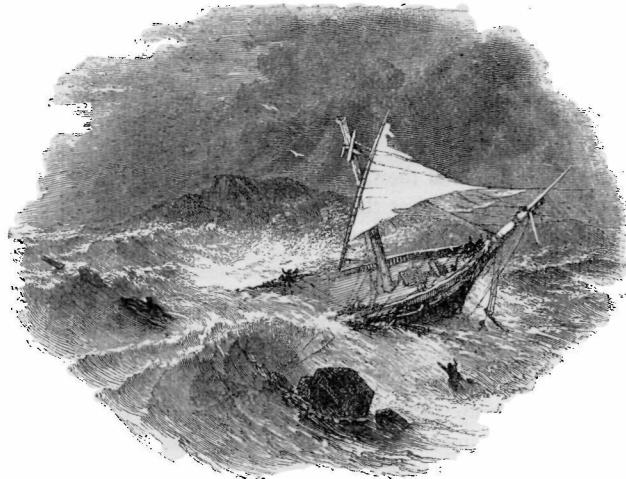

Dec. 31.—Voted 184*l.* 14*s.* to pay the expenses of the life-boats at Drogheda, Fraserburgh, Yarmouth, North Deal, Berwick, Holy Island, Scarborough, Bridlington, Cromer, Caister, Margate, Dungeness, Looe, Mullion, Hayle, and Newquay (Cardigan), in going off, in reply to signals of distress, with the view of saving life during the gales of December.

Also 12*l.* 9*s.* to pay the expense of the follow-

ing service rendered by the Port Logan life-boat on the 17th Dec. The barque *Strathleven*, of Glasgow, was wrecked during strong wind, W. by N., half a mile north of Float Bay, about 7 miles from the life-boat station at Port Logan, N.B. The vessel was under double-reefed topsails when she struck, and the night was very dark. An attempt was made to communicate with the land, and a boat was lowered for that purpose, but immediately broke adrift with 2 men in her, who were thrown upon the rocks, and, after great exertion, succeeded in gaining the shore. Information was then at once forwarded to Port Logan for the life-boat, which was soon launched and on her way to the wreck; she found the shipwrecked crew, 15 in number, clinging to the rigging on the starboard quarter, which was nearly under water, with the sea constantly washing over them. They were safely got into the life-boat, and brought ashore in a very exhausted condition. They said they could not have held on much longer, and expressed great gratitude for the services of the life-boat, and spoke in high terms of the manner in which she was handled.

THE MEDAL  
OF THE  
ROYAL NATIONAL LIFE-BOAT INSTITUTION,  
FOR THE  
PRESERVATION OF LIFE FROM SHIPWRECK.

*Obverse.*—Bust of Her Majesty Queen Victoria; beneath, in minute letters, “L. C. Wyon.” Double legend, “Royal National Life-boat Institution. Founded in 1824. Incorporated 1860. Victoria, Patroness.”

*Reverse.*—Three sailors in a Life-boat,—one of whom is in the act of rescuing an exhausted mariner from the waves on a fragment of the wreck. “W. Wyon, Mint.” Inscription, “Let not the deep swallow me up.”

THE beautiful obverse of this medal, which has recently been executed by L. C. WYON, Esq., represents the bust of QUEEN VICTORIA, Her Majesty's locks gracefully waving and gathered in a knot behind, from which issues a wreath of oak clustering over the forehead. This life-like portrait of the QUEEN, in high relief, conveys a truly pleasing and faithful likeness of Her MAJESTY, as at this period of her life; combining dignity of aspect and benevolence of nature; and represented by Mr. WYON with the most exquisite finish, delicacy, and beauty of workmanship.

The reverse, representing the Life-boat, in which there are three Sailors, rescuing a fourth from the sea, is a work of superlative merit. Two of the Sailors are steadyng the boat, while the other, stooping, draws in the Shipwrecked Sailor, whose figure is given so as to show the form in the most natural and beautiful manner; and the expression thrown into his countenance looking up to his preserver is unrivalled by anything that we have ever seen, while the easy flowing lines of this sailor are finely contrasted by those of his companions: the whole displaying the most perfect knowledge of the human frame, the finest taste to arrange it, and a command of the graver to embody to us what the artist's bright genius had shadowed out to himself.

But there is another pleasing motive for our admiration of this beautiful Medal, as the figure who is so humanely extending his relief to the drowning Mariner is a portrait of the Artist (the late WILLIAM WYON, Esq., R.A.) himself.

The following is a LIST of the GOLD and SILVER MEDALS that have been voted by the Committee of this Institution, since its establishment in 1824, to persons whose humane and intrepid exertions in saving Life from Shipwreck have been deemed sufficiently conspicuous to merit that honourable distinction. The Cases will be found recorded in detail in the several Annual Reports of the Institution.

*Note.—The asterisk (\*) after the name denotes the reception of a Gold Medal.*

*The figure after the name signifies the number of honorary distinctions received from the Institution.*

The accompanying figures show the general form, the nature of the fittings, and air-chambers of one of these boats, 33 feet in length and 8 feet in breadth. In figs. 1 and 2, the elevation and deck plans, the general exterior form of the boat is shown with the sheer of gunwale, length of keel, and rake of stem and stern-posts. The dotted lines of fig. 1 show the position and dimensions of the air-chambers within board, the relieving-tubes, and ballast. In fig. 2, A represents the deck, B the relieving-tubes (6 inches in diameter), C the side air-cases, D the end air-chambers, E ballast, F scuttles to admit of a free current of air under the water-tight deck, G a scuttle for air, and to receive pump. In fig. 3, the exterior form of transverse sections, at different distances from stem to stern, is shown. Fig. 4 represents a midship transverse section, A being sections of the side air-cases, B the relieving-tubes, of the same depth as the space between the deck and the boat's floor. C, C, C, C, are spaces beneath the deck, placed longitudinally, at the midship part of the boat, with cases packed with cork, forming a portion of the ballast; d scuttle for ventilation, having a pump fixed in it, by which any leakage beneath the deck can be pumped out by one of the crew whilst afloat. The festooned lines in fig. 1 represent exterior life-lines attached round the entire length of the boat, to which persons in the water may cling till they can be got into the boat; the two central lines are festooned lower than the others, to be used as stirrups, so that a person in the water, by stepping on them, may climb into the boat without assistance.

This life-boat possesses in the highest degree all the qualities which it is desirable that a life-boat should possess:—

1. Great lateral stability or resistance to upsetting.
2. Speed against a heavy sea.
3. Facility for launching and taking the shore.
4. Immediate self-discharge of any water breaking into her.
5. The important advantage of self-righting if upset.
6. Strength.
7. Stowage-room for a large number of passengers.

# ROYAL NATIONAL LIFE-BOAT INSTITUTION.

## THE LIFE-BOAT REGULATIONS.

THE following Regulations are intended for the guidance of the Local Committee to be formed at each place at which a life-boat is stationed by the NATIONAL LIFE-BOAT INSTITUTION, and to whose care and control the life-boat, her crew, and everything connected with her management and maintenance, will be intrusted.

The local committee to consist, if practicable, of not less than five persons usually resident, to be elected annually. The Inspecting-Commander of Coastguard of the division, or in his absence the nearest Coastguard officer to the spot, to be *ex officio* a member of the local committee.

1. The life-boat's crew to consist of a coxswain-superintendent, an assistant coxswain, a bowman, and as many boatmen in addition as the boat pulls oars.

2. For every boat, at least double the number of men required (if they can be found at or near the spot) should be invited to become members of her crew.

3. Such list to consist of sailors and fishermen who are usually resident, and (with permission of the Controller-General) of any Coastguard-men of the station who may volunteer for the service.

4. The salary of the coxswain-superintendent shall be 8*l.*, and that of the assistant coxswain 2*l.* annually. On every occasion of going afloat to save life, the coxswains and each of the crew shall receive alike, 10*s.* by day and 11*s.* by night; and for every time of going afloat for exercise, 3*s.* in smooth weather, and 5*s.* in rough weather. In the absence of the coxswain, the assistant coxswain will take charge of the boat.\*

\* The coxswain is held responsible for every man who goes into the life-boat, on occasions of service and of quarterly exercise, without having on a life-belt.

5. In the event of money being received by the life-boat for salvage of property, or similar service, a proportion equal to *two shares* shall be paid to the Institution to cover risk of damage to the boat, the remainder to be divided into equal shares amongst the coxswain and crew. If, however, salvage be paid for the preservation of life, no portion shall be reserved for the boat.

6. If local subscriptions be raised to reward any special act of gallantry or exertion, the Institution recommends that the whole of the money be paid to the crew, in equal shares.

7. As at each life-boat station there will be a local committee, the coxswain will act under their immediate directions, and the boat, except in case of wreck, is never to be taken afloat without their sanction.

8. As the efficiency of a life-boat depends on the good training and discipline of her crew, the strictest attention must be paid by them to the directions of the coxswain on all occasions connected with the service. The boat shall be taken afloat for exercise, fully manned, once during each quarter, sometimes in *rough weather*.

9. The local committee at each station are requested to make a Quarterly Report to the Institution, as to the behaviour of the boat during exercise, pointing out any defect that may require to be remedied, and offering any suggestion that may conduce to the efficiency of the service. Also generally to report on the state and condition of the boat, the carriage, the boat-house, and all the life-boat gear. Should occasion for immediate repairs arise, the local committee are authorized to make them to the

extent of 5*l.* : more extensive repairs to be referred, with an estimate, to the Parent Institution.

10. The boat is to be kept on her carriage in the boat-house, with all her gear in her ready for use, except matches, rockets, and perishable articles which may require to be secured from damp.

11. There should be three keys to the boat-house, kept in different places, with the *address of each painted on the door*; one in possession of the coxswain, and the others as the local committee may decide.

12. Immediately on intimation of a wreck, or of a vessel in distress, the coxswain is to use his utmost exertions to assemble his crew, launch his boat, and proceed to her assistance: and in the event of a sufficient number of his crew not being present, he is to select the best volunteers he can get to supply their places.

13. If a wreck occur at some distance from the station, so as to require the boat to be transported along the coast, the coxswain is to send to procure sufficient horses (which, by the Wreck and Salvage Act, any magistrate, constable, or revenue officer may demand the use of), attach them to the carriage, and lose no time in making the best of his way with the crew to the scene of wreck.

14. A reward of 7*s.* to be given to the man who first brings intelligence of a wreck at such a distance along the coast as not to be in sight from the Coastguard or other look-out.

15. A signal shall be agreed on by which the life-boat crew can be called together when required. A flag hoisted by day and the firing of a carronade (or other alarm signal) twice, quick, by night.

16. On approaching a wreck, the coxswain will use his judgment, according to the circumstances of the case, whether he will board the wreck end on, either on the bow, on the quarter, or on the broadside; or whether he will go to windward, drop his anchor, and veer down to the wreck; or if he will lay her alongside.

17. On boarding wrecks, the preservation of life is to be the coxswain's sole considera-

tion, and he is on no account to take in goods or merchandize which might endanger the safety of his boat, and the lives of those intrusted to his charge. And should any be brought in, contrary to his remonstrance, he is fully authorized to throw them overboard.

18. No one besides the crew, namely, the coxswain, the assistant coxswain, the bowman, and one boatman for each oar, is on any account to be allowed to go out in the life-boat when going to a wreck, except with the express sanction of the local committee.

19. The life-boat is not to be used for taking off an anchor; nor for the purpose of salvage; nor for taking off stores, a pilot, or orders to a ship, so as to interfere with private enterprise (except in cases of emergency, with the special sanction of the local committee), but to be reserved for cases involving risk of life.

20. The coxswain will enter in a journal with which he will be supplied, all services performed by his boat, stating the time of launching, time of reaching the wreck, the vessel's name, whither bound, number of persons rescued, &c., a copy of which, on each occasion of wreck, is to be forwarded, by the local committee, to the Secretary of the Institution in London.

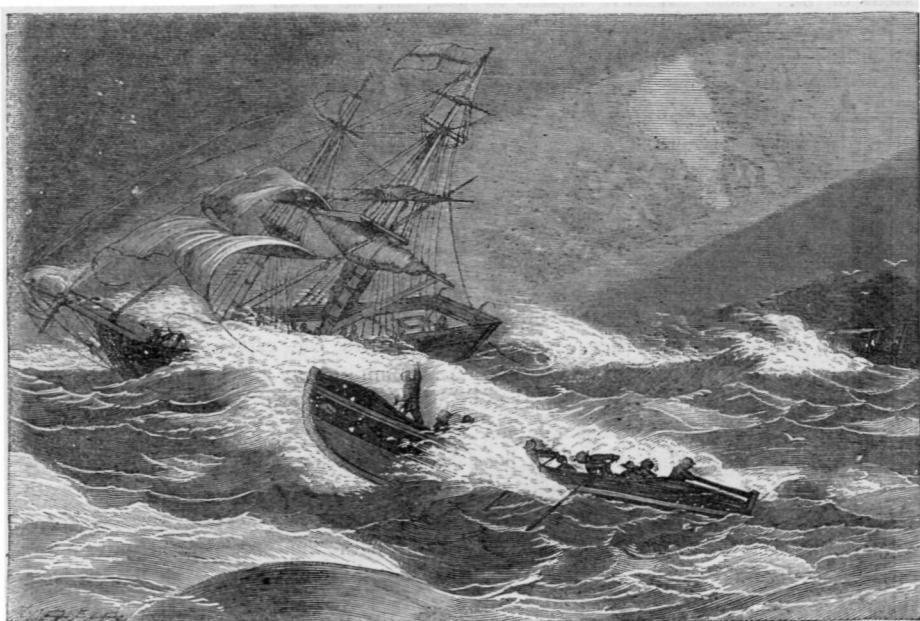

21. On returning from service, the boat is not to be left in the surf on the beach, but, as soon as possible, is to be got on her carriage, and placed in the boat-house.

22. The coxswain-superintendent will be held responsible for the efficiency and general good order of the boat-house, the boat, and her gear; and it is hoped that a sense of the trust confided to them in the cause of humanity will lead the coxswains and crew to be most careful on these points, and to distinguish themselves by their zeal and readiness, and by the seaman-like manner in which their boat is handled.

By order of the Committee,

RICHARD LEWIS,

*Secretary.*

The object of this Institution, as declared in its title, is to afford assistance to every wrecked person around the coasts of the United Kingdom.

The chief means by which the Society hopes to carry this object into effect are:—

To build, station, and maintain in repair, Life-boats of the most perfect description; to furnish them with all necessary Appurtenances, including Houses to preserve them in, and Carrriages for their conveyance to the spots where their Services are called for; and further, to provide, through the instrumentality of Local Committees, for their proper Management, and the occasional Exercise of their Crews.

To confer Honorary Rewards in the form of Medals and Votes of Thanks, and also to grant Pecuniary Remuneration to all persons who, at the risk of their own lives, save, or attempt to save, those of others on board vessels wrecked, or in distress, upon any part of the coasts of the United Kingdom.

An as index of the necessity for the provision of such a machinery as the above, it may be stated—that the average loss of lives from shipwreck annually on the shores of the United Kingdom is 600.

Donations and Annual Subscriptions will be thankfully received by Messrs. WILLIS, PERCIVAL, and Co., 76 Lombard-street; Messrs. COURTS and Co., 55 Strand; Messrs. HERRIES, FARQUHAR, and Co., 16 St. James's-street, London; by all the other London and Country Bankers; by the several Metropolitan Army and Navy Agents; and by the Secretary at the Office of the Institution, 14 JOHN STREET, ADELPHI, London—W.C.
