

THE LIFE-BOAT,

OR

JOURNAL OF THE NATIONAL LIFE-BOAT INSTITUTION.

VOL. VII.—No. 72.]

APRIL 1st, 1869.

[PRICE 1s.

AT the ANNUAL GENERAL MEETING of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, held at the London Tavern on Tuesday, the 9th day of March, 1869, His Grace THE DUKE OF NORTHUMBERLAND, P.C., President of the Institution, in the Chair, the following Report of the Committee was read by the Secretary :—

ANNUAL REPORT.

THE Committee of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, on this its forty-fifth anniversary, have the honour to render to its supporters and to the British public their annual account of the important trust reposed in them.

In so doing, they feel it to be their first duty to express their gratitude to the Giver of all good for the success which continues to attend the labours of the Institution; and secondly, to thank its supporters for their continued and generous aid.

As years go by, the Committee feel more and more sensibly the great responsibility that rests on them in conducting a work wherein human lives are ever at stake, and in the prosecution of which even one false

step might be productive of lamentable consequences.

They feel, however, that if the responsibility is great, yet greater still is the privilege of being permitted to take a part in the noble work of saving their fellow-men from an untimely and melancholy end; and they hope, resting on the support which has not hitherto failed them, to persevere in that work for the time to come.

A brief account of the year's transactions may be epitomised under the usual headings.

Life-boats.—Since the last Report eighteen life-boats have been placed, or are about to be placed, on the coast; twelve of them being at new stations, and six taking the place of inferior or worn-out boats. They are stationed as follows :—

Carriages and boat-houses have also been provided, where required.

The Institution now possesses two hundred life-boats. During the past twelve months they have been the means of rescuing *six hundred and three* persons from various shipwrecks; nearly the whole of whom were rescued under circumstances in which they could not have been by any ordinary description of boat.

On some of the occasions when lives have been saved, the services of the life-boat crews have been of the most heroic character. Two instances, occurring in the month of December last, the one near Penzance and the other near Bideford, demand especial notice. On both these occasions, when seventeen lives in all were saved, the boats are described by eye-witnesses as having to encounter terrific and overwhelming seas, which at times threw them into a position almost perpendicular, and eventually both were upset, but happily both boats speedily righted themselves, and the crews regained them in safety, and have expressed renewed confidence in their valuable qualities.

The Committee regret, however, having to report that on one occasion when exercising the Ballywater life-boat in the month of December, it was upset by being overpressed with sail, and the coxswain, through having neglected properly to adjust his life-belt, unfortunately perished.

It is a source of much satisfaction to the Committee to be able to report that the crews of the several life-boats of the Institution continue to regard them with unbounded confidence. This confidence is undoubtedly fully justified by the very small number of lives which (considering the perilous character of the life-boat work) have been lost from them, amounting to less than an average of one in each year since the Institution, in the year 1852, undertook the work of providing our coasts with improved life-boats.

Shipwrecks and Loss of Life.—Gratifying and encouraging as is the fact that the NATIONAL LIFE-BEAT INSTITUTION has contributed, during the past twelve months, to the saving of nearly nine hundred lives, it is

yet the painful duty of the Committee to refer to the distressing loss of life that has taken place during the same period on the coasts and in the seas of the British Isles. Year after year our coasts are strewn with shipwrecks to the number of nearly 2,000, by which the lives of at least 5,000 or 6,000 men are placed in jeopardy. The number of lives thus imperilled during the past year was fully up to this average. The majority of these would undoubtedly have perished had it not been for the exertions which are promptly and unceasingly put forth on such occasions by the life-boats as well as by shore-boats, the Rocket and Mortar Apparatus of the Board of Trade, and other available and practicable means.

Notwithstanding these exertions, nearly 700 persons perished from shipwrecks on the coasts of the United Kingdom during the past year—a number which may appear large if uncomparred with the death-roll of former years, or if the enormous extent of British trade, and the dangerous character of our shores, are not considered; but which, whilst it is sufficient to call forth the continued efforts of this Institution, and the generous aid of a humane public, yet shows so great a reduction in the death list of the previous year—which was 1,333—as to afford every encouragement to persevere in the noble work of saving human lives. (Vide annexed list, p. 35.)

The services of the Life-boats of the Institution continue not only to elicit the gratitude of the men who have been rescued, in many instances, from the very jaws of death, but also to call forth universal approbation.

The Committee have likewise proofs by them that many ships during the past year have been saved from destruction by the life-boats, which have been signalled off to them, remaining for hours together by the distressed ships, thereby encouraging their crews to renewed exertions and skill to contend successfully with the tempest.

Public meetings have been held in Manchester, Bristol, Penzance, and other large cities and towns, to promote the objects of the Institution, thus testifying their appreciation of its great and national work,

and affording the most gratifying encouragement to the Committee to persevere in their efforts on behalf of shipwrecked sailors.

The Committee do not wish to assume to themselves the exclusive privilege and happiness of providing, on the coasts of the United Kingdom, means to save life from

shipwreck. They therefore desire to call attention to the unceasing efforts of the Board of Trade, in maturing and maintaining the Rocket Apparatus in a state of thorough efficiency. This agency contributes every year, under the able management of the officers and men of the Coastguard service,

to the saving of hundreds of lives from shipwreck in situations where, from the presence of rocks and other impediments, it would be absolutely impracticable for Life-boats to be rendered equally available.

The number of lives saved during the forty-five years from the establishment of the Institution in 1824, to the end of the year 1868, either by its Life-boats or by special exertions for which it has granted rewards, is as follows:—

This is a glorious life-saving record, of which our country may well be proud, reflecting honour, as it does, alike on those who have personally by their intrepidity and exertions contributed to the happy result, and on those who have, by their liberality, enabled the Institution to effect and encourage its accomplishment.

Rewards.—In the Appendix a summary is given of the cases in which honorary and other rewards have been voted. During the past year, 13 Silver Medals, 15 Votes of Thanks inscribed on vellum and parchment, and 2,431*l.*, have been granted for saving the lives of 862 persons by Life-boats, shore and fishing-boats, and other means, on the

coasts and outlying banks of the United Kingdom.

These Rewards continue to receive the careful and judicious consideration of the Committee. Each case is previously most minutely inquired into, through the co-operation of the Officers of Coastguard and Customs, the local Honorary Secretaries of the several Branches of the Institution, or other responsible persons; and afterwards it is thoroughly sifted and considered by the preparatory Committee, previous to its being sanctioned by the General Committee at their monthly meeting.

The Committee have continued to receive to the last the prompt and cordial co-operation of their colleague, Rear-Admiral J. W. TARLETON, C.B., late Controller-General; also of Capt. G. WODEHOUSE, R.N., late Deputy-Controller-General, and of the Officers and men of the Coastguard Service, to whom the best thanks of the Institution are thus again cordially rendered.

Since the formation of the Society it has expended on Life-boat establishments 218,163*l.*, and voted 90 Gold and 802 Silver Medals for saving life, and pecuniary rewards to the amount of 29,976*l.*

Local Committees.—The Committee have again the satisfaction to acknowledge the earnest and kind co-operation they continue to receive from the Local Branch Committees, which constitute so important a portion of the machinery of the Institution for the supervision of its several Life-boat establishments, and of the valuable and gratuitous services of the zealous Honorary Secretaries of those Committees.

Finances.—The total amount of receipts during the year 1868 has been 31,668*l.* 9*s.* 8*d.*; and the Committee are grateful to be able again to announce, that of this sum no less than 6,713*l.* 0*s.* 2*d.* were special gifts to defray the cost of the following 13 Life-boats:—

During the past year 10,834*l.* 19*s.* 9*d.* was expended on additional Life-boats,

transporting-carriages, boat-houses, and necessary gear; 6,513*l.* 6*s.* 7*d.* on the expenses of repairs, painting, refitting, &c.; and 6,573*l.* 13*s.* 7*d.* in rewards for services to shipwrecked crews, coxswains' salaries, and quarterly practice of the Life-boats' crews; making altogether, including liabilities amounting to 4,668*l.* 6*s.* 6*d.* for Life-boat Stations now in course of formation, and other expenses, a total of 31,585*l.* 4*s.* 3*d.*

The items of receipt and expenditure are detailed in the financial statement annexed to this Report, audited, as usual, by Mr. BEGBIE, public accountant.

As before stated, the Institution has now under its charge a magnificent fleet, consisting of 200 Life-boats, and it will be at once evident that owing to its magnitude the costliness of its operations is unavoidable; yet it is a gratifying fact, that the generosity of the Public has in this, as in every other good and beneficent work, been proportionately large and liberal.

To maintain and perpetuate these operations is a matter of unceasing solicitude on the part of the Committee, who are deeply sensible of the responsibility incurred in the management of this great and national Institution. Nevertheless, encouraged as the Committee have been by the Public, aided also by their invaluable local organization, and by their own able and experienced officers, they do not shrink from that responsibility; on the contrary, they are determined, with the continued blessing of Almighty God, to leave no effort untried that can in any way tend to decrease the loss of life from shipwreck on the coasts of the United Kingdom.

GOD HELP OUR MEN AT SEA.

LIST OF THE REWARDS

FOR SAVING LIFE FROM WRECKS,

VOTED BY THE ROYAL NATIONAL LIFE-BOAT INSTITUTION

TO THE CREWS OF ITS LIFE-BOATS, TO SHORE AND FISHING-BOATS' CREWS, AND OTHER PERSONS,

FROM THE 1ST JANUARY TO THE 31ST DECEMBER, 1868.

Jan. 2, 1868.—The sloop *Industry*, and schooner *Mulgrave*, of Whitby, were endeavouring to enter that port in tow of a steam-tug, but in consequence of the strong wind and the heavy sea on the bar, the steamer struck the pier, thereby breaking the tow-ropes, and becoming disabled, so that the two vessels drove on the beach north of the west pier. The alarm was soon given, and the life-boat stationed at Whitby quickly launched. She rescued the crew of 2 men from the *Industry* just in time, as she was full of water when the life-boat reached her, and soon afterwards sank. The life-boat then proceeded to the *Mulgrave*, which was some distance off, and also succeeded in taking off her crew of 2 men, landing all in safety.—Expense of service, 16*l.* 12*s.*

Jan. 2.—Voted the Thanks of the Institution to Mr. THOMAS LAPENOTIÈRE, Inspecting officer of Coastguard at Cromarty, N. B., and 2*l.* 15*s.* to his boat's crew, for putting off on the 26th November, and saving the crew of 2 men of a fishing-boat, which, while proceeding across Cromarty Firth, was suddenly upset by a squall of wind.

Also a reward of 3*l.* each to 3 men, and 10*s.* each to 12 other men, for wading into the surf, and, by means of ropes, saving 22 persons from the ship *T. J. Southard*, of Richmond, U.S., which, during a heavy gale from the N.E., became a total wreck close to the Menai Lighthouse, on the Anglesey coast, on the 6th December.

Also the thanks of the Society and 1*l.* to Mr. JOHN DAY, Master of the smack *George and Elizabeth*,

of Hull, and 2l. each to 2 other men, for saving in a small boat, in two trips, the crew of 11 men of the smack *Richard Cobden*, of Grimsby, which was in a sinking state near the Dogger Bank, during a gale on the 3rd December.

Voted 5l. to 4 men for putting off in a small boat in a heavy sea, and saving the crew of 8 men of the lugger *Noah*, of Peel, which ran ashore on a reef of rocks, and afterwards sunk on Kearney Point, Co. Down, during a strong breeze on the 14th November.

Also 5l. to the crew of the yawl *Eclat*, of Caister, for going off on the 11th December, during a fresh breeze, and bringing ashore the crew of 9 men, who had taken to their boat after being wrecked on the Hasborough Sands in the brig *Ferris*, of Whitby.

Also 4l. 10s. to 7 men, for saving, principally by means of ropes, 4 of the crew of the brig *Alexander Steward*, of Belfast, which, during a heavy gale from the north, became a total wreck about one mile west of Cemlyn Point, Anglesey, on the 2nd December.

Also 4l. to 4 men for putting off in a small boat from the Pilot cutter *Blonde*, of Cowes, and rescuing 4 persons belonging to the smack *Choice*, of Yarmouth, Isle of Wight, which foundered between Hurst and Yarmouth during a fresh gale from the E.N.E., on the 16th November.

Also 2l. to 2 men, for going off in a small boat, during a heavy gale from the S.W., and bringing safely ashore 4 out of 5 of the crew, who were clinging to the masts and rigging, of the steamer *Isabella*, of Monte Video, which was wrecked on the 27th October, off Milford Pier.

Jan. 3.—The brig *Paul Friedreich*, of Wismar, was totally wrecked on the Hasborough Sands, during a strong E.N.E. gale. The *Scraby* life-boat went off, and, after considerable difficulty, succeeded in saving 2 men from the vessel.—Reward, 20l.

Jan. 3.—The barque *Panmure*, of Newcastle, was wrecked on Burnham Flats, during a fresh gale of wind from N.E. Some men assisted from the shore to save the vessel's crew of 12 men.—Reward, 3l. 10s.

Jan. 3.—Signals of distress were observed flying from a vessel on Baldoye Sand, in Dublin Bay. It was blowing a fresh gale from the S.E. at the time. The Howth life-boat was promptly manned and launched, and on nearing the sands, found the schooner *Seven Brothers*, of Wicklow, stranded. After some difficulty, on account of the heavy surf and broken water, the life-boat got alongside, took off the master and crew of 2 men, and brought them safely ashore.—Expense of service, 11l.

Jan. 14.—The schooner *Avenie*, of Nantes, was observed with signals of distress flying, in Dublin Bay, during a heavy gale of wind from the west. The life-boat stationed at Howth put off and brought ashore the captain of the vessel, in order that he might telegraph to Dublin for the aid of a steam-tug. The life-boat then went off again and put the captain on board his vessel; and afterwards the life-boat men assisted to weigh anchor and get the vessel from her perilous position, which, with the assistance of a steam-tug, was safely accomplished.—Expense of service, 5l. 15s.

Jan. 18.—The schooner *Maria*, of Newport, Monmouth, was seen in a dismantled state, dragging her anchors off Derby Haven, Isle of Man. It was blowing a heavy gale from the S.W., with a heavy sea running. The Castletown life-boat put off and succeeded in rescuing the vessel's crew of 5 men, in a very exhausted state.—Expense of service, 8l. 10s. 6d.

Jan. 22.—The schooner *Douglas Pennant*, of Carnarvon, was totally wrecked during a gale of

wind from the east and heavy sea, on the Dulas Rocks, on the Anglesey coast. The life-boat stationed at Moelfre went off and saved the crew of 4 men. *LADY DINORBEN*, of Dulas, had the poor shipwrecked fellows conveyed to her mansion, where they received every kindness, and were provided with dry clothing, &c.—Expense of service, 4l. 10s.

Jan. 22.—The brigantine *Onward*, of Llanelly, was totally wrecked during a strong N.E. wind, near Bury Holmes, Carmarthenshire. The crew of 5 men were rescued by means of men wading into the sea with ropes, &c.—Reward to salvors, 5l.

Jan. 22.—A pilot-boat, manned by 16 pilots, assisted during stormy weather to save the crews, consisting of 25 men, of several vessels which had either stranded or become total wrecks off Burry Holmes, Carmarthenshire.—Reward, 10l.

Jan. 24.—The barque *Wapella*, of Bath, U. S., was stranded and afterwards became a total wreck, on Dyffryn Beach, during a strong westerly gale. 3 men waded into the surf and saved the lives of 4 persons from the vessel.—Reward, 4l.

Jan. 24.—A fishing-boat belonging to Buckie, N.B., was observed anchored in a very dangerous position during a hurricane from S.S.W., about 2 miles north of the Skerries, with all her canvas blown away. Another fishing-boat put off and brought safely into Lossiemouth Harbour the disabled boat and her crew of 8 men.—Reward, 5l.

Jan. 24.—The schooner *Edward Stoward*, of Lancaster, was stranded during a whole gale of wind, S. by W., about 600 yards to the west of Anstruther Harbour, N. B. She had lost her main-boom, and all her sails were gone. The Anstruther life-boat was quickly launched, and succeeded in taking off the vessel's crew of 5 men, afterwards landing them in safety. It was reported that such a heavy gale of wind and sea had not been experienced on that part of the coast for many years, and the risk of life was very great in this gallant service.—Expense of service, 8l.

The same life-boat afterwards went off again, and piloted safely into port several fishing-boats belonging to Pittenween and St. Monance, which had been suddenly overtaken by a gale of wind from S. by W. No charge was made for this service.

Jan. 24.—The schooner *Anne*, of Aberystwith, was observed in a very dangerous position, with signals of distress flying, off Balbriggan, on the Irish coast, during a strong gale of wind and heavy sea. The life-boat stationed at Skerries at once went off, and brought ashore the crew of 4 men. The weather moderated some time afterwards, and the life-boat again put off, and placed the crew on board their vessel, which had fortunately held by her cables. Expense of service, 14l. 4s.

Jan. 24.—During a terrific gale of wind a schooner was seen showing signals of distress off Porthdinllaen, on the Welsh coast. The life-boat stationed there was at once launched through a terrific sea, and after a fearful struggle, she reached the vessel, which proved to be the Schooner *Denbighshire Lass*, of Beaumaris. She had parted one of her chains and was in danger of being driven ashore. The life-boat, after making the vessel as secure as possible, brought the crew of 4 men ashore. Soon afterwards another vessel was observed anchored in a very unsafe position with signal of distress flying. The life-boat men, although benumbed with cold, and wet through, again put off and brought ashore the vessel's crew of 5 men. She was the schooner *Sarah Caroline*, of Girvan. Both vessels fortunately rode out the gale, and the crews were the following morning

again put on board.—Expense of service, 30l. 10s.

Jan. 24.—During a heavy gale of wind from S.S.W. in the night, guns were heard from the St. Nicholas light-vessel, and rockets were thrown up, indicating a vessel in distress. The large life-boat stationed at Great Yarmouth went out, and after great difficulty succeeded in bringing safely into harbour the smack *Clipper*, of Great Yarmouth, and her crew of 6 men. The vessel was found riding on the edge of the Scroby Sands, holding by one cable only.

Jan. 24.—The schooner *Mischief*, of Carnarvon, struck on the Parten Stiel rocks, about a mile and a half to the south of Holy Island, Northumberland. A tremendous hurricane was raging at the time from the south, accompanied by thick showers of snow. The vessel at once showed signals of distress, which were promptly responded to by the Holy Island life-boat going off to the rescue of the crew. After an hour and a half of laborious work and gallantry of the crew, the life-boat reached the wreck, and took off 5 men and a boy, and brought them ashore in safety. A fishing-coble, under close-reefed sails, had failed to reach the distressed vessel, although her crew tried their utmost, the force of the hurricane being so great—in fact nothing approaching it had been experienced in the neighbourhood for many years.—Expense of service, 6l.

Jan. 24.—The barque *Ann*, of Harwich, was stranded at Orford Haven, during a strong gale of wind from the S.W. Some men put off in a small open boat, and rescued, after three attempts, the vessel's crew of 4 men.—Reward, 6l.

Jan. 29.—The schooner *Athol*, of Ardrossan, was observed riding heavily between Irvine and Lady's Isle, on the Scotch coast. The wind was N.W., with heavy squalls and showers. The Irvine life-boat put off, and found the vessel in a very disabled state, all her sails, gear, &c., being adrift. Some of the life-boat men boarded her, and her best cable just then snapping, the other was slipped, and the vessel and her crew of 3 men were taken in safety into Troon.—Expense of service, 7l. 18s.

Feb. 6.—Voted 203l. 13s. 11d. to pay the expenses of the life-boats of the Institution at Caister, Hunstanton, Skegness, Sutton, Walmer, Kingsdowne, Cadwith, Holyhead, Ormes Head, Penzance, Poole, Padstow, Falmouth, Wexford, Winterton, Thorpeness, Campbeltown, Girvan, Banff, and Swansea, in either assembling crews or putting off during the recent heavy gales, in reply to signals of distress from various vessels, which fortunately, however, succeeded in getting out of their dangerous positions, and did not ultimately require the services of the boats.

Also the Thanks of the Institution, inscribed on vellum, to Capt. J. R. PIM, the Second Service clasp to Mr. R. O. JOHNS, coxswain of the Tramore life-boat, and the Silver Medal of the Institution to MARTIN NORRIS, in acknowledgment of their highly meritorious and persevering services in going off in the Tramore life-boat, and assisting to save 21 persons from the ship *Oasis*, of Liverpool, which was wrecked in Brown's Bay, on the Irish coast. It was late in the evening of the 12th Jan., when the signal gun was fired from the battery, calling the crew of the life-boat together. It was blowing a strong gale of wind at the time from the S.E.; but within half an hour of the booming of the gun the life-boat was gallantly breasting the heavy seas on her way to the wreck. Her crew had great difficulty in getting her clear of the breakers and into deep water. She carried a bright light, which was watched with intense anxiety by the spectators on shore, as the boat rose and fell with the swell of the sea. Several times

it was entirely lost to view, and then again would appear on the top of the waves, as the boat was impelled forward by her strong and gallant crew. The vessel was found on the rocks, about five hundred yards to the west of the Metal Man, where the surge of the wild Atlantic beat with full force upon her. The life-boat gave the rocks a full berth, and having dropped her anchor, drifted slowly under the bows of the vessel, upon the jib-boom of which no less than 20 poor fellows were clinging. Having thrown a rope to them, they, one by one, dropped into the life-boat, each in turn, as he reached the boat, exclaiming, "how cold!" As no one else appeared on board, the life-boat then left the wreck, and after a hard pull round the Head, got into the Bay, and then ran quickly before the wind, reaching the shore in safety about three o'clock in the morning. When the daylight came, another poor fellow was seen crouched down in the rigging of the wreck, apparently quite exhausted and helpless. Again the life-boat was launched, and on nearing the spot the man could be seen on the cross-trees of the foremast, but appeared quite lifeless. The crowds of people on the cliffs above, seeing the poor fellow take no notice of the presence of the life-boat, gave a loud cheer, which had the effect of rousing him. He soon joyfully saw the life-boat, and began to descend by a rope, but seeming to lose what little remaining strength he had, he let go and fell on to the deck. The rope by which the vessel's crew had reached the life-boat from the bowsprit was still dangling in the air, tossed about by the wind. The life-boat gradually got under it, and MARTIN NORRIS, one of the crew, after several attempts, caught hold of the line, and the boat just then sinking in the trough of the sea, left him swinging in the air. He soon, however, began to ascend, hauling himself up hand over hand with the greatest ease, until he reached the bowsprit, from whence he got on to the deck of the vessel. He then lashed a rope round the body of the man, throwing one end to the life-boat and retaining the other himself, and pitching him overboard, the poor fellow was quickly hauled into the life-boat. NORRIS descended as he had gone up, by the rope, amid deafening cheers from those on shore, who had remained silent but deeply-moved spectators of the scene enacted below. The life-boat regained the shore in safety with the rescued man, who proved to be an Algerian, who had been sick with the ague. The ship soon afterwards began to break up. The captain and two of the crew were unfortunately washed overboard and drowned before the arrival of the life-boat. The life-boat was reported to have behaved admirably on the occasion.—Expense of service, 28l. 1s. 6d.

Also the Silver Medal of the Institution to WILLIAM JUNIPER, in acknowledgment of his gallant conduct in plunging into the sea from the Mundesley life-boat, and saving the life of a man who was floating on a plank after the breaking up of his vessel, the brig *George*, of Sunderland, which was wrecked off Mundesley, Norfolk, on 17th Nov.

Sept. 25.—The schooner *Elizabeth Davy*, of Goole, was observed in a dismasted state running for the shore, in tow of the *Polperro*, diving-boat, and had a very narrow escape of striking the rocks east of Looe Island, Cornwall. The life-

boat stationed at Looe went off through a heavy sea, and assisted to save the vessel and her crew of 3 men. Expense of service, 6*l.* 5*s.*

Sept. 25.—The schooner *Liberty*, of Portsmouth, sunk during a whole gale of wind on the west end of the Broad Bench Rocks, on the Dorset coast. Mr. HENEY STROCKS, Chief Officer of the Coastguard at Kimeridge, and 5 other men went off in a Coastguard life-boat and attempted to save the vessel's crew.—Reward, 3*l.* 10*s.*

Sept. 25.—The fishing-coble *Sybil*, of Redcar, was seen in great danger in the roadstead off Redcar during a fresh wind and heavy sea. The life-boat stationed at that place went out and took off the vessel's crew of 2 men, landing them in safety.—Expense of service, 11*l.* 9*s.*

The life-boat, previous to performing the above services, had gone off and brought ashore the crew of 3 men of the fishing-coble *Gentle Annie*, which was lying at anchor in a dangerous position under the lee of the Salt Scar Rocks.

Sept. 26.—The schooner *Active*, of Drammen, was totally wrecked on a ledge of rocks below Barns Muir, a mile and a half west of Crail, N.B., during a light wind. A shore boat put off through a heavy ground sea, and saved the crew of 5 men and a pilot.—Reward, 4*l.*

Sept. 26.—The ketch *Garside*, of Bridgewater, was wrecked during a gale of wind off Pembrey, on the Welsh coast. The Llanely life-boat went out and saved 2 out of 3 of the crew. The mate of the vessel had previously endeavoured to swim ashore and was unfortunately drowned in the attempt. Expense of service, 8*l.* 4*s.*

Sept. 29.—The schooner *Carnsew*, of Hayle, was observed at anchor in a very dangerous position off the east end of Caldy Island, during a heavy S.W. gale. The Tenby life-boat was at once launched, and succeeded in rescuing the vessel's crew of 4 men. Expense of service, 13*l.*

Sept. 29 and 30.—Several fishing-boats, belonging to Buckie, N.B., were overtaken by a heavy gale of wind, a little before nightfall on the 29th Sept. They were seen from the shore making for Craigenrow Bay, ten miles east of Buckie, where they took shelter, though they could not land on account of the heavy sea on the shore. There being a number of women and children on board, an effort was made to land them in a small boat, as, apart from their very perilous position, with an increasing gale and night fast approaching, the weakest of them could not be expected to survive many hours more of exposure to such weather. Only three persons were landed, when the experiment was found to be too dangerous to be repeated, and a message was despatched for the Buckie life-boat, and in about ten minutes after the arrival of the messenger she was under way to the scene of action, the boat and carriage being dragged by two horses and a hundred willing hands at a rapid pace. The darkness was increased by the torrents of rain that fell, and this, along with the immense breakers that thundered on the beach, made the launching both dangerous and difficult. At length, by united and resolute efforts, this was effected. Another moment, and the darkness enveloped the boat. An occasional gleam of her lantern discovered her movements, until after half an hour's anxious waiting on the part of the multitude on shore, the brave boat was again seen to emerge from the breakers, bearing 20 rescued lives, most of whom were women and children. As soon as these were safely landed, she returned for the rest, bringing back about 15; but part of the crews persisted in remaining in the boats, with the view, if possible, of saving them from drifting to the lee-shore. In the morning, however, it was discovered that one of the boats (in which there were no men) had drifted and gone to pieces; and the storm having

rather increased than abated, the men who chose to brave the storm in the boats all the night were seen to hoist signals for rescue. The life-boat was then manned a second time, and the remaining 10 men, making in all 45, were safely landed. The boat behaved splendidly, and the crew were everything that could be desired. Expenses of services, 22*l.*

Oct. 1.—Voted 78*l.* 17*s.* 6*d.* to pay the expenses of the life-boats stationed at Eastbourne, Wexford, Hornsea, Withernsea, Caister, and Winchelsea, for going off in reply to signals of distress from vessels, which afterwards fortunately got out of danger.

Reported the services of the Newbiggin life-boat in going off and bringing safely into harbour a fishing-boat, and her crew of 4 men, belonging to that place, which was in distress during stormy weather, on the 19th Sept.

Oct. 24.—The barque *Betty and Louise*, of Hamburg, was stranded, during a strong gale, on the Cruivie Bank, near Buddon Ness. The Broughty Ferry life-boat was quickly launched, and succeeded, after some difficulty, in saving the vessel's crew of 9 men.—Expense of service, 17*l.* 5*s.*

Oct. 25.—The brigantine *Francis*, of Shields, was totally wrecked, and afterwards sunk, near the Galloper Sands, on the Norfolk coast, during a strong W.N.W. wind and heavy sea. The Yarmouth large life-boat was the means of bringing safely ashore the vessel's crew of 4 men.—Expense of service, 25*l.*

Oct. 30.—The schooner *Theodorus*, of Liverpool, was stranded on the north-west end of the Salt-house Bank, during a gale from the W.N.W. The Blackpool life-boat put out, and took off 12 of the crew, afterwards landing them in safety. The life-boat stationed at Lytham also went off, and rescued three men from the same vessel. Subsequently the last-named boat went off again, and, with the aid of a steam-tug, succeeded in bringing the *Theodorus* safely into harbour.—Expenses of service, 16*l.* 10*s.*

Nov. 5.—Reported the services of the Anstruther life-boat in going off, on the 19th September, during a strong E.N.E. wind, and in a heavy sea, and assisting to bring into harbour the fishing-boat *Active*, of Cellardyke, and her crew of 4 men.

Also the services of the Stromness life-boat in putting off, on the 6th October, during stormy weather, and assisting to bring the schooner *Victor*, of Grimsby, and her crew of 5 men, safely into harbour. The vessel had been riding at anchor in a dangerous position in Hoy Sound.

Also the services of the Silloth life-boat in going off, on the 10th October, during a fresh breeze from the S.W., and saving a man, who was found on a raft formed of two ballast boards and a gaff. The man had belonged to the smack *Rover*, of Annan, which had sunk about three miles off Silloth, and he had floated about a mile before the life-boat picked him up.

Also the services of the Caister life-boat in putting off, during a strong wind and hazy weather, on the 23rd October, to the assistance of the S.S. *Ganges*, of Hull, stranded on the Hasborough Sands. The boat remained by the vessel four nights, until she floated off the sand, and was towed into Yarmouth Roads by some steam-tugs, accompanied by the life-boat.

Also the services of the Padstow life-boat in going off, on the 24th October, and assisting to save the steamer *Augusta*, of Bristol, which had stranded on the Doom Bar Sands during a gale of wind.

A man named WILLIAM HARRIS, of Padstow, saved another from drowning. The two men had been knocked into the sea on the occasion of the stranding of the steamer *Augusta*. HARRIS, although much injured himself, swam to

the other man, who was insensible, and succeeded in holding him up until assistance came.—Reward, 2*l*.

Reported the services of the Portadown life-boat in putting off, on the 29th October, and assisting to bring the flat *William*, of Carnarvon, and her crew of 2 men safely into harbour.—Expense of service, 7*l*. 10*s*.

Voted 126*l*. 4*s*. 6*d*. to pay the expenses of the life-boats stationed at Ilfracombe, Kingstown, Rye, Isle of Furbeck, Port Logan, Peterhead, Dungeness, Tynemouth, Whitehaven, Hasborough, St. Andrew's, and Girvan, in going off, during stormy weather, to the assistance of vessels in distress.

Also the Silver Medal of the Institution to the Right Hon. LORD VISCOUNT BURY, M.P., P.C., and to CHARLES PRIDE, a Coastguard man, and 1*l*. in addition to the latter, in acknowledgment of their gallant conduct in going off in an open boat, on the 6th of October, and saving, at the risk of their lives, one man from the fishing-boat *Alarm*, capsized on Christchurch Bar.

Also the Silver Medal of the Society of EDMUND GRAY, Esq., son of Sir JOHN GRAY, M.P., M.D., and to JOHN FREENEY, coachman, in addition to 2*l*. to the latter, for swimming out in a heavy sea, on the 25th September, and bringing a line on shore, and by other means assisting to save 5 men from the schooner *Blue Vein*, of Portmadoc, which, during a strong E.S.E. gale, had stranded opposite Ballybrack Railway Station. A pecuniary reward was also granted to some persons who assisted on the occasion. The vessel struck on the rocks about 200 yards from shore. A line was attached by the crew to a spar and let down from the vessel, in the hope that it would be brought to shore by the waves; but the spar advanced only about one-third of the way between the ship and the land, and the line, consequently, did not come in. A fisherman tried to swim out to the spar, but did not advance more than a few yards, having been immediately driven back by the waves. Mr. EDMUND GRAY, who is an expert swimmer, then undressed and attempted to swim out, having a line attached to his waist; but when he got out about 60 or 70 yards he was driven back. He tried a second time; but though he succeeded in getting out farther than at first, he was again driven back. The crew on board then attached a cable to the ship's boat, and having launched the boat, it was driven in on the beach, where the rope was secured. Two of the 5 men on board reached the shore by this means. When the third man was passing from the ship to the shore the rope broke about midway, and he was carried along parallel to the shore by the tide, and rescued by FREENEY, who swam out with a line and dragged him in. The ship still lay among the rocks, and as she thumped heavily, seemed in imminent danger of going to pieces. The captain and the other man, who were still on board, having hauled up the cable, which was broken, attached a spar to it, and cast it off, but from some cause the spar made very little way in its progress towards the shore, after it advanced about thirty yards from the ship, possibly owing to its not offering sufficient surface for the wind to overcome the friction of the rope in the water. Mr. GRAY, seeing this, again undressed, and having attached a line round his waist, one end of which was held by some men on the beach, swam out about eighty yards, and grasping the spar, turned towards the shore, but having soon after become exhausted, he was hauled in, bringing with him the end of the rope. For about the last twenty yards he was drawn to shore quite powerless, lying on his back, and was almost insensible when he reached the land; but speedily recovered his self-possession. By means of this rope the captain and the other man were enabled to reach the shore in safety.

Nov. 5.—Voted the Silver Medal of the Institution, and 1*l*. each, to Mr. SYLVESTER MORRISON, second-class Chief Officer of Coastguard at Sennen Cove, Land's End, and to Mr. MATTHEW NICHOLAS, the Coxswain of the life-boat; and 14*l*. 7*s*. 6*d*. to pay expenses in putting off, on the 23rd October, during a gale, and in a heavy sea, and rescuing, with the aid of a rocket which was fired from the life-boat by Mr. MORRISON over the Brissons Rocks, one man of the Government lighter *Devon*, which had become a total wreck on the Rocks on the previous night. The rescued man, who bears the same name, GEORGE DAVIS, as the husband of the lady who presented the life-boat to the Institution, was observed on the rocks at the dawn of the day, and the service performed in his rescue was in every way a creditable one.

Nov. 10.—The brig *Rochdale*, of London, was totally wrecked, and afterwards sank, off Hasborough, during squally weather. The life-boat stationed at Mundesley went off, and rescued the crew of 7 men from the ship's boat, to which they had taken on the brig sinking.—Expense of service, 13*l*. 12*s*.

Nov. 11.—The fishing smack *Emperor*, of Grimsby, was stranded, during squally weather, near Grainthorpe Haven. The Donna Nook life-boat was quickly launched, and remained alongside the vessel some hours until the tide fell, leaving the smack firmly settled in the sand.—Expense of service, 11*l*.

Nov. 21.—The smack *Mary*, of Hull, was stranded, during hazy weather, about a mile and a quarter south of Withernsea. The crew of 5 men of the distressed vessel were very anxious for the aid of the life-boat, as they felt they were in imminent danger, for, in attempting to launch their own boat, with their clothes on board, it was immediately swamped. Fortunately the life-boat was instrumental in saving the shipwrecked crew.—Expense of service, 16*l*. 17*s*.

Nov. 21.—The brig *Robert and Sarah*, of Blyth, struck on the rocks, at Cullercoats, during a strong south-east wind and heavy sea. The life-boat at Cullercoats was quickly launched, and saved the vessel's crew of 8 men.—Expense of service, 14*l*.

Nov. 22.—The schooner *Mary Jane*, of Padstow, was stranded, during a strong wind and heavy sea, near Clay Castle, on the Irish coast. The vessel had only started from Youghal that morning, but in consequence of stress of weather she had to be anchored. Her anchors, however, dragged, and the schooner soon after went aground. The Youghal life-boat put off, and rescued the vessel's crew of 3 men, landing them in safety.—Expense of service, 12*l*. 19*s*. 6*d*.

Nov. 23.—The whaleboat *Friends*, of Ballycotton, was capsized, during a north-west wind and in a heavy sea, between Ballycotton Small Island and the mainland, on the Irish coast. An open boat, manned by 4 men, went off, and saved, after great difficulty, the crew of the whaleboat, consisting of 6 men.—Reward, 2*l*. 10*s*.

Nov. 23.—Early in the morning, while it was blowing a moderate gale from S.S.E., the Austrian barque *Mea* was observed at anchor, in a dangerous position, in Tramore Bay, on the Irish coast, with a steam-tug near her. The Tramore life-boat was launched, with the view of taking a line from the tug to the vessel; but on arriving near the barque it was found that the tug was already made fast to her, and as the boat's services were not then required, she returned to the shore. About 12.45 p.m., the *Mea* was again seen to enter the Bay, the tug having been obliged to leave her, owing to the severity of the gale; and as the vessel appeared to be drifting on shore, the life-boat was again launched, but in consequence of

heavy sea, and the furious storm then raging, it was found impossible to reach the vessel. At ten o'clock the life-boat was again drawn to the beach, and after repeated efforts, she was eventually launched, and succeeded in rescuing the whole of the vessel's crew, 17 in number, and in bringing them safely ashore. The vessel soon afterwards became a total wreck.—Expense of service, 41l. 0s. 6d.

Nov. 30.—The schooner *William Henry*, of Belfast, was totally wrecked on St. Mary's Isle, near Kirkcudbright, during a gale of wind from S.S.E. The Kirkcudbright life-boat went off, and succeeded in saving the schooner's crew of 5 men.—Expense of service, 6l. 13s.

Nov. 30.—The barque *Annie Scott*, of Arbroath, was stranded during a strong wind and hazy weather, on the Cross Sand, off the Norfolk coast. The Caister life-boat went off and succeeded in saving the vessel's crew of 9 men. They had taken to the ship's boat and were driving rapidly away to the northward, when they were overtaken by the life-boat. The vessel was subsequently towed by a steam-tug into Yarmouth Roads.—Expense of service, 25l. The same life-boat also went to the assistance of the barque *Honfleur*, of Sandiford, Norway, which had likewise stranded on the Cross Sand, and succeeded in taking that vessel and her crew of 13 men to a safe anchorage off Winterton.

Dec. 3.—Voted 77l. 11s. 6d. to pay the expense of the following life-boats in going off to various vessels in distress, but which subsequently got out of danger and did not require the services of the boats:—Sunderland, Kirkcudbright, Porthcawl, North Deal, Sutton, Yarmouth, Tynemouth, and Howth.

Reported the services rendered by the St. Andrew's life-boat, in going off on the afternoon of the 29th November, during a strong wind, and bringing the smack *Canton*, of Scarborough, to a comparatively safe anchorage outside St. Andrew's Harbour, about 10 p.m. The life-boat then left the vessel, with the understanding that if the men on board should require any further assistance, they were to hoist a light. About 11 p.m. this signal was shown, when the life-boat again went off with a pilot; the vessel's cable was soon slipped, and she and her crew of 4 men were forthwith brought safely into harbour.

Also that the Wexford life-boat had put off on the 25th November, during a gale of wind, and, with the assistance of a steam-tug, had brought the capsized barque *Mauda*, of Liverpool, into the south Bay.

Also that the New Brighton life-boat went off on the 3rd November, in reply to signals of distress during cloudy weather, and had remained for some time alongside the ship *Grand Bonny*, of Liverpool, which, during a strong gale, had gone ashore abreast of Waterloo Coastguard Station.

Also that the Cullercoats life-boat had put off on two occasions and piloted safely into harbour several fishing-boats, which had been overtaken by sudden gusts of wind whilst out fishing. The presence of the life-boat on the Bar, ready for any emergency, gave the crews of the fishing-boats confidence.

10l. were voted to Mr. NOCKALL, of Great Yarmouth, for the hire of his horses for the use of the life-boat at that place, on the occasion of the wreck of the barque *Chowdean*, of Sunderland, on the 17th January, 1867.

Dec. 3.—During a strong gale of wind from S.S.E. and in very thick weather the steam-tug *Flying Mist* brought information from Carrisdale, thirteen miles N.E. of Campbeltown, N.B., that the barque *William Gillies*, of Greenock, was lying off that shore dragging her anchors and likely to

go on the rocks, that the crew could not land in the heavy sea then running, and that they were in danger of losing their lives. The Campbeltown life-boat was immediately manned and launched, and proceeding to the spot in tow of the tug, took off the vessel's crew of 15 men and placed them on board the steamer. The life-boat was then again taken in tow and all returned safely to Campbeltown. The vessel was in a very dangerous position on a lee shore when the life-boat arrived alongside.—Expense of service, 6l. 12s.

Dec. 4.—During a heavy gale of wind from the S.W., intelligence was received at Castletown, Isle of Man, that the schooner *Vision*, of Drogheda, had struck on a reef of rocks near Strand Hall, about two and a half miles from Castletown. The life-boat's crew were quickly mustered, and within fifteen minutes of the information being received, she was on her carriage being transported along the beach to the scene of the wreck. In thirty minutes from the time of starting the life-boat was launched through the raging surf in the most gallant style, and, amidst the cheers of hundreds of spectators, soon reached the wreck, from which she took off the crew of 5 hands. The life-boat then proceeded to Port St. Mary, where she safely landed the shipwrecked men.—Expense of service, 9l. 8s.

Dec. 4.—The ship *Castilian*, of London, from Quebec to Liverpool, laden with timber, took the ground on the south side of Portmadoc Bar, about midnight. The wind was blowing hard from the S.W., and a very heavy sea was running. Early on the morning of the 5th Dec. her position was seen from the shore, and the life-boat stationed at Criccieth was immediately launched and proceeded, in tow of a steam-tug, to the wreck. There was a heavy surf near the vessel, and with great difficulty 18 men were rescued by the life-boat and placed on board the steamer. Three of the vessel's crew had, unfortunately, perished in attempting to reach the land in one of the ship's boats.—Expense of service, 6l. 8s.

Dec. 10.—During a fresh gale of wind from S.S.E. and heavy cross-sea, the schooner *Atlanta*, of Kirkwall, in the Orkney Islands, after striking on the Barber Sands, on the Norfolk coast, went ashore on Hasborough outer bank. The life-boat stationed at Hasborough at once went off and succeeded in rescuing the master and 3 of the vessel's crew. The following morning the vessel was got off the bank, but owing to a sudden change of wind, she was again driven ashore, and the same life-boat went off and brought ashore the remainder of the crew, consisting of 3 men, and also 4 beachmen, who had assisted in getting her off the bank.—Expense of services, 20l. 12s.

Dec. 10.—During a heavy gale from S.S.W. the brigantine *Ivo*, of West Hartlepool, was observed making for the shore in an apparently sinking state. It subsequently appeared that she had been in collision with the lugger *Ranger*, of Yarmouth. The Yarmouth surf life-boat went out and took off 17 men from the vessel, which included the crew of the lugger, they having gone on board the brigantine. The latter subsequently went ashore opposite the North Star Battery, and became a total wreck. The Yarmouth large life-boat was also promptly launched, proceeded to the assistance of the two vessels, and ultimately, after some hours' exertions, brought the lugger safely into Yarmouth harbour.—Expense of service of surf life-boat, 14l.

Dec. 11.—During a heavy gale of wind the brigantine *Jane*, of Workington, and the schooner *Prudence*, of Aberystwith, drove ashore near the North Pier at Ramsey, Isle of Man. The Ramsey life-boat put off through a heavy sea and succeeded in rescuing both crews, consisting of 8

men. The life-boat went off again in the afternoon, in reply to signals of distress from another vessel, but the crew succeeded in saving themselves in their own boat.—Expense of services, 8*l.* 0*s.*

Dec. 14.—During a strong wind from S.S.W., and heavy rain, signal guns were heard from the light-ship in the Prince's Channel. The life-boat stationed at Margate was launched, and proceeded across the Margate and Tongue Sands, and up the Channel, and discovered the sloop *La Jeune Fanny*, of St. Malo, on the Girdler Sands, in a heavy sea. After some difficulty, the life-boat got alongside and boarded the vessel. Press of canvas was then put on, and the sloop was forced over the bank, the tide rising at the time, and brought safely into Margate. From the position in which the ship lay, she must soon have been broken up and the crew of 5 men drowned, had not the life-boat gone to her aid. She was constantly under water, the sea repeatedly making a complete breach over her and the life-boat, and the service of the latter was attended with much danger.

Dec. 14.—During a gale from the S.W., a vessel was seen in distress off Looe Island, Cornwall. The life-boat stationed there was quickly launched through a heavy surf to her assistance, and succeeded in bringing her and her crew of 6 men safely into harbour. The vessel was the schooner *Mail*, of Alloa, from Rouen to Glasgow, with a cargo of grain. She had left Plymouth the previous day, and on making the Lizard, encountered a tremendous gale and shipped several heavy seas, which shifted the cargo. The master, who was a stranger to the coast, then tried to run to the land, and would have beached his ship, if possible, had he not fortunately rounded Looe Island, and come in where he did. The prompt assistance of the life-boat, it was stated, had saved the vessel from almost certain destruction, and probably the lives of the crew also.

Dec. 15.—During a heavy S.S.E. gale, two French vessels, mistaking the harbour of Poole for that of Portsmouth, struck on the sands at East Looe and West Looe respectively. The life-boat stationed at Poole was soon launched and on her way to the wrecks. The first proved to be the lugger *Augustine*, of Port L'Abbe; and the life-boat brought her and her crew of 4 men safely into harbour. The life-boat also went to the assistance of the second vessel, the *La Jeune Erneste*, of Bordeaux, but found her abandoned and full of water.—Expense of service, 24*l.* 4*s.*

Dec. 22.—During a strong W.N.W. wind, large signal lights were seen early in the morning, in the direction of the West Scroby Sand. The Caister large life-boat went out, but after searching about for some time, could not discover any vessel in distress, and therefore returned to the shore. Some hours afterwards, a small ship's boat was seen in the wold drifting to the northward. The life-boat again put off, and overtook her off Winterton and rescued 4 men, who gladly availed themselves of the life-boat, it being impossible for them to land in their own boat. They belonged to the schooner *Pioneer*, of Exeter. During the previous night a steamer had been in collision with their vessel, which had sunk in about fifteen minutes. One of the schooner's crew got on board the steamer, and the others took to their own boat.—Expense of service, 25*l.*

Dec. 21.—During a sudden gale of wind from the S.E., a fishing coble was seen making for the shore at Holy Island, Northumberland. On reaching the bar the sea ran very heavy, and the other fishermen, seeing the imminent danger their comrades were in, immediately launched the Holy Island life-boat, and with its assistance the coble

and her crew of 2 men were brought safely into harbour. No charge was made for this service.

Dec. 24.—During a strong wind from S.S.W. signals of distress were observed from the brig *Fuchsia*, of Whitby. The Aldborough life-boat was quickly launched and proceeded to her assistance. She had run into and dismasted the schooner *Diamond*, of Goole, near the Shipwash Sand, 3 of the crew of which latter vessel boarded her, and finding her in a sinking state, ran her on a shoal. The life-boat soon arrived and took off the 3 men, landing them in safety. One poor fellow was drowned whilst endeavouring to get from the schooner to the brig, which vessel had been previously abandoned by her own crew, of whom no tidings could be obtained.—Expense of service, 9*l.* 4*s.*

Dec. 25.—The smack *Castle*, of Aberystwith, was totally wrecked during stormy weather, at the mouth of Aberystwith Bar. The life-boat stationed there went off and placed 6 men on board to assist in saving the vessel if possible, but all attempts proved unsuccessful, and the life-boat afterwards went out again, and after three attempts, succeeded in taking off 9 men and bringing them ashore in safety. The life-boat's crew experienced great difficulty and danger in taking the men off, owing to the force of the heavy seas, and several of the oars were broken. The life-boat was reported to have behaved exceedingly well on the occasion. Expense of service, 23*l.* 6*s.* 6*d.*

Dec. 28.—At about 1 p.m., JOSEPH COX, the coxswain of the *Hope* life-boat stationed at Appledore, was informed by the coastguard that two vessels were embayed, and would probably go on shore. He instantly assembled his crew, obtained horses, and dragged out the life-boat on her carriage, ready for action. The vessel most in danger was the Austrian barque *Pace*; and, as she tried to work out of the bay, the life-boat and her crew kept along the shore directly under her lee, moving along with her. At length she grounded. The life-boat was launched without delay over the Pebble Ridge, and dashed into a most terrific surf. The crew behaved most nobly; the boat at times was as upright as a ladder against a wall, and seas swept through her from stem to stern; but they stuck to it, reached the barque, after anchoring ahead with the drogue, and managed to make fast to her. The crew were all assembled under shelter of the cuddy, and not one would give a stern rope to the boat, or move from his position, excepting one boy, who ran to the side and dropped into the boat all safe. More than five minutes elapsed without a soul stirring on board; at length eight of them made a rush together for the life-boat, jumped helter-skelter over the side, missed the boat and fell into the water, but were all picked up but one. A tremendous sea now struck the boat and drove her under the counter, where the rudder was carried away, and old Cox all but killed, as he was jammed up against the counter, but his life-belt saved him, it being broken however by the collision. In vain did the life-boat crew appeal to the remainder of the men on board the barque to come to the boat, they would not stir; so the life-boat, seriously damaged and with the loss of her rudder, was obliged to return to the shore, where she landed safely her crew and 9 of the *Pace's* men. Old Cox, notwithstanding the severe nip he had received, and the damaged state of the boat, called for another crew of volunteers, and once more manned the *Hope*, he and his son and one other of the old crew going in her, and, to prove the readiness of the brave volunteers of North Devon, the boat was launched with one man too many on board. On this second trip

young Cox steered with an oar in place of the rudder, the stern of the boat having been damaged. In this state they had nearly again reached the ship when a wave broke over the bow, swept over the crew, and carried young Cox (who was standing up steering with the oar) right over the stern. The loss of the steering-oar made the boat broach to, and the next wave found her broadside on, and rolled her over, throwing all the crew into the surf. As she righted, the younger Cox managed to get into her again, and one by one the brave fellows all got on board, excepting old Cox. He had drifted some distance, and they had only three oars left, with these, however, they managed to turn the boat's head round, and at last the brave old coxswain was enabled to clutch the blade of an oar, when all but done for, and was got into the boat. The life-boat again reached the shore, and was dragged up on the Pebble Ridge. For the third time volunteers came forward to man the life-boat; but a difficulty now arose. Besides the rudderless state of the *Hope*, unfitting her for service, the oars (save three) were all lost. Instantly a lot of horsemen galloped off, with Mr. Yeo at their head, for spare oars, and in due time each horseman returned bearing an oar. And now preparations were made to launch again the disabled boat; but it was discovered that the tide had turned, and had already dropped two feet; the danger was rapidly passing away; the remainder of the crew of the barque had climbed up to the mizen-top, and moreover the third crew was not composed entirely of sailors. Those on the spot (including Mr. Yeo) most wisely interfered, and would not allow the boat to be launched. The crew of the Braunton life-boat, which also belongs to the Life-boat Society, not having been able, after a most determined and gallant attempt, to get their boat to the wreck, now came over-land, and were clamorous to launch the Appledore boat, so that there were four distinct crews of volunteers—two of which went off, and the third and fourth were forcibly and wisely stopped. Eventually 3 men, one of whom was the captain, were brought ashore by men who waded out to the barque as the tide fell. Three others perished, in addition to one man who was lost in getting into the life-boat. Thirteen in all were saved. All might have got into the boat and been saved when she first went alongside, and all in the rigging might have been saved had the men lashed themselves there. It appears that the Austrian captain would not allow his crew to go into the life-boat when she got alongside, nor suffer them to throw a rope to her. If the bold and self-devoted conduct of the North Devon volunteers failed to achieve complete success in dealing with this wreck, it is a satisfaction to know that they did what they could, and did it nobly. Ordinary life-boat service is one of no light peril; service in a disabled boat is still more hazardous.

Voted the Second and Third Service Clasp and 5*l.* to Coxswain JOSEPH COX; the Silver Medal and 4*l.* to JOSEPH COX, jun.; the Silver Medal and 3*l.* to J. KELLY; and 1*l.* 10*s.* each service payment to the crew.

Also decided to give 20*l.* in aid of the public subscription for the widow of DAVID JOHNS, a Coastguard-man, who lost his life while nobly attempting to save the crew of one of the vessels wrecked off Bideford.

Dec. 28.—The brig *Flying Cloud*, of Bideford, was run into by another vessel during a gale of wind from S.S.W. off Plymouth, and afterwards became a total wreck on Batten Reef. The Plymouth life-boat was quickly launched, and succeeded in rescuing 10 men from the brig.—Expense of service, 7*l.* 12*s.*

Dec. 28.—The brigantine *Hitena*, of St. John's, Newfoundland, was observed off Worthing with signals in her rigging for assistance. A gale from the S.W. was then blowing, and there was a very heavy sea on. The Worthing life-boat was soon manned and launched, and some of the crew having boarded the vessel, she and her crew of 6 men were subsequently taken into the port of Shoreham.

Dec. 28.—Soon after dark, signal-lights and rockets were seen in the direction of the West Scroby Sand, by the beachmen at Caister, on the Norfolk coast. The large life-boat stationed there was at once launched, and proceeding to the sands, found the brig *Bilboa*, of Seaham, striking very heavily in a most dangerous way, so that if the wind and weather had continued bad, she must soon have gone to pieces. The sea was terrible, and the vessel could not be approached very closely. The crew, however, 6 in number, were fortunately saved by means of ropes from the life-boat. After rescuing the men, and while the boat was on its way to the shore, signals were seen from a vessel on the South Scroby Sands, and the life-boat proceeded in that direction. A Gorleston boat, however, was seen approaching the wreck, and the Caister life-boat, therefore, returned to the station.—Expense of service, 25*l.*

Dec. 31.—Voted 155*l.* 0*s.* 6*d.* to pay the expenses of the life-boats of the Institution stationed at Drogheda, Hauxley, Campbeltown, Aldborough, Caister, Southport, Castletown, Pakefield, Plymouth, Margate, Kingsgate, Falmouth, Thorpe-ness, and West Wittering, for various services during the heavy storms of December.

Also the Silver Medal of the Institution, and its Vote inscribed on vellum, to Capt. CAY, R.N., and Mr. W. BLACKMORE; the Second Service Clasp to Mr. HIGGS, jun.; the Thanks of the Institution, inscribed on Vellum, and a copy of the Holy Bible, illustrated by Doré, to N. B. DOWNING, Esq., Banker, the Hon. Secretary of the Penzance Branch; the Thanks of the Institution, on Vellum, to Mr. G. DESREUX and Mr. JEFFERY; the Second Service Clasp and 5*l.* to Coxswain T. CARBIS; the Silver Medal and 2*l.* to Second Coxswain HIGGINS; also 5*l.* each to A. PASCOE, and 2*l.* each to the rest of the crew of the life-boat; and the Thanks of the Institution to Capt. HOLBROOK, in admiration of their gallant and persevering services in assisting to rescue the crew of the barque *North Britain*, of Southampton.

Mr. DOWNING reported this shipwreck as one of the most distressing that has ever occurred in Mount's Bay, Cornwall. About two o'clock in the afternoon of the 6th Dec. information was received that a large vessel was in a very perilous position in the bay, and the life-boat at Penzance was at once got in readiness in case her services should be required. Shortly afterwards a large barque was seen through the mist to drive ashore between St. Michael's Mount and the Long Rock. In five minutes the life-boat was on her way to the spot, which was reached in about ten minutes after the vessel struck. Unfortunately, they were too late, though, to prevent 11 of the crew from leaving the vessel in the long boat, which upset when about half-way to the shore, and 7 of them were drowned, the remaining 4 being rescued with the greatest possible difficulty, and in a very exhausted state. The life-boat was promptly launched to windward of the stranded ship through a tremendous ground-sea. After a pull of more than an hour she reached the vessel, but as she was pulling under the stern, a great sea struck the boat, capsizing her and throwing all on board into the sea. The brave coxswain, THOMAS CARBIS, was jammed under the boat by some

wreck, and very nearly lost his life, having to dive three or four times before he could extricate himself. When dragged on board he was apparently dead, and in this state was brought on shore. Another man, who had pulled the stroke oar, was lost altogether from the boat, and the crew were all so exhausted that they could not pull up to his rescue. Supported, however, by his cork life-belt, he floated to the shore, when a brave man, named DESREAU, swam his horse out through the surf and saved the poor fellow. Capt. CAY, R.N., who expressed an earnest wish to go off on this occasion, was also on board, and, with the others, suffered severely. It is due to him to say that his coolness and judgment, as well as his exertions, greatly conduced to the bringing of the boat, with her exhausted crew safely to shore. The second coxswain (HIGGINS) also behaved like a hero, and though scarce able to stand, managed the boat, when CARBIS was disabled, with consummate skill. When the life-boat reached the shore, volunteers were at once asked for, and HIGGINS, the second coxswain, was one of the first to tender his services again. It was, however, thought advisable to secure a fresh crew, and in a short time this was effected, Mr. BLACKMORE, the chief officer of the Coastguard, acting as the coxswain, and Mr. S. HIGGS, jun., the French Vice-Consul, also volunteering as one of the crew. The struggle which now followed can hardly be described in anything like adequate terms. The boat had to be pulled to windward in the teeth of a tremendous wind and sea. Sometimes she would rise almost perpendicularly to the waves, and those on shore looked on with bated breath, fearing she must go over, and then again she would gain a yard or two. The way was disputed inch by inch, and at

last the victory was won, and the remaining 8 men on the wreck were rescued by the life-boat; but no one who beheld the struggle will ever forget the manner in which the boat was managed. One of the brave life-boat men, while aiding, unfortunately had three of his ribs broken. In ten minutes after the rescue was accomplished, the masts went, and in half an hour the vessel was broken to fragments, which were strewn along the shore. She was the barque *North Britain*, of Southampton, bound from Quebec with a cargo of timber. The rocket apparatus was quickly on the spot, and was most efficiently worked; and although the ship was too far off for it to render any help in this manner, it helped materially to save the 4 men upset in the boat. A line was fired over them, which enabled those on the beach to form a line, and then do that which without it they could not have dared to attempt. The value of the self-righting property in the life-boats of the Institution was strikingly illustrated in this case. In its absence some at least of the crew of the Penzance life-boat would undoubtedly have perished, but owing fortunately to this important provision, and to the life-belts which the men wore, not a man of the boat's crew was lost.

[Mr. DOWNING, who had purposely come up from Penzance to attend the Annual Meeting of the Institution, at the London Tavern on the 9th March, gave, from his own experience, a most interesting and vivid account of this life-boat service, as well as of that of saving the crew of 13 men of the ship *John Gray*, of Glasgow, on the 7th Jan., 1867, when the life-boat on both occasions was launched through fearful seas, under the superintendence of himself, Capt. HOLBROOK, and other Members of the Local Committee.]

THE MEDAL
 OF THE
ROYAL NATIONAL LIFE-BOAT INSTITUTION,
 FOR THE
PRESERVATION OF LIFE FROM SHIPWRECK.

Obverse.—Bust of Her Majesty Queen Victoria; beneath, in minute letters, “L. C. Wyon.”
 Double legend, “Royal National Life-boat Institution. Founded in 1824.
 Incorporated 1860. Victoria, Patroness.”

Reverse.—Three sailors in a Life-boat,—one of whom is in the act of rescuing an exhausted mariner from the waves on a fragment of the wreck. “W. Wyon, Mint.”
 Inscription, “Let not the deep swallow me up.”

THE beautiful obverse of this medal, which has recently been executed by L. C. WYON, Esq., represents the bust of QUEEN VICTORIA, Her Majesty's locks gracefully waving and gathered in a knot behind, from which issues a wreath of oak clustering over the forehead. This life-like portrait of the QUEEN, in high relief, conveys a truly pleasing and faithful likeness of Her MAJESTY, combining dignity of aspect and benevolence of nature; and represented by Mr. WYON with the most exquisite finish, delicacy, and beauty of workmanship.

The reverse, representing the Life-boat, in which there are three Sailors, rescuing a fourth from the sea, is a work of superlative merit. Two of the Sailors are steadying the boat, while the other, stooping, draws in the Shipwrecked Sailor, whose figure is given so as to show the form in the most natural and beautiful manner; and the expression thrown into his countenance looking up to his preserver is unrivalled by anything that we have ever seen, while the easy flowing lines of this sailor are finely contrasted by those of his companions: the whole displaying the most perfect knowledge of the human frame, the finest taste to arrange it, and a command of the graver to embody to us what the artist's bright genius had shadowed out to himself.

But there is another pleasing motive for our admiration of this beautiful Medal, as the figure who is so humanely extending his relief to the drowning Mariner is a portrait of the Artist (the late WILLIAM WYON, Esq., R.A.) himself.

The following is a LIST of the GOLD and SILVER MEDALS that have been voted by the Committee of this Institution, since its establishment in 1824, to persons whose humane and intrepid exertions in saving Life from Shipwreck on our Coasts have been deemed sufficiently conspicuous to merit that honourable distinction. The Cases will be found recorded in detail in the several Annual Reports of the Institution.

Note.—The asterisk (*) after the name denotes the reception of a Gold Medal.

The figure after the name signifies the number of honorary distinctions received from the Institution.

Fig. 3.

Body Plan.

Fig. 4.

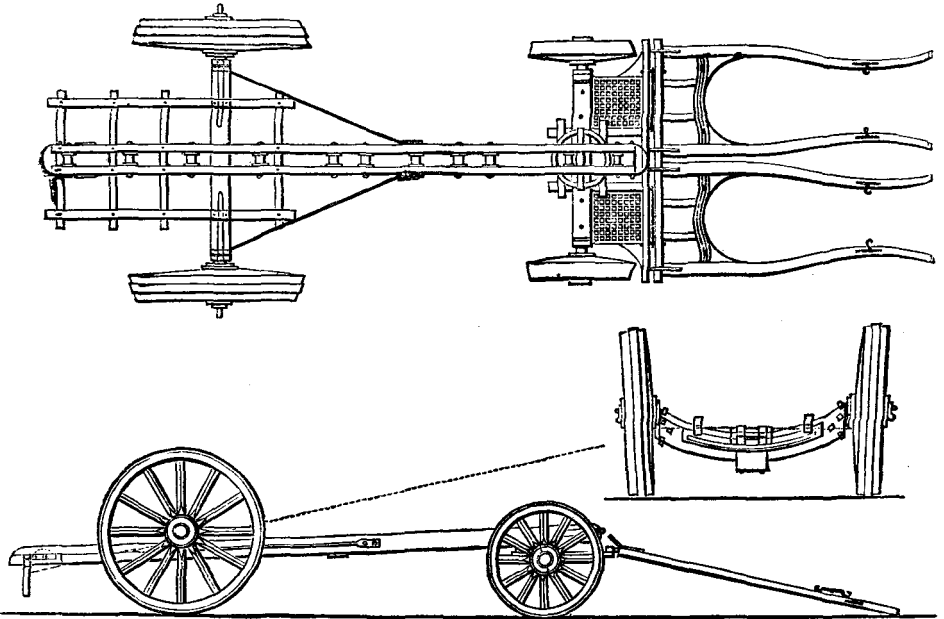

Midship Section.

The accompanying figures show the general form, the nature of the fittings, and air-chambers of one of these boats, 33 feet in length and 8 feet in breadth. In figs. 1 and 2, the elevation and deck plans, the general exterior form of the boat is shown with the sheer of gunwale, length of keel, and rake of stem and stern-posts. The dotted lines of fig. 1 show the position and dimensions of the air-chambers within board, the relieving-tubes, and ballast. In fig. 2, A represents the deck, B the relieving-tubes (6 inches in diameter), C the side air-cases, D the end air-chambers, E ballast, F scuttles to admit of a free current of air under the water-tight deck, G scuttle for air, and to receive pump. In fig. 3, the exterior form of transverse sections, at different distances from stem to stern, is shown. Fig. 4 represents a midship transverse section, A being sections of the side air-cases, B the relieving-tubes, of the same depth as the space between the deck and the boat's floor. C, C, C, are spaces beneath the deck, placed longitudinally, at the midship part of the boat, with cases packed with cork, forming a portion of the ballast; d scuttle for ventilation, having a pump fixed in it, by which any leakage beneath the deck can be pumped out by one of the crew whilst afloat. The festooned lines in fig. 1 represent exterior life-lines attached round the entire length of the boat, to which persons in the water may cling till they can be got into the boat; the two central lines are festooned lower than the others, to be used as stirrups, so that a person in the water, by stepping on them, may climb into the boat without assistance.

This life-boat possesses in the highest degree all the qualities which it is desirable that a life-boat should possess:—

1. Great lateral stability or resistance to upsetting.
2. Speed against a heavy sea.
3. Facility for launching and taking the shore.
4. Immediate self-discharge of any water breaking into her.
5. The important advantage of self-righting if upset.
6. Strength.
7. Stowage-room for a large number of passengers.

LIFE-BOAT TRANSPORTING-CARRIAGE.

LIFE-BOAT TRANSPORTING-CARRIAGE AS ADOPTED BY THE ROYAL NATIONAL LIFE-BOAT INSTITUTION.

THE carriage consists of a fore and main body. The latter is formed of a keelway and of side or bilgeways attached to the keelway, and resting on the main axle, the boat's weight being entirely on the rollers of the keelway. Its leading characteristic is that, on the withdrawal of a forelock pin, the fore and main bodies can be detached from each other. The advantages of this arrangement are, that whilst the weight of the boat when she is launched from the rear end forms an inclined plane by elevating the keelway, to replace her on the carriage she can be hauled bow foremost up the fore end or longer incline. The bilgeways are

needed at the rear end, that the boat may be launched in an upright position with her crew on board; but they are not required at the fore end of the carriage. The boat is hauled off the carriage and launched into the sea by ropes rove through sheeves at the rear end of the carriage, each having one end hooked to a self-detaching hook at the boat's stern, and the other manned by a few persons on the shore, who thus haul the boat and her crew off the carriage and launch them afloat at once, with their oars in their hands; by these means headway may be obtained before the breakers have time to beat the boat broadside on to the beach.

ROYAL NATIONAL LIFE-BOAT INSTITUTION.

THE LIFE-BOAT REGULATIONS.

THE following Regulations are intended for the guidance of the Local Committee to be formed at each place at which a life-boat is stationed by the NATIONAL LIFE-BOAT INSTITUTION, and to whose care and control the life-boat, her crew, and everything connected with her management and maintenance, will be intrusted.

The local committee to consist, if practicable, of not less than five persons usually resident, to be elected annually. The Inspecting-Commander of Coastguard of the division, or in his absence the nearest Coastguard officer to the spot, to be *ex officio* a member of the local committee.

1. The life-boat's crew to consist of a coxswain-superintendent, an assistant coxswain, a bowman, and as many boatmen in addition as the boat pulls oars.

2. For every boat, at least double the number of men required (if they can be found at or near the spot) should be invited to become members of her crew.

3. Such men to consist of sailors and fishermen who are usually resident, and (with permission of the Admiralty) of any Coastguard men of the station who may volunteer for the service.

4. The salary of the coxswain-superintendent shall be 8*l.*, and that of the assistant coxswain 2*l.* annually. On every occasion of going afloat to save life, the coxswains and each of the crew shall receive alike, 10*s.* by day and 1*l.* by night; and for every time of going afloat for exercise, 4*s.* In the absence of the coxswain, the assistant coxswain will take charge of the boat.*

5. In the event of money being received

* The coxswain is held responsible for every man who goes into the life-boat, on occasions of service and of quarterly exercise, without having on a life-belt.

by the life-boat for salvage of property, or similar service, a proportion equal to *two shares* shall be paid to the Institution to cover risk of damage to the boat, the remainder to be divided into equal shares amongst the coxswain and crew.

6. If local subscriptions or other payments be raised or made to reward any special act of gallantry or exertion, the Institution recommends that the whole of the money be paid to the crew, in equal shares.

7. As at each life-boat station there will be a local committee, the coxswain will act under their immediate directions, and the boat, except in case of wreck, or other disaster, is never to be taken afloat without their sanction.*

8. As the efficiency of a life-boat depends on the good training and discipline of her crew, the strictest attention must be paid by them to the directions of the coxswain on all occasions connected with the service. The boat shall be taken afloat for exercise, fully manned, once during each quarter, sometimes in *rough weather*, unless the boat has been out in that quarter, either on service or with one of the Inspectors.

9. The local committee at each station are requested to meet at the expiration of each quarter, and then to forward the usual Quarterly Report to the Institution, on the printed sheet provided for the purpose, as to the behaviour of the boat during exercise, &c., pointing out any defects that may require to be remedied, and offering any suggestions that may conduce to the efficiency of the service. Also generally to report on the state and condition of the boat, the carriage,

* It is desirable that each local committee should appoint one of their members, resident on the spot, to specially represent them, in conjunction with the honorary secretary, on such emergencies.

the boat-house, and all the life-boat gear. Should occasion for immediate repairs arise, the local committee are authorized to make them to the extent of 5*l.*: more extensive repairs to be referred, with an estimate, to the Parent Institution.

10. The boat is to be kept on her carriage in the boat-house, with all her gear in her ready for use, except matches, rockets, and perishable articles which may require to be secured from damp.

11. There should be three keys to the boat-house, kept in different places, with the *address of each painted on the door*; one in possession of the coxswain, and the others as the local committee may decide.

12. Immediately on intimation of a wreck, or of a vessel in distress, the coxswain is to use his utmost exertions to assemble his crew, launch his boat, and proceed to her assistance: and in the event of a sufficient number of his crew not being present, he is to select the best volunteers he can get to supply their places.

13. If a wreck occur at some distance from the station, so as to require the boat to be transported along the coast, the coxswain is to send to procure sufficient horses (which, by the Wreck and Salvage Act, any magistrate, constable, or revenue officer may demand the use of), attach them to the carriage, and lose no time in making the best of his way with the crew to the scene of wreck.

14. A reward of 7*s.* to be given to the man who first brings intelligence of a wreck at such a distance along the coast as not to be in sight from the Coastguard or other look-out.

15. A signal shall be agreed on by which the life-boat crew can be called together when required. A flag hoisted by day and the firing of a carronade (or other alarm signal) twice, quick, by night.

16. On approaching a wreck, the coxswain will use his judgment, according to the circumstances of the case, whether he will board the wreck end on, either on the bow, on the quarter, or on the broadside: or whether he will go to windward, drop his anchor, and veer down to the wreck; or if he will lay her alongside.

17. On boarding wrecks, the preservation of life is to be the coxswain's *sole consideration*, and he is on no account to take in goods or merchandize which might endanger the safety of his boat, and the lives of those intrusted to his charge. And should any be brought in, contrary to his remonstrance, he is fully authorized to throw them over-board.

18. No one besides the crew, namely, the coxswain, the assistant coxswain, the bowman, and one boatman for each oar, is on any account to be allowed to go out in the life-boat when going to a wreck, except with the express sanction of the local committee.

19. The life-boat is not to be used for taking off an anchor; nor for the purpose of salvage; nor for taking off stores, a pilot, or orders to a ship, *so as to interfere with private enterprise*, except in cases of emergency, but to be reserved for cases involving risk of life.

20. An entry is to be made, in the journal supplied for the purpose, of the particulars of all services performed by the life-boat in saving or attempting to save life, being a duplicate of the official reports of the same forwarded to the Institution, which journal will be retained at the station as a complete record of all the services which have been performed by the life-boat.

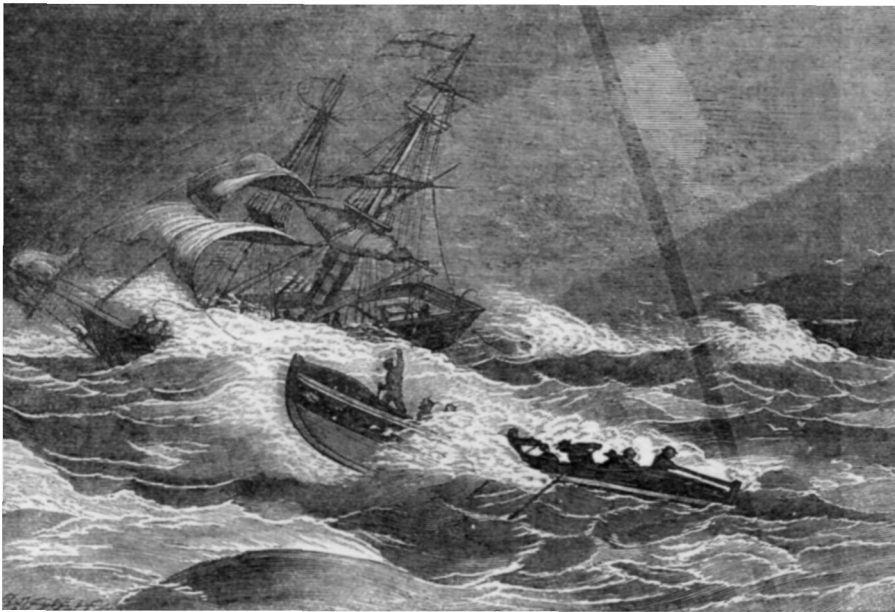

21. On returning from service, the boat is not to be left in the surf on the beach, but, as soon as possible, is to be got on her carriage, and placed in the boat-house.

22. The coxswain-superintendent will be held responsible for the efficiency and general good order of the boat-house, the boat, and her gear; and it is hoped that a sense of the trust confided to them in the cause of humanity will lead the coxswains and crew to be most careful on these points, and to distinguish themselves by their zeal and readiness, and by the seaman-like manner in which their boat is handled.

By order of the Committee,

RICHARD LEWIS,

Secretary.

The object of this Institution, as declared in its title, is to afford assistance to every wrecked person around the coasts of the United Kingdom.

The chief means by which the Society hopes to carry this object into effect are:—

To build, station, and maintain in repair, Life-boats of the most perfect description; to furnish them with all necessary Appurtenances, including Houses to preserve them in, and Carriages for their conveyance to the spots where their Services are called for; and further, to provide, through the instrumentality of Local Committees, for their proper Management, and the occasional Exercise of their Crews.

To confer Honorary Rewards in the form of Medals and Votes of Thanks, and also to grant Pecuniary Remuneration to all persons who, at the risk of their own lives, save, or attempt to save, those of others on board vessels wrecked, or in distress, upon any part of the coasts of the United Kingdom.

As an index of the necessity for the provision of such a machinery as the above, it may be stated—that the average loss of lives from shipwreck annually on the shores of the United Kingdom is 600.

Donations and Annual Subscriptions will be thankfully received by Messrs. WILLIS, PERCIVAL, and Co., 76 Lombard-street; Messrs. COUTTS and Co., 69 Strand; Messrs. HERRIES, FARQUHAR, and Co., 16 St. James's-street, London; by all the other London and Country Bankers; by the several Metropolitan Army and Navy Agents; and by the Secretary at the Office of the Institution, 14 JOHN STREET, ADELPHI, LONDON—W.C.

1st April, 1869.
