

THE LIFE-BOAT,

OR

JOURNAL OF THE NATIONAL LIFE-BOAT INSTITUTION.

(ISSUED QUARTERLY.)

VOL. VIII.—No. 80.]

MAY 1ST, 1871.

[PRICE 1s.

AT the ANNUAL GENERAL MEETING of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, held at the London Tavern on Tuesday, the 14th day of March, 1871, His Grace the DUKE of NORTHUMBERLAND, P.C., D.C.L., President of the Institution, in the Chair, the following Report of the Committee was read by the Secretary:—

ANNUAL REPORT.

ON this the forty-seventh anniversary of the establishment of the ROYAL NATIONAL LIFE-BOAT INSTITUTION, for the Preservation of Life from Shipwreck, its Committee of Management place before its supporters and the British Public their Annual Report.

In doing so they beg to return their warm thanks to all those who, by their donations and annual subscriptions, have enabled them successfully to prosecute the important national duty which they have undertaken, and they desire to express their gratitude for the Divine blessing which has rested on their labours.

It is true that, in reference to the funds, a considerable diminution has occurred in the contributions of the year. The Committee, however, feel sure that this fact need not be attributed to any falling off in the sympathy and interest of the public in the work of saving lives from shipwreck; it is rather to be accounted for by the urgent demand for aid to the numberless victims of the fearful struggle which, during the latter months of the year, was raging between two neighbouring nations on the continent of Europe.

The transactions of the Institution during the year may be thus summarized:

Life-boats.—Since the last Report fourteen new life-boats have been placed on the coast, and stationed at the following places:—

ENGLAND.

DURHAM	Seaham.
LINCOLNSHIRE	Chapel.
NORFOLK	Palling.
SUFFOLK	Gorleston.
	Pakefield.
	Kessingland.
	Thorpeness.
	Aldborough.
KENT	Kingsdowne.
DEVONSHIRE	Morte Bay.

SCOTLAND.

BANFFSHIRE	Buckie.
	Banff.
FORFAR	Buddonness.

IRELAND.

Co. LONDONDERRY	Greencastle.
---------------------------	--------------

New transporting-carriages and boat-houses have likewise been provided for several of the above boats.

The Institution has now two hundred and twenty-eight life-boats on the coasts of the United Kingdom and the Channel Islands. During the past year these boats

have rescued five hundred and thirteen persons from a watery grave, nearly all of whom have been saved under circumstances which would have precluded their rescue by any ordinary description of boat.

The Committee are thankful to say that although many of those services were of a most difficult and dangerous character, yet that they were performed without serious accident to any of the life-boats, and without the loss of a single man amongst those by whom the boats were worked.

Shipwrecks.—Although the shipwrecks during the past year were, on the whole, neither so numerous nor so distressing as usual, yet the fearful catastrophe of the foundering of H.M.S. *Captain*, with 500 persons on board, in the Bay of Biscay, during a gale of wind, sent a thrill of agony throughout the land, paralleled only by the wreck of the *Royal George*, which occurred nearly a century ago.

The loss of the *Captain*, and the great war, which has caused such terrible devastation on the continent, will long connect painful memories with the past and present years.

The NATIONAL LIFE-BOAT INSTITUTION has meanwhile continued unceasingly another war, that with the elements—the war between the life-boat and the storm; and it may not be amiss to give here a brief account of one of its most recent victories, as illustrative of the able and determined courage displayed by the warriors in the life-boat cause:—

“In the early part of the year a strong gale from the S.E., with a tremendous sea, was everywhere raging on the shore at Montrose, on the east coast of Scotland, when a partially dismantled schooner, which turned out to be the *Dania*, of Aeroeskjöbing, in Denmark, was observed to be at anchor in Bervie Bay, about twelve miles north of Montrose, in a very dangerous position. The rocket apparatus from the nearest coastguard station was soon on the spot, but the vessel being too far from the shore to be reached by it, a telegram was at once sent to Montrose for the life-boat and a steam-tug to come to the aid of the schooner and crew. As soon as practicable, the life-boat *Mincing Lane* was launched, manned by the well-known and skilful Ferryden fishermen, and was towed to the harbour's mouth, when it was found that the sea on the bar was too heavy to admit of the steamer being taken through it. After some consultation and an only natural slight hesitation, the coxswain and crew of the life-boat determined at all risks to cross the bar, if possible, and perform the service without other aid than

their own strong arms and wills; and off they went, followed by the anxious gaze and hopes of the spectators on shore. The seas on the bar are said to have been terrific, yet as each wave broke heavily over the boat, one throwing her up almost perpendicularly, she nevertheless steadily surmounted them; and when over the heavy lines of surf on the bar, her oars were taken in and sails were set, and in an hour more she had reached the distressed ship. Owing to the heavy sea, it was still a work of no slight difficulty to get her crew on board, who, standing on the stern, had to avail themselves of the brief moments when the boat was raised high on the summit of a wave, and thus one by one they jumped into her, and all got safely on board. It had been thought that the life-boat would then have had to run to Stonehaven, ten miles farther north, with the rescued men, but fortunately the wind had veered more to the east, and she was enabled to return with them to Montrose; to the no slight joy and relief of those who, with anxious and wistful eyes, had been watching for her return. The life-boat's crew were loud in their praises of the behaviour of their boat both under oars and sails; yet what would be the value of even such boats without the daring courage and the skilful management of such men? When the character of this service is considered, viz., the specially dangerous seas which, during shoreward blowing gales of wind, break wildly on the bars of all rivers on so exposed a coast, and the long distance of twelve miles on a lee-shore which had to be traversed, it will be readily conceived that it would be difficult to speak in too high terms of the noble courage and hardihood of the brave fellows by whom it was performed.”

On the other hand, the number of lives lost by shipwrecks on our coasts during the year 1870, is stated by the returns made to the Board of Trade to be 791; and in spite of the best regulations and the most vigilant instruments of safety, the elements will frequently baffle all human skill and precaution. Thus a winter can hardly be expected to pass without the loss of many valuable lives on and around our shores, when we remember the circumstances under which many ships are lost, often during the dark hours of the night; such as by collision with each other, by being overwhelmed in mid-ocean, by being driven ashore amidst unapproachable rocks, or by striking on outlying banks on parts of the coast far distant from any Life-boat or Rocket Apparatus Station.

There can, however, be no doubt, as the Committee have had to state on previous occasions, that a large, if not an alarming, number of the lives lost on our coast must be put down to the incapacity of masters and the unseaworthiness of the ships themselves; were these two great causes

varied much in their peculiarities; but the same fixed and determined gallantry has characterised them all—a noble contention with the elements for the succour of shipwrecked crews.

The Committee would wish again to call attention to the continued efforts of the Board of Trade in maintaining and extending the Rocket Apparatus on the Coasts of the United Kingdom, which contributes every year, under the zealous management of the officers and men of the Coastguard service, to the rescue of hundreds of persons from Shipwreck at places where, for the most part, Life-boats cannot be made available.

The number of lives saved during the forty-seven years from the establishment of the Institution in 1824, to the end of the year 1870, either by its Life-boats or by special exertions for which it has granted rewards, is as follows:—

In the Year	No. of Lives Saved.	In the Year	No. of Lives Saved.

This large number, close upon twenty thousand persons, represents the prevention of an incalculable amount of suffering, not only to the persons immediately concerned, but to their families and friends. Neither

should it be forgotten that a very large proportion of those saved have been British Seamen who, in pursuit of their perilous calling, contribute so largely to our national greatness and prosperity.

Rewards.—In the Appendix a summary is given of the cases in which honorary and other rewards have been voted. During the past year 11 Silver Medals, 14 Votes of Thanks inscribed on vellum, and 2,3947. have been granted for saving the lives of 784 persons by Life-boats, shore and fishing-boats, and other means, on the coasts and outlying banks of the United Kingdom.

These cases of Rewards continue to receive the careful consideration of the Committee. They are each most minutely inquired into beforehand, through the co-operation of the Officers of Coastguard and Customs, the local Honorary Secretaries of the several Branches of the Institution, or other responsible persons; and afterwards they are thoroughly sifted and considered by the preparatory Committee, previous to their being sanctioned by the General Committee at their monthly meeting.

The Committee have received the prompt and cordial co-operation of the Lords Commissioners of the Admiralty, of Captain G. O. WILLES, R.N., C.B., and of the Officers and men of the Coastguard Service, to whom the best thanks of the Institution are thus again cordially rendered.

Since the formation of the Society, it has expended on Life-boat establishments, and other means for saving life from Shipwreck, 269,000*l.*, and voted 90 Gold and 822 Silver Medals for saving life, and pecuniary rewards to the amount of 35,389*l.*

Local Committees.—The Committee desire once more to tender their best thanks for the valuable co-operation afforded them by the Local Branch Committees, which constitute so important a portion of the machinery of the Institution for the supervision of its several Life-boat establishments, and they acknowledge also the valuable and gratuitous services of the

zealous Honorary Secretaries of those Committees.

Finances.—The total amount of receipts during the year 1870 has been 25,711*l.* 16*s.* 4*d.*; and of this sum 4280*l.* 4*s.* 3*d.* were special gifts to defray the cost of the following ten Life-boats:—

crews; making altogether, including liabilities amounting to 918*l.* 18*s.* 3*d.* on Life-boat Stations now in course of formation, and other expenses, a total of 28,747*l.* 10*s.* 4*d.*

The items of receipt and expenditure are detailed in the financial statement annexed to this Report, audited by Mr. LOVELOCK, public accountant.

The Committee are of opinion that the NATIONAL LIFE-BOAT INSTITUTION, by its noble deeds—the saving of human life when helplessly unable to do anything for itself—speaks to every heart. It knows no politics, and has no sectarian creed. This was strikingly manifested a few weeks since when the people of Ireland united to give it magnificent support at a Bazaar held at the Exhibition Building, Dublin, when 1,782*l.* was realised for its funds.

The Institution succours the shipwrecked sailor in time of peace or war, without reference to his nationality, and brings him safely to England's hospitable shores. In these warlike times, no society adds a brighter page to the philanthropy of the age in which we live than the NATIONAL LIFE-BOAT INSTITUTION, which appeals to all for sympathy and support.

RESOLUTIONS PASSED AT THE ANNUAL MEETING FOR 1871.

HIS GRACE THE DUKE OF NORTHUMBERLAND, P.C., D.C.L., in the Chair.

1.—Moved by the CHAIRMAN:—

1.—That the following Noblemen and Gentlemen be the Officers of the ROYAL NATIONAL LIFE-BOAT INSTITUTION for the current year:—(*vide* last page for this list.)

2.—Moved by the Right Hon. the EARL of DEVON, P.C., D.C.L., President of the Devon Central Branch of the Institution.

Seconded by the Right Hon. SIR ROBERT PEEL, Bart., G.C.B., M.P.

2.—That the Report now read be adopted, printed, and circulated.

3.—Moved by the Right Hon. the EARL of COURTOWN, Patron of the Courtown Branch of the Institution.

Seconded by Admiral of the Fleet, SIR GEORGE SARTORIUS, K.C.B.

3.—That this Meeting, in view of the great work which the NATIONAL LIFE-BOAT INSTITUTION continues to carry out on the Coasts of the United Kingdom, laments to find that, on account of the Funds so generously and munificently raised in this country to relieve the victims of the terrible war which raged for so many months in France, its Income has been much diminished during the past year.

Considering, however, that the Institution has now a noble Life-Saving Fleet of 228 boats under its management, the Meeting feels it imperative to call on every friend of the Shipwrecked Sailor to spare no effort to enlist continued support and sympathy on behalf of this great and national Institution.

4.—Moved by the EARL PERCY, M.P.

Seconded by Capt. the LORD GARLIES, M.P.

4.—That the thanks of this Meeting be given to the Board of Trade, to the Lords Commissioners of the Admiralty, and to the Officers and men of her Majesty's Coastguard service, for their continued valuable assistance to the Society.

5. Moved by Commander SIR JOHN HERON MAXWELL, Bart., R.N.

Seconded by Admiral GEORGE EVANS.

5.—That this Meeting tenders its cordial thanks to THOMAS BARING, Esq., M.P., F.R.S., *V.P.*, the Chairman; to THOMAS CHAPMAN, Esq., F.R.S., *V.P.*, the Deputy-Chairman; to the Committee of Management, and to the Officers of the Institution, for the skilful and able manner with which they continue to administer its important affairs.

Also to the honorary Local Committees of the several Branches of the Institution, and to our coast boatmen and fishermen, for their zealous and valuable co-operation.

Responded to by THOS. CHAPMAN, Esq., and by the Rev. E. HEWLETT, M.A., Hon. Secretary of the Manchester Branch.

6.—Moved by THOS. CHAPMAN, Esq., F.R.S., *V.P.*

Seconded by SIR EDWARD G. L. PERROTT, Bart., *V.P.*

6.—That the best thanks of this Meeting be given to His Grace THE DUKE OF NORTHUMBERLAND, P.C., D.C.L., for his able conduct in the Chair, and for the kind interest he takes in the welfare of the Institution.

LIST OF THE REWARDS

FOR SAVING LIFE FROM WRECKS,

VOTED BY THE ROYAL NATIONAL LIFE-BOAT INSTITUTION

TO THE CREWS OF ITS LIFE-BOATS, TO SHORE AND FISHING-BOATS' CREWS, AND OTHER PERSONS,

FROM THE 1ST JANUARY TO THE 31ST DECEMBER, 1870.

JAN. 6, 1870.—Voted the Silver Medal of the Institution, and a Copy of the Vote inscribed on Vellum, to Mr. JOHN BANYARD, Chief Officer of Her Majesty's Coastguard at Hornsea, Yorkshire, and 2*l.* to two other men, for putting off in a small boat, during a strong gale, to the wreck of the brig *Guisippina*, of Naples, on the 28th Oct. 1869, with the view of rescuing the master. The boat, however, failed to accomplish that object, and had to return to the shore, when Mr. BANYARD waded into the surf, swam out with a line, and fortunately brought the captain safely to shore.

Also the Second Service Clasp of the Institution, and a Copy of the Vote inscribed on Vellum, to Mr. ISAAC JARMAN, the coxswain of the Rams-gate life-boat; the Silver Medal, and Vote on

Vellum, to Mr. CHARLES FISH, the bowman; and the Thanks, inscribed on Vellum, to Mr. DANIEL READING, the master of the steam-tug *Aid*, in acknowledgment of their continued gallant services in the life-boat and steam-tug in saving life from shipwreck.

Also the Silver Medal, and a Copy of the Vote, inscribed on Vellum, to Mr. RICHARD J. THOMAS, the coxswain of the New Brighton life-boat, in acknowledgment of his laudable services in ascending the rigging of the schooner *Elephant*, of Ulverstone, and gallantly attempting to save the master, who was lashed there, when the life-boat went off to that vessel on the 19th Oct.

Also 8*l.* to the Coxswain of the Cromer life-boat and seven other men; and 1*l.* 10*s.* to the

persons who assisted to launch the shore-boat in which they put off and saved the crews, consisting of 13 men, of the brigs *Margaret*, of Portsmouth, and *Mary Ann*, of London, which had been in collision and had sunk, on the 7th Dec.

Also 1*l.* each to seven fishermen for going off in their boat, at much risk, and rescuing the crew of 5 men of the schooner *Paragon*, of Wick, which was wrecked at Cairnbulg Briggs, during a gale on the 14th Dec.

Also 5*l.* to nine fishermen, for putting off in their boat and saving one out of seven persons, whose boat had capsized off North Mavin, in the Shetland Isles, during squally weather, on the 1st Sept.

Jan. 8.—The Padstow life-boat put off, during a heavy gale, and saved the crew of 10 men from the Austrian barque *Suez*, which had stranded on the Doom Bar Sand.—Expense of service, 7*l.* 9*s.*

Jan. 14.—The schooner *Gronant*, of Carnarvon, exhibited signals of distress during a heavy gale from the W., about three miles east of Porthdinllaen. The life-boat on that station thereupon proceeded out to her, and landed in safety the crew of 3 men.—Expense of service, 3*l.* 8*s.*

Jan. 14.—The Cullercoats life-boat was launched to the screw-steamer *Irwell*, of Hull, which had gone ashore on Whitley Sands during hazy weather and in a heavy sea. Fortunately, with the aid of two steam-tugs, the vessel was got off the sands, and the services of the life-boat not being needed, she returned to the shore after having remained alongside the stranded steamer for three hours.—Expense of service, 8*l.*

Jan. 19.—The Buddonness life-boat put off through a high sea and rescued 3 of the crew of the schooner *John Howard*, of Goole, which, during thick weather, had stranded on the Gaa Sands.—Expense of service, 6*l.* 10*s.*

Subsequently the Broughty Ferry life-boat went off, and assisted in bringing the vessel, which was leaky and much damaged, into harbour.

Jan. 19.—The Ramsgate life-boat went out in tow of the harbour steam-tug *Aid*, and succeeded in saving 2 men belonging to the smack *Whiff*, of that port, which, during a strong gale, was totally wrecked on the Quern Shoal. Soon after the ill-fated vessel went on the Sands a heavy breaker swept her deck, carrying away and drowning 2 of the crew, long before the life-boat could possibly get to their assistance.

Jan. 21.—A Portrush pilot-boat, having 4 men on board, was capsized about half a mile from that harbour, while the wind was blowing fresh from the N.W. On the men's cries being heard from the quay, 9 other men proceeded out in a shore-boat, and succeeded in saving the whole of them.—Reward, 3*l.*

Jan. 23.—The Winterton beachmen's life-boat was taken out, in reply to signals, and brought ashore from the Newarp lightship 6 men belonging to the brig *Jones Brothers*, of Middlesboro', and the barque *Larissa*, of Blyth, which vessels had been in collision, and had sunk near the light-essel.—Reward, 18*l.*

Jan. 31.—The Theddlethorpe life-boat saved 14 men from boats belonging to the barque *Rosetto*, of Genoa, which, during a strong wind from the S., and in squally weather, had become a total wreck off Mablethorpe. When found, one of the boats was half full of water, and the sailors durst not venture through the heavy surf breaking on the shore.—Expense of service, 9*l.* 9*s.*

Jan. 31, and Feb. 1.—The Newcastle (Dun-drum) life-boat went off to the brigantine *Kelpie*, of Liverpool, which was at anchor off Newcastle in a disabled condition, during a strong wind from the S.S.W., and in a heavy sea, and which was

exhibiting signals of distress. After some difficulty, 4 of the crew were got into the boat. Afterwards the wind changed, and the life-boat having rendered most material aid to the vessel in clearing away wreckage, &c., and the services of a steam-tug having been secured through a message sent by the life-boat men, the brigantine was got into Belfast Harbour.—Expense of service, 14*l.* 14*s.*

Feb. 1.—A small fishing-boat, manned by an old man and two boys, put to sea from Portrush, Co. Antrim, but a fresh breeze sprang up and rendered their position most perilous. Thereupon 8 men manned a shore boat, proceeded out, and with some difficulty succeeded in saving the lives of the three endangered persons.—Reward, 4*l.*

Feb. 2.—A shore boat, manned by 4 men, saved, after considerable difficulty and with much risk, the crew of 8 men of the brigantine *Martina*, of St. John's, Newfoundland, which, during a gale from the S.W., became a total wreck near Brandon Bay.—Reward, 2*l.* 10*s.*

Feb. 2.—The schooner *Mary Jane*, of Aberdeen, was totally wrecked on Hauxley Head Rocks, Northumberland, during a very strong wind from the S. and in a heavy sea. The Hauxley life-boat was the means of saving the crew of 4 men from the rigging of the vessel, over which the sea was making a complete breach.—Expense of service, 3*l.* 10*s.*

Feb. 2.—The brigantine *Flora*, of Swansea, went ashore, and was abandoned by her crew; afterwards 6 French sailors found the vessel, got her off, and endeavoured to take her into Lowestoft. In this, however, they failed, the vessel going on the Barnard Sand, and becoming a total wreck. Fortunately the Kessingland small life-boat went out through a rough sea, and was enabled to save the 6 foreigners.—Expense of service, 8*l.* 10*s.*

Feb. 3.—Voted the Silver Medal of the Institution, and a Copy of the Vote inscribed on Vellum, to the Rev. OWEN LLOYD WILLIAMS, and 43*l.* 19*s.* to pay the expenses of the Abersoch life-boat in going off twice during a westerly gale and in a heavy sea, on the 14th and 15th January, and, after considerable difficulty, saving 13 men belonging to the ship *Kenilworth*, of Liverpool, which was wrecked on St. Patrick's Causeway, in Cardigan Bay.

The vessel, while on a voyage to Liverpool from New Orleans with a valuable cargo of cotton, was caught in a severe squall during a westerly gale, and grounded on St. Patrick's Causeway, in Cardigan Bay. On the signals of distress being observed from the Barmouth life-boat station, that life-boat promptly proceeded through a tremendous sea to her assistance. After a long struggle she got to the wreck, anchored, and veered alongside, when a communication was effected and the shipwrecked crew commenced to lower themselves one by one into the sea, made fast to lines, and by those means 8 of them were safely got into the life-boat. By this time the gale had increased, and the sea risen fearfully, when suddenly the rope connecting the life-boat to the ship parted, the boat's cable had to be cut, she drifted to leeward, and all attempts at the time to get back to the wreck were unavailing, and the boat had to make for Pwllheli, which was safely reached. A message was then sent to the Abersoch life-boat station, some distance to windward, asking that that boat might also be sent out to the aid of those who had been left on board the wreck. Some hours previously, it seems, information of a large vessel being in distress on the Sarn Badrig had reached Abersoch; the life-boat was immediately taken

out and cruised about for some hours in search of the ship. The crew, however, failed to find it in the darkness, and they returned to shore, meaning to go off again so as to be at the Sarn at daylight. When the Rev. O. LL. WILLIAMS, the Hon. Secretary of the Abersoch and Porthdinllaen Branches of the Institution, heard the news from Pwllheli, he proceeded to Abersoch, and found the life-boat had just returned from her unsuccessful cruise. As soon as practicable he had the boat launched again, himself going out in her; and after a careful search for about three hours, the ship was sighted; the boat's anchor was then let go, and she went alongside, but not without some risk from the spars floating near. The 13 men left on board were then safely got into the boat. It was dangerous work, as a big sea would come rolling over the bows of the ship, but fortunately no damage was done to the life-boat. The shipwrecked men said, that seeing now and then the red lights shown from the life-boat was a great comfort to them. They had launched their boats, but when they got them over the side they were immediately smashed to atoms; even if they could have got away from their vessel in them, they would undoubtedly have perished in the midst of the fearful seas. When the Abersoch life-boat left, the ship was a complete wreck, being swept by every sea. The crew saw the Institution's Barmouth and Portmadoc life-boats going out to the wreck as they returned to the shore. The Abersoch boat had only been about three months on its station. It was the gift of ROBERT BARNES, Esq., of Manchester, through the Life-boat Society's Branch in that city. The crew were highly pleased with the admirable manner in which their boat behaved. Mr. WILLIAMS had been instrumental altogether in assisting to save 52 lives from different wrecks.—Expense of Barmouth life-boat service, 39l.

Noted also the Silver Medal of the Institution, a Copy of the Vote inscribed on Vellum, and 5l. to Mr. EDWARD AMIS, the late coxswain of the Palling life-boat, in testimony of his long and gallant services—extending over many years—in assisting in the life-boat to save the lives of a large number of shipwrecked men.

Also 70l. 6s. 6d. to pay the expenses of the Carnsore, North Deal, Plymouth, Portmadoc, Rye, and Walmer life-boats for various services during the gales of January.

Also 2l. to 4 men employed on the Skellig Rock, Valentia, who assisted ashore 8 men from the boat of the barque *Ansell*, of St. John's, New Brunswick, which had been totally wrecked during a fresh gale and in a heavy sea.

Also 1l. to 2 men for going off in a small boat and rescuing 6 men from the fishing lugger *Sarah Jane*, of Ardglass, which was in distress near Balbriggan Harbour during a strong wind from the E.N.E.

Feb. 6.—Four of the crew of the Penmon life-boat put off in a shore-boat, at much risk, and rescued the crew of 2 men of the smack *Penrhyn*, of Bangor, which had gone ashore at Puffin Island, during a strong wind and heavy sea.—Reward, 3l.

Feb. 6.—The brigantine *Elizabeth A. Bird*, of Liverpool, stranded on the Back Shore, Newcastle, Co. Down, during a hard gale from the South. The crew of 8 men were saved by the Newcastle life-boat.—Expense of service, 6l. 16s.

Feb. 6.—While it was blowing a perfect hurricane from the South, accompanied by heavy squalls and very thick rain, the schooner *Forth*, of Wexford, was seen in distress and in an unmanageable state off Girvan. The life-boat stationed at that place was at once launched to her assistance, and took off the crew of 5 men.

The hurricane increased after leaving the vessel, and the life-boat men afterwards stated that they were never out before in such bad weather. Nevertheless, the life-boat and all on board safely regained the shore after the boat had been afloat nearly five hours.—Expense of service, 16l. 14s.

Feb. 6.—The Ramsey life-boat went out during a strong gale from the S.E., and rescued the crew of 6 men, and the captain's wife and child, from the schooner *John Bell*, of Barrow-in-Furness, which was in distress in Ramsey Bay.—Expense of service, 17l. 5s.

Feb. 7.—The Hauxley life-boat put off, and rescued the crew of 7 men from the brig *Sundew*, of North Shields, which, during stormy weather, was in distress in the Coquet Roads.—Expense of service, 15l. 8s.

Feb. 7.—Some Yarmouth beachmen put off in one of their boats and saved the crew of 3 men from the schooner *Star*, of Lynn, which, during a strong gale from the E., and in a heavy sea, had gone ashore near the Britannia Pier.—Reward, 5l.

Feb. 8.—The smack *Admiral*, of Great Yarmouth stranded off that place during a heavy south-easterly gale. Her crew of 5 men were saved at some risk by the Yarmouth surf life-boat.—Expense of service, 14l.

Feb. 12, 13.—The Walmer beachmen, by means of lines, saved a large number of lives from four vessels, which, during a heavy gale from the E., were wrecked off that place. They were the schooner *Rugine*, of Marseilles; the barque *William Harper*, of North Shields; the barque *Eglantine*, of Shields; and the Dutch brig *Anne Lenda*. Their crews numbered altogether 43 men, all of whom, with one exception, were got ashore with the help of the beachmen.—Reward, 17l.

Feb. 12.—The Kingsdowne life-boat went off five times, and after much difficulty, rescued 28 persons, including the captain's wife and infant child, from the ship *Glenduror*, of Liverpool, which, during the heavy gale, had stranded off Kingsdowne.—Expense of service, 47l.

Feb. 12.—Eight men belonging to Donna Nook, Lincolnshire, waded into the surf, and rescued the crew of 5 men from the smack *James Evans*, of Hull, which became a wreck near the Slate Run, during a N.E. gale, and in very severe weather.—Reward, 5l.

Feb. 13.—The Ramsgate life-boat and steam-tug *Aid* put off and brought safely into harbour the smack *Mary*, of Ramsgate, and her crew of 5 men, which vessel, during a very heavy gale, was in distress near Quern Head.

Feb. 13.—The Yarmouth surf life-boat was the means, during a heavy gale from E.N.E., of rescuing the crew of 9 men from the schooner *St. Cyran*, of Hull, which was totally wrecked near the Britannia Pier.—Expense of service, 14l.

Feb. 14.—The Llanddwyn life-boat put off and saved the crew of 3 men of the schooner *Scotia*, of Carnarvon, and a female passenger from the schooner *Lewis*, of the same place. The crew of the first-named vessel had abandoned her during the previous night, and had taken refuge on board the *Lewis*. A strong gale from the E. was blowing at the time, and it was only after two vigorous attempts that the life-boat was enabled to get out to the distressed vessel.—Expense of service, 5l. 13s.

Feb. 14.—The smack *Bethel*, of Ramsgate, was wrecked off that place during a strong gale from the E. The Ramsgate life-boat and harbour steam-tug promptly proceeded out through a very high sea, on the signals of distress shown from the vessel being observed, and fortunately the crew of 5 men were saved by the life-boat, which

ran great risk in performing this service, the rocks, on which the sea was breaking heavily, being close under her lee.

Feb. 14.—The Newquay (Cardigan) life-boat, brought safely into harbour a barge, which, during a strong N.N.E. gale, was found abandoned off that place.

Feb. 14.—During a strong gale a schooner was seen in the offing from Porthdinllaen; she was apparently in distress, and the Porthdinllaen life-boat was thereupon launched to her aid. On arriving alongside, she was found to be the schooner *Scotia*, of Carnarvon, which had drifted out to sea after her crew had left her and taken refuge on board another vessel—they believing their own ship would inevitably be wrecked. Some of the life-boat men, however, boarded her, sail was set, and she was eventually taken safely into Porthdinllaen Harbour.

Feb. 14.—Four men waded into the surf, and rescued 2 men belonging to the barque *Mira*, of Nova Scotia, which was wrecked off Hogs-thorpe, on the Lincolnshire coast.—Reward, 2*l*.

Feb. 14.—A small boat, manned by seven men, put off, and rescued 4 men from the schooner *Jilt*, of St. Mary's, Isle of Man, which had stranded on Caerhays Beach, on the coast of Cornwall, during a gale from the E.—Reward, 2*l*.

Feb. 28.—The Middlesborough life-boat put off, and saved the crew of 6 men from the schooner *Johns*, of Sunderland, which was wrecked on the North Gare Rocks during a heavy gale from the southward. In going out to the wreck the life-boat had to cross the Slag Banks, and on more than one occasion she was filled up to the thwarts; but she immediately freed herself of the water, and indeed behaved most admirably, no damage being sustained by the boat in the performance of this gallant service.—Expense of service, 13*l*.

March 3.—Seven fishing cobses and a pilot coble had put out to sea from Cullercoats, when a gale of wind suddenly sprung up, and they had to return. It was apprehended that there would be some risk in their taking the Bar on account of the state of the sea. Accordingly, by desire of the inhabitants, the life-boat was launched, and proceeded outside, where she remained about three hours attending the cobses over the Bar until they all got in in safety, to the great satisfaction of the inhabitants and the life-boat men.

March 3.—Voted the Silver Medal, and a Copy of the Vote inscribed on Vellum, to Capt. DAVID ROBERTSON, R.N., the Assistant-Inspector of Life-boats to the Institution, in acknowledgment of his gallant services in going off in the Yarmouth and Gorleston life-boats, on the 13th and 14th Feb., during an easterly gale, and assisting to save 12 persons from the brig *Giovannina A.*, of Venice, and the schooner *Favorite*, of Arbroath, which were respectively wrecked off Gorleston, and near the Wellington Pier, Yarmouth.

Also 32*l*. 5*s*. to pay the expenses of the two life-boats on these occasions.

Also 169*l*. 2*s*. 6*d*. to pay the expenses of the life-boats at Aberystwith, Arklow, Bridlington, Bull Bay, Courtmacsherry, Gorleston, Green-castle, Howth, Margate, Moelfre, New Romney, Sutton, Theddlethorpe, Tynemouth, West Hartle-pool, and Yarmouth, in either assembling the crews, or in putting off, in reply to signals of distress from different vessels, which subsequently got out of their dangerous positions without the aid of the life-boats.

Also 3*l*. to 5 men for going off in a boat and saving the crew of 3 men and a pilot from the schooner *Mary*, of Bangor, which, during a strong

gale from the N.E., went ashore two miles south of Rosslare Point, on the 22nd December.

Also 1*l*. to ANDREW BENT and his Wife for putting off in a small boat and rescuing 2 out of 3 men, whose boat had capsized near Rosslare, during a N.E. gale and severe frost, on the same day.

March 4.—Some Scratchby beachmen put off in their large life-boat, and after great difficulty saved 5 men from the schooner *Mary*, of Goole, which became a total wreck near Scratchby, during a gale from the E.N.E.—Reward, 13*l*.

The Institution subsequently also granted 5*l*. to the beachmen to assist them to repair their haul-off warp, which had been seriously damaged in this service.

March 4.—The barque *Richard Cobden*, of Liverpool, stranded on the North Bull, near Drogheda Bar, during a strong gale from the E.N.E. and in a heavy sea. The Drogheda life-boat went out and brought safely ashore 13 men, the master and the two mates refusing to leave their vessel. The flood tide, however, began to make with a very heavy sea, and the three men then hoisted a signal of distress, whereupon the life-boat proceeded out a second time, and with great difficulty and danger rescued the 3 men. An hour later the life-boat could not have saved any of them.—Expense of services, 19*l*. 5*s*.

March 4.—The Cromer life-boat went out, through a heavy sea, and after great trouble and exertion, succeeded in saving 5 men from the brig *Emulous*, of Middlesborough, which, during a gale from the E., had gone ashore off Cromer. When the men were taken off, the sea was making a clean breach over their ship, which afterwards went to pieces.—Expense of service, 16*l*. 10*s*.

March 4.—During a strong gale from the E.N.E. the brigantine *Adelia Ann*, of Swansea, was totally wrecked near Pakefield, on the coast of Suffolk. The Pakefield life-boat was the means of saving the vessel's crew, 5 in number, and of landing them safely in Lowestoft Harbour. The life-boat was somewhat damaged on this occasion, and had to be towed in.—Expense of service, 16*l*.

March 4.—Four men went off in a shore-boat, and saved 2 men from a boat belonging to the brig *Florence Pope*, of Newport, which had been abandoned off Innistock, Ireland.—Reward, 2*l*.

March 7.—The Ramsgate life-boat put off, in tow of the steam-tug *Aid*, and assisted the brig *Volunteer*, of Shoreham, which, during a gale from N.N.E., was in distress on the Goodwin Sands. Subsequently the steamer was the means of bringing the vessel safely into harbour.

The Broadstairs life-boat also went out and rendered assistance to the same vessel.

March 11.—Six men went off, in a boat, and saved 3 men belonging to the lugger *Ocean Pride*, of Peel, which, during a fresh gale from the N., had sunk near Rhosneiger, on the Anglesey Coast.—Expense, 3*l*.

March 23.—The North Deal life-boat put off and brought ashore from the South Sand Head Light-ship, the crew of 7 men of the brigantine *Germania*, of Bremen, which, during a gale from the N.N.W., was totally wrecked on the South Caliper Sands. The crew had put off in the ship's boat, and had taken refuge on the lightship.—Expense of service, 18*l*.

March 23.—The schooner *Margarets*, of Wigton, was running for Berwick Harbour during bad weather, when she drove ashore at Spittal Point. The Berwick-on-Tweed life-boat was taken to the beach opposite the vessel and launched through a very heavy sea to the assistance of the crew of 5 men, who were all saved, after the life-

boat men had run considerable risk. Their boat, which was reported to have behaved very well, was somewhat damaged on this occasion.—Expense of service, 16*l.* 10*s.*

March 31.—The Wexford large life-boat put off and rendered assistance to the steamer *Danube*, of Leith, which, during thick weather, had gone on the Long Bank.

April 1.—Mr. JOHN CONNELL, chief boatman of her Majesty's coastguard at Tallagher, Ireland, and four other men, put off in a coastguard galley, and, after some difficulty, rescued one man from a boat belonging to Ballycray, which, during a squall from the S.W., was capsized on Tallagher Bar.—Reward, 3*l.* 5*s.*

April 7.—Voted 164*l.* to pay the expenses of the life-boats at Banff, Broadstairs, Caister, Cleethorpes, Dungeness, Margate, North Sunderland, Sutton, Valentia, and Yarmouth, in going off with the view of rendering assistance to vessels in distress.

Also the Thanks of the Institution and 1*l.* to Mr. WILLIAM McFAUL, Chief Officer of Coastguard at Branksea, near Poole, and 10*s.* each to four other men, for putting off in two small boats, and saving 2 men from a Poole yawl, which had sunk off Branksea, while it was blowing hard from the S.W.

Also 2*l.* to eight men for putting off, in a small boat, and saving 4 men from a fishing-boat, which had capsized off Dunrossness, Shetland, during squally weather.

Also 1*l.* to two men for their services, on the occasion of the wreck of the brig *Blossom*, of Whitby, near Boscastle, on the Cornish coast, on the 13th Sept. last, when 10 lives were saved by means of lines.

April 16.—Four men, by means of a boat, saved 4 other men from a yawl, which, while it was blowing hard from the S.W., was swamped off the bar of Gweebarra, on the Irish coast.—Reward, 2*l.*

April 22.—The sloop *Sprightly*, of Preston, stranded on the Crusader Sandbank, off the Lancashire coast, during a gale from the S.W. The Blackpool life-boat went out to her, through a rough surf, in the presence of a great number of people who had flocked to the spot on learning of the wreck, and who were greatly excited at hearing the piercing cries of the 2 men forming the crew of the vessel. With some difficulty the poor fellows were taken off the wreck, over which the sea was breaking with fearful violence, and were landed in safety amidst the plaudits of the spectators.—Expense of service, 9*l.* 3*s.*

April 25.—Mr. HUGH McLEAN, master of the steamer *Chieftain's Bride*, put off in a small boat from the steamer, and saved 1 out of 3 men, whose boat had capsized off Garth Voe, in attempting to reach the steamer.—Reward, 1*l.*

Fortunately, with the aid of the beach-men, the vessel and her crew were taken safely into Yarmouth Harbour.

Dec. 9.—The same life-boat, in conjunction with a steamer, also helped to save the brig *Wanderer*, of Whitby, and her crew, during blowing weather, that vessel being close to the breakers on the Cockle Sand. The Tynemouth No. 2 life-boat was, however, brought overland by the pier works, launched, and proceeded to the wreck; but the wind and sea were so heavy, that she was driven away—the rope which held her having parted like a thread, such was the force of the sea, and the same result attended a second and third trial. Her gallant crew, however, persevered, and their efforts were ultimately crowned with success, for on the fourth attempt they were enabled to rescue the whole of the shipwrecked crew, who were landed in safety amidst the cheers of the spectators on shore.—Expense of service, 15*l.* 12*s.*

The sea was heavy, but the crew of the life-boat would not forsake the man left on board. They therefore remained alongside until the tide fell, rendering his position comparatively safe. The behaviour of the life-boat crew in the management of their boat was spoken of in the highest terms.—Expense of services, 31*l.*

Dec. 19.—Nine fishing boats, returning to St. Andrew's, N.B., were overtaken by a very heavy sea, and were in great danger, when the St. Andrew's life-boat went off and was able to render them very timely assistance, being occupied for three hours in helping in the boats, all of which were saved, without the loss of a single life.

Dec. 19.—About the same time the Montrose life-boats were doing good service. Four fishing-boats were in much danger from the heavy sea which had suddenly sprung up, and they were collected at one spot by the large life-boat—which then returned to shore, hoping the boats would ride out the gale. The sea, however, increased in violence, and about midnight the life-boat again went out, and with great difficulty saved the whole of the fishing-boats' crews, numbering altogether 24 men. The life-boat, though very full, behaved admirably. The other life-boat remained inside the bar, ready to help there if needed.—Expense of services, 20*l.* 2*s.*

Dec. 20.—The brigantine *Annie*, of Hartlepool, was noticed in a dangerous position off Withernsea, with a signal of distress flying, during a southeasterly gale and a heavy sea. The Coastguard fired a rocket to the vessel, but failed to reach her. The Withernsea life-boat was, however, enabled, after some hard work on the part of her crew, to rescue the 4 shipwrecked men.—Expense of service, 12*l.* 16*s.*

Dec. 25.—On Christmas-afternoon a ship was observed ashore off Ostend, on the Norfolk coast. Some of the beachmen who were at church were summoned, and four instantly went off in a crab boat to the vessel. They found her filling fast with water. Leaving one of their number in the vessel, the others landed for additional assistance, but were unable to return in their boat. The crew of the Hasborough life-boat at once took her on her carriage to Ostend, where they launched her and made for the vessel. They found her under water, her crew having left in their own boat. They followed the boat, and, directed by the lights, overtook it off Eccles Steeple, when they took the shipwrecked crew of 7 men on board the life-boat, and landed them at Palling, as they could not get back to Hasborough, wind and tide being against them. The ship's boat was nearly full of water when overtaken by the life-boat, and must soon have sunk with the 8 men in it. The vessel was the brig *Minerva*, of Seaham, bound thence to Rochester with coals. Her master afterwards wrote as follows to the Honorary Secretary of the NATIONAL LIFE-BOAT INSTITUTION at Hasborough:—"I give great praise to the Hasborough beach-men for their gallant conduct in taking me and my crew out of the ship's boat, and landing us safely in the life-boat through a heavy sea. This is the first time I have been in a life-boat, but she behaved well, and was splendidly handled."—Expense of service, 23*l.*

The Palling life-boat was also taken along the beach to the site of the wreck, but returned on finding that the Hasborough life-boat was out and able to perform the required service.—Expenses, 9*l.* 16*s.*

Dec. 25.—The schooner *Flora*, of Margate, came ashore near Mundesley, Norfolk, on Christmas-day. The Mundesley life-boat was drawn on her carriage to the spot, launched, and pulled through a heavy surf to the vessel, from which she saved

the crew of 5 men. It was a most bitter cold morning, and all the men suffered severely.—Expense of service, 22*l.* 4*s.*

Dec. 31.—Voted 142*l.* 2*s.* 3*d.* to pay the expenses of the life-boats at Aberystwyth, Barmouth, Broadstairs, Dungeness, Hauxley, Maryport, North Deal, Palling, Porthdillan, Rhyl, Scarborough, and Wexford, in putting off, in reply to signals of distress from various vessels, which, however, fortunately succeeded in getting out of danger, or received assistance from other life-boats.

Dec. 31.—A vessel was seen to strike on the

southern part of Caister Shoal, and immediately afterwards to burn signals of distress, while the wind was blowing freshly from the E.S.E. The Caister No. 2 life-boat was launched with all speed, and found the vessel was the brig *Thomas and Joseph*, of South Shields, and that she had stranded on the sands. The crew of 10 men were then rescued and brought safely ashore. The breakers were heavy all along the coast, and no boat but the life-boat could have saved the crew, except with the greatest hazard.—Expense of service, 16*l.*

THE LIFE-BOAT STATION.

THE following brief description and diagrams illustrative of a complete Life-boat Establishment, including the house for the protection of the boat, will serve to convey an idea of the general character of one of the 228 Life-boat Stations of the NATIONAL LIFE-BOAT INSTITUTION.

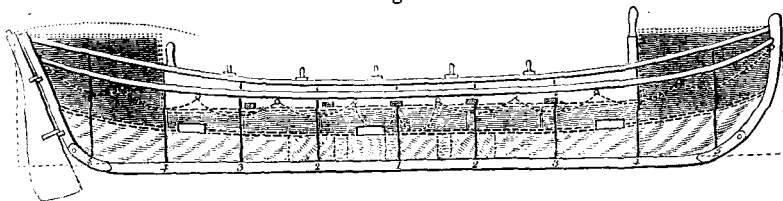

It will be seen by them that it is a work of a costly nature, and that not only in the first instance but that a large permanent expense is entailed in keeping the whole machinery in an efficient state, in the resupply of any part of it which may be destroyed or worn out, in the exercise of the boats' crews in launching and working the boats, and in remunerating them for their services in saving their fellow-creatures. Yet, looking to the vast importance of the result effected, and the responsibility of calling on men to risk their lives in effecting the same, it is felt that few if any persons will be found who will consider that expense to be incurred in vain.

THE LIFE-BOAT.

(See Diagrams on opposite page.)

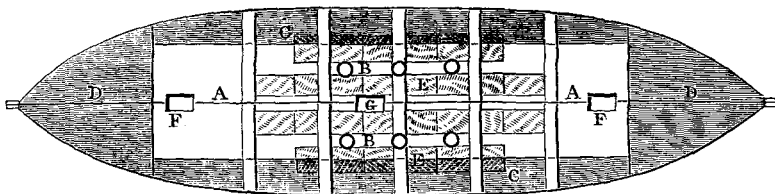

The following figures show the general form, the nature of the fittings, and air-chambers of one of these boats, 33 feet in length and 8 feet in breadth. In figs. 1 and 2, the elevation and deck plans, the general exterior form of the boat is shown with the sheer of gunwale, length of keel, and rake of stem and stern-posts. The dotted lines of fig. 1 show the position and dimensions of the air-chambers within board, the relieving-tubes, and ballast. In fig. 2, *A* represents the deck, *B* the relieving-tubes (6 inches in diameter), *C* the side air-cases, *D* the end air-chambers, *E* ballast, *F* scuttles to admit of a free current of air under the water-tight deck, *G* scuttle for air, and to receive pump. In fig. 3, the exterior form of transverse sections, at different distances from stem to stern, is shown. Fig. 4 represents a midship transverse section, *A* being sections of the side air-cases, *B* the relieving-tubes, of the same depth as the space between the deck and the boat's floor. *C*, *C*, *C*, are spaces beneath the deck, placed longitudinally, at the midship part of the boat, with cases packed with cork, forming a portion of the ballast; *D* scuttle for ventilation, having a pump fixed in it, by which any leakage beneath the deck can be pumped out by one of the crew whilst afloat. The festooned lines in fig. 1 represent exterior life-lines attached round the entire length of the boat, to which persons in the water may cling till they can be got into the boat; the two central lines are festooned lower than the others, to be used as stirrups, so that a person in the water, by stepping on them, may climb into the boat without assistance.

Midship Section.

This Life-boat possesses in the highest degree all the qualities which it is desirable that a Life-boat should possess:—

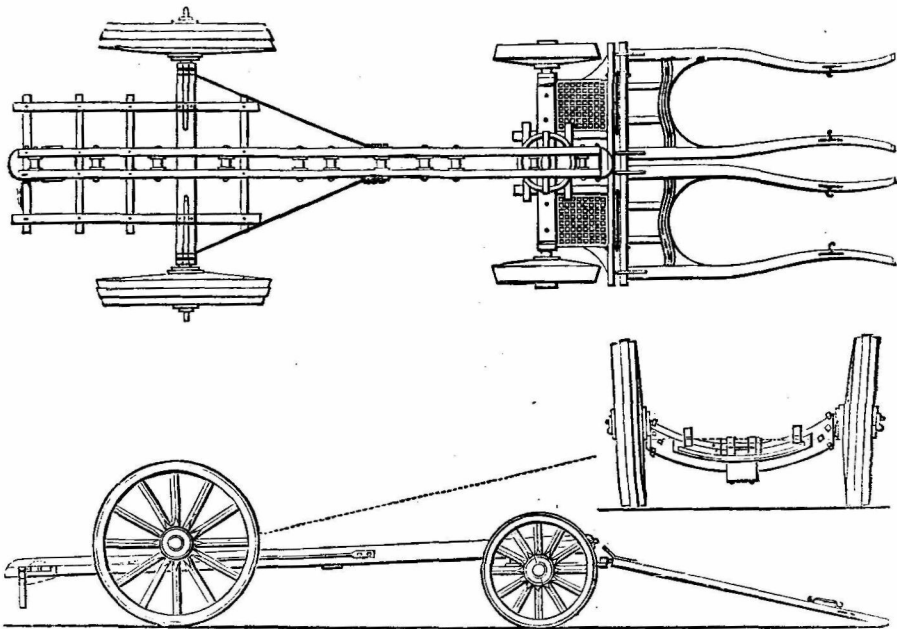

1. Great lateral stability or resistance to upsetting.
2. Speed against a heavy sea.
3. Facility for launching and taking the shore.
4. Immediate self-discharge of any water breaking into her.
5. The important advantage of self-righting if upset.
6. Strength.
7. Stowage-room for a large number of passengers.

THE LIFE-BOAT TRANSPORTING-CARRIAGE.

(See Diagrams on next page.)

The Life-boat transporting-carriage is a very important auxiliary to the boat. Every Life-boat, except a few of the larger size, is provided with a carriage, on which she is kept in the boat-house ready for immediate transportation to the most favourable position for launching to a wreck. A Life-boat is thus made available for a greater extent of coast than she otherwise would be; and even when launched from abreast of the boat-house, can be much quicker conveyed to the water's edge than she could be if not on a carriage. In addition to this ordinary use, a carriage is of immense service in launching a boat from a beach, to that extent, indeed, that one can be readily launched from a carriage through a high surf, when without one she could not be got off the beach.

The carriage consists of a fore and main body. The latter is formed of a keelway, and of side or bilgeways attached to the keelway, and resting on the main axle, the boat's weight being entirely on the rollers of the keelway. Its leading characteristic is that on the withdrawal of a forelock pin the fore and main bodies can be detached from each other. The advantages of this arrangement are that, whilst the weight of the boat when she is launched from the rear end forms an inclined plane by elevating the keelway and fore-carriage, to replace her on the carriage she can be hauled bow foremost up the fore end or longer incline, by disconnecting the fore-carriage, and letting the end of the keelway rest on the ground, thus forming an inclined plane up which the boat is easily drawn. The bilgeways are needed at the rear end, that the boat may be launched in an upright position, with her crew on board, but they are not required at the fore end of the carriage.

THE LIFE-BELTS IN USE BY THE CREWS OF THE LIFE-BOATS OF THE INSTITUTION.

The requisite qualities of a life-boatman's life-belt are—

1. Sufficient extra-buoyancy to support a man heavily clothed, with his head and shoulders above the water, or to enable him to support another person besides himself.

2. Perfect flexibility, so as readily to conform to the shape of the wearer.

3. A division into two zones, an upper and lower, so that between the two it may be secured tightly round the waist; for in no other manner can it be confined sufficiently close and secure round the body without such pressure over the chest and ribs as to materially affect the free action of the lungs, impede the muscular movement of the chest and arms, and thereby diminish the power of endurance of fatigue, which, in rowing-boats, is a matter of vital importance.

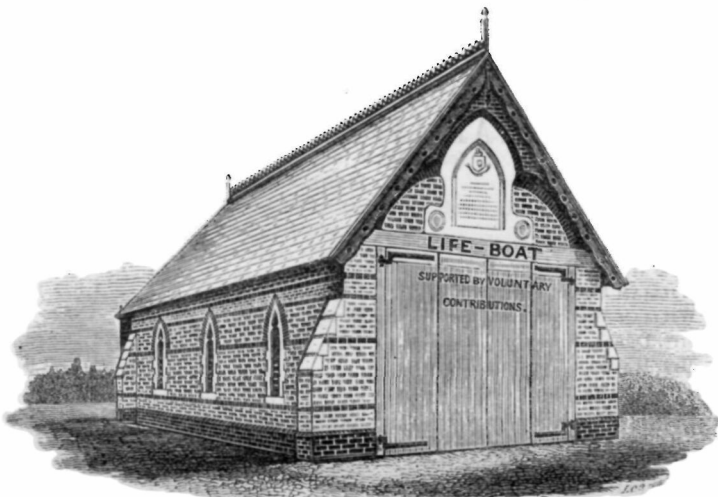

4. Strength, durability, and non-liability to injury.

The cork life-belts of the NATIONAL LIFE-BOAT INSTITUTION possess the first two qualities in a greater degree than any other life-belt, and the third one exclusively.

In addition to these belts a very full equipment of stores is supplied to the Life-boats of the Institution—such as anchors and cables, grapnels and lines, life-buoy, lanterns, rockets and many other articles, together with portable or launching-kids.

THE LIFE-BOAT HOUSE.

The boats of the NATIONAL LIFE-BOAT INSTITUTION, and all belonging to them, are kept in roomy and substantial boat-houses, under lock and key, in charge of paid coxswains, under the general superintendence of local honorary committees of residents in the several localities. Each boat has its appointed coxswain at a salary of 8*l.*, and an assistant at 2*l.* a year. The crew consists, in addition, of a bowman, and as many boatmen as the boat pulls oars. The members of the volunteer crews are registered, and wherever practicable, at least double the number of men required are entered on the register. Such men are mostly resident boatmen, fishermen, or Coastguardmen. On every occasion of going afloat to save life, the coxswain and each of the crew receive alike from the funds of the Institution (whether successful or not) 10*s.*, if by day, and 1*l.*, if by night; and 4*s.* each for every time of going afloat for exercise.

A reward of 7*s.* is given to the man who first brings intelligence of a wreck at such a distance along the coast as not to be in sight of the Coastguard Station or other look-out.

A flag hoisted by day, and the firing of a carronade twice, quick, by night, are the well-known signals for calling the crew together.

On boarding wrecks, the preservation of life is the sole consideration. Should any goods or merchandize be brought into the life-boat, contrary to the coxswain's remonstrance, his first business is to throw them overboard.

The expense of a Life-boat Station averages 680*l.*, and is made up as follows:—

Life-boat and her equipment, including Life-belts for the Crew,	
Skids, and Transporting-carriage	£480
Boat-house (average cost)	200
Total	£680

The average Annual Expense of maintaining a Life-boat Station is 50*l.*

Such is a brief summary of the chief of the Regulations under which the Life-boats are worked. How faithfully and with what result they are carried out let the journals of each Life-boat Station and the annals of the Institution tell.

The NATIONAL LIFE-BOAT INSTITUTION has now 228 Life-boats under its charge. Every one of these has been specially presented to it, and they save every year from 700 to 800 shipwrecked sailors. Altogether, the Institution has contributed to the saving of nearly twenty thousand lives.

Despite, however, this fleet of 228 Life-boats, and of 40 others locally provided and supported, and despite the numerous rocket and mortar stations on our coast, there remains the melancholy fact that an average of 700 lives are lost annually on and around our own shores alone, proclaiming solemnly, though silently, that, for humanity's sake, and for the national credit, no exertions should be spared in providing every possible means for the conveyance of succour to the shipwrecked.

The Institution needs at least a permanent income of 20,000*l.* to maintain its great Life-saving Fleet; and the Committee feel assured that it will never lack it so long as it maintains its boats in the state of thorough efficiency that they are in at the present time, and manned as they are on every emergency by as fearless and noble a class of men as ever our Nelsons and Collingwoods led to battle to uphold our country's honour and glory.

Treatment of the Apparently Drowned.

ROYAL NATIONAL LIFE-BOAT INSTITUTION.

Supported solely by Voluntary Contributions.

DIRECTIONS FOR RESTORING THE APPARENTLY DROWNED.

THE leading principles of the following Directions for the Restoration of the apparently Dead from Drowning are founded on those of the late Dr. MARSHALL HALL, combined with those of Dr. H. R. SILVESTER, and are the result of extensive inquiries which were made by the Institution in 1863-4 amongst Medical Men, Medical Bodies, and Coroners throughout the United Kingdom. These Directions have been extensively circulated by the INSTITUTION throughout the United Kingdom and in the Colonies. They are also in use in Her Majesty's Fleet, in the Coast-guard Service, and at all the stations of the British Army at home and abroad.

I.

SEND immediately for medical assistance, blankets, and dry clothing, but proceed to treat the Patient *instantly* on the spot, in the open air, with the face downward, whether on shore or afloat; exposing the face, neck, and chest to the wind, except in severe weather, and removing all tight clothing from the neck and chest, especially the braces.

The points to be aimed at are—first and *immediately*, the RESTORATION OF BREATHING; and secondly, after breathing is restored, the PROMOTION OF WARMTH AND CIRCULATION.

The efforts to *restore Breathing* must be commenced immediately and energetically, and persevered in for one or two hours, or until a medical man has pronounced that life is extinct. Efforts to promote *Warmth and Circulation*, beyond removing the wet clothes and drying the skin, must not be made until the first appearance of natural breathing; for if circulation of the blood be induced before breathing has recommenced, the restoration to life will be endangered.

II.—To Restore Breathing.

TO CLEAR THE THROAT.—Place the patient on the floor or ground with the face downwards, and one of the arms under the forehead, in which position all fluids will more readily escape by the mouth, and the tongue itself will fall forward, leaving the entrance into the windpipe free. Assist this operation by wiping and cleansing the mouth.

If satisfactory breathing commences, use the treatment described below to promote Warmth. If there be only slight breathing—or no breathing—or if the breathing fail, then—

TO EXCITE BREATHING.—Turn the patient well and instantly on the side, supporting the head, and excite the nostrils with snuff, hartshorn, and smelling salts, or tickle the throat with a feather, &c., if they are at hand. Rub the chest and face warm, and dash cold water, or cold and hot water alternately, on them. If there be no success, lose not a moment, but instantly—

TO IMITATE BREATHING.—Replace the patient on the face, raising and supporting the chest well on a folded coat or other article of dress.

Turn the body very gently on the side and a little beyond, and then briskly on the face, back again, repeating these measures cautiously, efficiently, and perseveringly, about fifteen times in the minute, or once every four or five seconds, occasionally varying the side. [*By placing the patient on the chest, the weight of the body forces the air out; when turned on the side, this pressure is removed, and air enters the chest.*]

On each occasion that the body is replaced on the face, make uniform but efficient pressure with brisk movement, on the back between and below the shoulder-blades or bones on each side, removing the pressure immediately before turning the body on the side.

During the whole of the operations let one person attend solely to the movements of the head and of the arm placed under it. [*The first measure increases the expiration—the second commences inspiration.*]

* * The result is *Respiration or Natural Breathing*; and if not too late—*Life*.

Whilst the above operations are being proceeded with, dry the hands and feet, and as soon as dry clothing or blankets can be procured, strip the body, and cover or gradually re-dress it, but taking care not to interfere with the efforts to restore breathing.

III.

Should these efforts not prove successful in the course of from two to five minutes, proceed to imitate breathing by Dr. SILVESTER'S method, as follows:—

Place the patient on a flat surface, inclined a little upwards from the feet; raise and support the head and shoulders on a small firm cushion or folded article of dress placed under the shoulder-blades.

Draw forward the patient's tongue, and keep it projecting beyond the lips; an elastic band over the tongue and under the chin will answer this purpose, or a piece of string or tape may be tied round them, or by raising the lower jaw, the teeth may be made to retain the tongue in that position. Remove all tight clothing from about the neck and chest, especially the braces.

TO IMITATE THE MOVEMENTS OF BREATHING.—Standing at the patient's head, grasp the arms just above the elbows, and draw the arms gently and steadily upwards above the head, and *keep them stretched upwards for two seconds.* (*By this means air is drawn into the lungs.*) Then turn down the patient's arms, and press them gently and firmly for two seconds against the sides of the chest. (*By this means air is pressed out of the lungs.*)

Repeat these measures alternately, deliberately, and perseveringly, about fifteen times in a minute, until a spontaneous effort to respire is perceived, immediately upon which cease to imitate the movements of breathing, and proceed TO INDUCE CIRCULATION AND WARMTH.

IV.—Treatment after Natural Breathing has been Restored.

TO PROMOTE WARMTH AND CIRCULATION.—Commence rubbing the limbs upwards, with firm grasping pressure and energy, using handkerchiefs, flannels, &c. [*By this measure the blood is propelled along the veins towards the heart.*]

The friction must be continued under the blanket or over the dry clothing.

Promote the warmth of the body by the application of hot flannels, bottles, or bladders of hot water, heated bricks, &c., to the pit of the stomach, the arm-pits, between the thighs, and to the soles of the feet.

If the patient has been carried to a house after respiration has been restored, be careful to let the air play freely about the room.

On the restoration of life, a teaspoonful of warm water should be given; and then, if the power of swallowing have returned, small quantities of wine, warm brandy and water, or coffee should be administered. The patient should be kept in bed, and a disposition to sleep encouraged.

General Observations.

The above treatment should be persevered in for some hours, as it is an erroneous opinion that persons are irrecoverable because life does not soon make its appearance, persons having been restored after persevering for many hours.

APPEARANCES WHICH GENERALLY ACCOMPANY DEATH.

Breathing and the heart's action cease entirely; the eyelids are generally half closed; the pupils dilated; the tongue approaches to the under edges of the lips, and these, as well as the nostrils, are covered with a frothy mucus. Coldness and pallor of surface increase.

CAUTIONS.

Prevent unnecessary crowding of persons round the body, especially if in an apartment.

Avoid rough usage, and do not allow the body to remain on the back unless the tongue is secured.

Under no circumstances hold the body up by the feet.

On no account place the body in a warm bath unless under medical direction, and even then it should only be employed as a momentary excitant.

The object of this Institution, as declared in its title, is to afford assistance to every wrecked person around the coasts of the United Kingdom.

The chief means by which the Society hopes to carry this object into effect are:—

To build, station, and maintain in repair, Life-boats of the most perfect description; to furnish them with all necessary Appurtenances, including Houses to preserve them in, and Carriages for their conveyance to the spots where their Services are called for; and further, to provide, through the instrumentality of Local Committees, for their proper Management, and the occasional Exercise of their Crews.

To confer Honorary Rewards in the form of Medals and Votes of Thanks, and also to grant Pecuniary Remuneration to all persons who, at the risk of their own lives, save, or attempt to save, those of others on board vessels wrecked, or in distress, upon any part of the coasts of the United Kingdom.

As an index of the necessity for the provision of such a machinery as the above, it may be stated—that the average loss of lives from shipwreck annually on the shores of the United Kingdom is 700.

Donations and *Annual Subscriptions* will be thankfully received by Messrs. WILLIS, PERCIVAL, and Co., 76 Lombard-street; Messrs. COUTTS and Co., 59 Strand; Messrs.
